Resolved that before any further action be taken, the New Municipal Regulations be considered and the matter decided hereafter.

13. Read Government Proceedings No. 4207-8—Mun. (51-02), dated the 21st November 1906, directing the Conservancy lane between sites Nos. 78 and 79 belonging to Mr. K. Subba Rao in Block-1 in the Basavangudi Extension being closed and the land sold to him.

Resolved that the Government be asked to kindly reconsider their Orders, not only because it will be an inconvenient precedent, there being other such applications now pending; but also on sanitary grounds, and for the reason that it will tend to spoil the well-thought-out plans of the Extension.

FINANCIAL DEPARTMENT.

Circular No. 2088—*T. A. D. I.* 807-8, *dated* 22*nd December* 1906.

To—All Disbursing Officers.

It has been observed during the course of audit of establishment pay bills that in the generality of cases of transfers, the salary due for the month in which the transfer has taken place is drawn on more than one bill. In very many instances as many as three bills for the same month on behalf of the same official are cashed at the Treasury, *viz.*, one for the salary due from the 1st of the month to the date on which the official makes over charge, in the establishment from which he is transferred, another for the period of joining time and the third from the date on which he joins his appointment in the establishment to which he is transferred, to the end of the month. The procedure being opposed to the rules contained in Articles 26 and 29 of the Civil Account Code, the Comptroller has the honour to request that, in future, the entire salary for the month in which transfer has been made, may be drawn on a single bill of the establishment to which the officer is transferred, after the close of the month, attaching thereto the requisite last pay certificate.

Circular No. 2087—*T. A. D. Gr. I.* 791, *dated* 17—20*th December* 1906.

To All Disbursing Officers.

It is observed that in column No. 7 of the form of the periodical increment certificate (Financial No. 190) the words "Date of increment or of appointment to post" have been printed instead of "Date of *last* increment or of appointment to post." The attention of Heads of Offices and Departments is therefore invited to Article 62 of the Civil Account Code, Volume I, and they are requested to insert the word "last" in its proper place before the form is used.

Form No. 8 (See Chapter 5, Article 62, Volume I, C. A. C).

PERIODICAL INCREMENT CERTIFICATE.

Certified that the officers named below are allowed the sanctioned periodical increments from the dates cited in column 8 for approved service :—

(1) Having been the incumbent of the appointment specified for not less than years from the date in column 7 after deducting periods of suspension for misconduct and of absence on leave without pay.

I. General and Revenue Secretary's docket No. 2797—Med. F. 86-06-2, dated 8th October 1906, requesting submission of a report with the resolution of the District and Municipal Boards, as to whether the Boards are willing to pay the monthly contribution of Rs. 200, and if so, from what source, towards the upkeep of the Hospital for Women and Children, under construction by the Wesleyan Mission at Hassan.

Resolution.—Resolved that the Board, while fully recognising that the Wesleyan Mission Female Hospital in Hassan is deserving of help, cannot afford to contribute more than Rs. 200 per annum towards the institution, since the District Board already contributes two-third cost of the Government Female Dispensary at Hassan, amounting to Rs. 394 per annum.

Further resolved that provision be made for the extra cost in the ensuing year's District Fund budget, after obtaining Government sanction to the same.

II. Read Government Proceedings No. 3455-65—Med. (297-05)-4, dated the 2nd November 1906, requesting the submission of the resolutions of the District and Municipal Boards, as regards the proposal of the Senior Surgeon for granting mileage to midwives, for journeys performed by them to conduct labor cases, outside their head-quarters.

Resolution.—Resolved that the Board while recognising the necessity for payment of mileage to midwives, when they attend the houses of the poor, who are unable to provide conveyance for them, regret that owing to paucity of funds, it is not possible for the present to make any provision for the same.

III. Read Government Proceedings No. 3613-21—Med. (96-06)-2, dated 5th November 1906, requesting the submission of the resolution of the District Board, concerning the proposal of the Senior Surgeon in the matter of opening branch Dispensaries in certain places in the district, and to state whether the Board are willing to bear the charges of the establishment and medicine required for such Dispensaries.

Resolution.—Resolved that as no extra establishment would be necessary, and that as the cost of medicines and travelling allowances of the Hospital Assistants are not defrayed from District Funds, the Board are of opinion that the extra charges are not such as should be defrayed from such funds.

IV. Read Government Proceedings No. 3722—L. B. (141-06)-2, dated 8th November 1906, making certain observations on the resolution of the District Board, in regard to composition for the toll payable by contractor Alasingrachar as not being in accordance with the rule, as such composition must be by payment of a lump sum to be agreed upon and not by a reduction of rates, etc.

Resolution.—Resolved that the Board compound with toddy contractor Alasingrachar for Rs. 112-8-0 and with tonga contractor Baba Sab for Rs. 45 (concerning conveyances other than mail tongas) for a period of six months.

V. Read Government Proceedings No. 2351-2, dated 6th November 1906, passing orders in the matter of granting as a gift, the chattram building at Gandasi, as a musafirkhana for the convenience of the travelling public, on the understanding that the cost of keeping the building in good repair, be defrayed by the District Board.

Resolution.—Resolved that one rupee per mensem be provided from the District Funds in the budget of the ensuing year, to be added to the pay of the existing sweeper (on Rs. 6 per mensem) of the Gandasi travellers' bungalow, so that his services may be utilised for looking after the musafirkhana also, and that Government sanction be obtained to the same, for being provided in the ensuing year's budget.

VI. Read Government Proceedings No. 3646-7—L. B. (153-06)-2, dated 7th November 1906, recording the resolution of the District Board, approving of the sale of the inspection lodge at Arehalli, to Mr. Habibulla Sahib, who, it is presumed, will maintain the building for the purposes of a musafirkhana.

Resolution.—Recorded with the observation that the subject be adjourned to the next meeting as Mr. Habibulla Sahib is not present at this meeting.

VII. Read Government Proceedings No. 3783-97—L. F. 357-92-34, dated the 9th November 1906, declining to sanction the proposed conversion of in-patient wards of Local Fund Dispensaries into quarters for Hospital Assistants.

Resolution.—Recorded.

VIII. Read Government Proceedings No. 3832—L. B. 162-06-2, dated 10th November 1906, forwarding for report, in consultation with the District Board, a copy of the Coorg Commissioner's letter, in the matter of construction of bridle paths, on roads from Somwarpet, joining Arkalgud-Konanur and Saklespur-Bisle Ghat roads, lying within this district, and requesting information as to whether the Board are willing to undertake the work within their jurisdiction, and if so, when they will be able to complete it and what would be the cost of opening the bridle-paths referred to, and how it will be met.

Resolution.—Resolved that after discussion of the subject before the Board, and consulting the Executive Engineer, a sum of Rs. 2,751 will be necessary as per Executive Engineer's plans and estimate for opening out the two bridle-paths.

Further resolved that as this District Board cannot possibly defray this cost, Government be moved to kindly sanction a grant of the amount from Local Funds General, as these bridle-paths could be very easily converted into cart-tracks hereafter and would be very useful communications between existing main roads. If Government be pleased to sanction this grant, the work could be completed within a period of one year.

IX. Read Government Proceedings No. 3984-91—L. B. (294-05)-15, dated 16th November 1906, ordering that the question of fixing the fee on every notice of demand served on the owners or occupants of houses in Village Unions, may lie over till sufficient experience of the working of the Local Boards Rules have been gained.

Resolution.—Recorded.

X. Read Government Proceedings No. 4369—L. B. (240-06)-1, dated 26th November 1906, stating that as a large sum of money is being spent on improving the Bisle ghat road and as it is difficult to find funds for maintaining this important road, it seems desirable to establish a toll-gate on the road about the spot indicated in the sketch, and requesting that the matter may be placed before the District Board and then submit a copy of their resolution.

Resolution.—Resolved that this subject be adjourned to the next meeting, as the Manjarabad Taluk Board's resolution has not yet been received.

XI. Read Government Proceedings No. 3030-39—San. (68-06)-3, dated 23rd October 1906, circulating for opinion, Senior Surgeon's letter proposing to retain Work Inspectors in addition to Sanitary Inspectors, on the ground that to impose Work Inspector's duties on the Sanitary Inspector must largely handicap that official in the performance of his itinerate duties.

Resolution.—Resolved that the Board are of opinion that the District Funds cannot possibly meet the cost of employing both a Sanitary Inspector and a Work Inspector for each taluk, and that there is no alternative but to require the Sanitary Inspector to do the duties of the present Work Inspector, in addition.

XII. Read the General Assistant Commissioner's memo No. 756—899, dated 7—13th October 1906, submitting the report of the Channarayapatna Taluk Amildar together with the resolution of the Sravanabelagola Union, requesting that arrangements be made to credit the other half of the Union income to the District Funds, (which is now being given away to the Matt) so as to enable the Union Panchayat, to provide street lamps in the Union, during dark nights.

Resolution.—Resolved that the subject be adjourned to the next meeting, as previous correspondence on the subject in the Municipal and Muzrai Departments has to be called for and looked into.

XIII. Read Arkalgud Taluk Amildar's report No. 371—1016, dated 25—27th October 1906, submitting the resolution of the Taluk Board, recommending the sanction of a sweeper to the Hebbale village.

Resolution.—Resolved that as there are many larger villages than Hebbale in the several taluks of the district, where there are similar requirements, the resolution of the Arkalgud Taluk Board will be considered along with those requirements when more funds are available.

XIV. Read Hassan Taluk Amildar's report No. 320—1257, dated 3rd December 1906, submitting a list of necessary articles for the use of the Vaidyasala at Grama.

Resolution.—Resolved that as a sum of Rs. 50 has been provided in the budget, for supply of furniture, etc., to the Vaidyasalas at Grama and Harnahalli, necessary articles be now supplied at a cost of Rs. 25 each.

XV. Read the General Assistant Commissioner's yadi No. 927—1083, dated 9th November 1906, submitting an estimate for the purchase of dust-bins for the use of Hirisave village.

Resolution.—Resolved that the estimate of Rs. 35 be sanctioned for the supply of dust-bins, and that the cost be met out of Rs. 300 under "VI Conservancy and sanitary charges (*b*) Removing manure pits and filling cess pools."

XVI. Read estimates for budgetted works:—

The villagers are reported to have done earthwork excavation to the value of Rs. 300, and have also paid contribution of Rs. 50 which is reported to be held in deposit.

FINANCIAL DEPARTMENT.

Circular No. 2088—*T. A. D. I.* 807-8, *dated* 22*nd December* 1906.

To—All Disbursing Officers.

It has been observed during the course of audit of establishment pay bills that in the generality of cases of transfers, the salary due for the month in which the transfer has taken place is drawn on more than one bill. In very many instances as many as three bills for the same month on behalf of the same official are cashed at the Treasury, *viz.*, one for the salary due from the 1st of the month to the date on which the official makes over charge, in the establishment from which he is transferred, another for the period of joining time and the third from the date on which he joins his appointment in the establishment to which he is transferred, to the end of the month. The procedure being opposed to the rules contained in Articles 26 and 29 of the Civil Account Code, the Comptroller has the honour to request that, in future, the entire salary for the month in which transfer has been made, may be drawn on a single bill of the establishment to which the officer is transferred, after the close of the month, attaching thereto the requisite last pay certificate.

Circular No. 2087—*T. A. D. Gr. I.* 791, *dated* 17—20*th December* 1906.

To All Disbursing Officers.

It is observed that in column No. 7 of the form of the periodical increment certificate (Financial No. 190) the words "Date of increment or of appointment to post" have been printed instead of "Date of *last* increment or of appointment to post." The attention of Heads of Offices and Departments is therefore invited to Article 62 of the Civil Account Code, Volume I, and they are requested to insert the word "last" in its proper place before the form is used.

Form No. 8 (See Chapter 5, Article 62, Volume I, C. A. C).

PERIODICAL INCREMENT CERTIFICATE.

Certified that the officers named below are allowed the sanctioned periodical increments from the dates cited in column 8 for approved service :—

(1) Having been the incumbent of the appointment specified for not less than years from the date in column 7 after deducting periods of suspension for misconduct and of absence on leave without pay.

(2) Being entitled to the increments as shown in the explanatory memo attached.

Name of incumbent	Whether substantive or acting	Appointment		Rate of increment		Date of last increment (or of appointment to post)	Rate of present increment	Pay after present increment	Suspended for misconduct		Leave without allowances	
		Maximum	Minimum	Annual	Biennial				From	To	From	To
1	2	3	4	5	6	7	8	9	10	11	12	13

N. B.—The figure (1) or (2) should be placed against each name according as the reason (1) or (2) applies. The explanatory memo should be submitted in any case in which an increment is given otherwise than for continuous service of the prescribed period.

No. 8500, *dated* 4—8*th February* 1907.

Circular No. 8491-92, *dated* 26*th January*—8*th February* 1907.

To—The Deputy Commissioners of Districts.

With reference to Dasara Representative Assembly Subject No. 138 of 1906, the Revenue Commissioner resolves to issue the following instructions:—

Whenever there is no recognized cattle path from the village site to the village gomal lands, the Amildar should provide one with the consent of the holders of the lands through which the cattle path will pass and arrange to have the path marked in the village map by writing to the Survey Department.

In case, such consent cannot be obtained, the provisions of the Land Acquisition Regulation must be applied for the acquisition of the cattle path if the villagers agree to pay the cost of such acquisition. The Revenue Commissioner trusts that such cases will be rare and that in the vast majority of cases the exercise of the personal influence of the local Revenue Officers will prevent a recourse to the Land Acquisition Regulation.

I. Docket No. 2261 of 1st September 1905, from the Secretary to Government, General and Revenue Departments, forwarding the District Medical and Sanitary Officer's inspection notes of the tanneries in Devarajeebanahalli, Bangalore Taluk, and requesting to cause the necessary improvements effected thereto, and to submit the District and Taluk Boards' resolution on the feasibility or otherwise of the proposal to remove the tanneries to a distance from the village.

Proposed that a Committee be formed to inspect the place thoroughly and submit proposals for a model tannery at the next meeting.

II. Docket No. 3101—L. B. (120-6)-2, dated 25th October 1906, from the Secretary to Government, General and Revenue Departments, forwarding copy of letter No. 1220, dated the 17th September 1906, from the Military Assistant to Government, requesting sanction for the opening of four cattle-pounds in the Hessarghatta Grass Farm, and for placing them under the charge of Farm Assistant, instead of the patels of the villages, and requesting the submission of the Board's resolution with the President's opinion in the matter.

The Board is of opinion that the present two cattle-pounds are sufficient to meet all requirements and that they should be left in charge of the patels to facilitate inspection by the Revenue Officer.

III. Docket No. 4409—1255, dated 8th October 1906, from the Executive Engineer, Bangalore Division, regarding the improvements to be effected to Gudemaranahalli-Magadi road, and calling for opinion as to the advisability of improving this road in the Magadi town from a special grant.

Resolved that a special grant of Rs. 390 be made for this year.

IV. Government Proceedings No. 3445-6—L. B. (2-06)-4, dated 2nd November 1906, declining to sanction the opening of a Hindu Vaidyasala at Chickamaralvadi in the Kankanhalli Taluk.

Recorded.

V. Government Proceedings No. 3455-65—Med. (297-05)-4, dated the 2nd November 1906, forwarding Senior Surgeon's letter No. 920, dated the 7th June 1906, bringing to notice certain defects in the midwifery arrangements existing at present, and recommending as a remedial measure that mileage may be granted to midwives for journeys performed by them to conduct cases outside their head-quarters, and requesting to place the matter before the Board and to submit the Board's resolution in the matter with the President's opinion.

The Board is of opinion that provision may be made for this at the rate of 1½ annas per mile for any distance exceeding one mile from their Municipal limits, and that where conveyance is not supplied the patel's certificate may be accepted.

VI. Government Proceedings No. 3631-21—Medl. (97-06)-2, dated 5th November 1906, *in re* the establishment of Branch Dispensaries in certain places, and requesting to place the matter before the Board in order to ascertain their views as to the utility of the Branch Dispensaries and their willingness to bear the charges for establishment and medicine, and to submit the Board's resolution with the President's opinion thereon.

Resolved that the Hospital Assistant should visit the places once a week as per revised list now attached, and that the Board is willing to bear the charge of medicines but fail to see the necessity of an extra establishment as the Hospital Assistant can take his compounder with him, whose travelling expenses the Board is willing to bear.

VII. Government Proceedings No. 4199-201—L. F. (165-06)-2, dated the 21st November 1906, regarding the temporary removal of the Dispensary from Vartur to Whitefield, and requesting the Senior Surgeon to ascertain from the President the views of the District Board and to submit a further report in the matter.

Board is of opinion that there is no objection for the removal of the Hospital as a temporary measure during the prevalence of plague at Vartur, but that it should be removed back as soon as plague subsides.

VIII. Superintending Engineer's letter No. 6581 of 20th November 1906, stating that the project of constructing a girder bridge across the Hoskote Fort ditch on the Sulibele road at an estimated cost of Rs. 6,714 is unnecessary and inadvisable under the present state of District Funds; and requesting to be informed if the project may not be dropped. If agreed to by the President he would arrange for the carrying out one of the alternatives mentioned in para 2 of his letter.

Resolved that as the money is more urgently required for other purposes that the question of the bridge may lie over for the present and a road dam made for a hot-weather road.

Resolved that the next meeting be held on 15th February 1907.

OFFICIAL MEMORANDUM.

Subject—

Printed list of District and Taluk establishments corrected up to 1st July 1905.

In accordance with Government Proceedings No. 944-5—73-05-2, dated 24th July 1905, authorizing the printing half-yearly of lists of District and Taluk establishments, Deputy Commissioners of Districts were requested on the 23rd August 1905 in this office Circular No. 2309-16 to submit early the necessary lists corrected up to 1st July 1905. There was no prompt response from the districts, and it was not till the 18th December 1905 that the lists of all the districts were received.

2. Nor were they prepared on any uniform plan. In regard to the establishment of the District offices, all the districts except Tumkur and Chitaldrug distributed their office establishments according to the departments to which they belong, while the Chitaldrug District submitted one list for all the departments and the Tumkur District included therein not only all the departments in the Deputy Commissioner's office but also the establishments of the Sub-Division Offices. The districts of Bangalore, Mysore, Hassan, Shimoga and Chitaldrug submitted consolidated lists for the Sub-Division Offices, while Kolar and Kadur furnished separate lists for each Sub-Division Office.

3. In regard to the establishments relating to the taluk offices the diversity was not less marked. Kolar and Kadur Districts submitted separate lists for each taluk office while all the other districts gave a consolidated list for all the taluks.

4. In order to save further delay the establishment lists received from the districts were sent to the Press as received with a preliminary consolidated list of the scale of the different offices and with a uniform classification of the headings of the various columns. Even this involved no small labor as the lists which had been written on both sides of the paper and in a variety of ways had to be re-written and the details entered under appropriate headings.

5. The lists which were sent to the Press on the 30th December 1905 were after all received back in the shape of a printed volume on the 18th January 1907.

6. After such an inordinate delay and with the absence of uniformity in the contents, the lists are not as useful as they should be.

7. As half-yearly printed lists appear unnecessary, the lists in future will be printed every year or once in two years as necessity for them arises.

8. But it is absolutely essential to bring up the lists every year by additions to or alterations in the present one by attaching to it fly leaves. Therefore Deputy Commissioners of Districts, the Registrar of Co-operative Societies and Inspector of Agricultural Banks and the Cattle Diseases Inspector are requested to submit so as to reach this office before the 30th July of every year (from the year 1907) the scale and lists of their establishments, as they stood on the 30th June preceding, written only on one side of the paper, ready for transmission to the Press, if it be decided to print the same. The lists should be prepared on open full sheets of foolscap paper in the form now appended to this circular.

9. Delay in the submission of the lists should be avoided and the officers are informed that if they fail to submit the lists in time their offices will be omitted from the printed volume and a report made to Government.

10. The lists will be sent to the Press after being checked on or about the 15th August and special arrangements will be made with the sanction of Government to complete the printing before the end of September following.

11. Separate copies of the printed lists have been forwarded to Assistant Commissioners, Amildars and Deputy Amildars direct for their information.

Revenue Commissioner.

REGISTRATION DEPARTMENT.

Circular Memorandum No. 3 *of* 1906-07.

The following instructions in connection with the grant of applications for searches or for copies are issued for the guidance of all the Registering Officers in the Province :—

(1) The fee for a search shall entitle the applicant to read the entry for the finding of which it has been paid, or to have it read to him, but it shall not entitle him to take a copy of the entry except a note of the number and date thereof on a slate for subsequent transcription on paper. If a search should prove fruitless, the fee shall not be refunded, but the applicant shall, if he wishes it, receive a certificate stating that the entry sought for has not been found in the books.

(2) All applications for searches or for copies should be made as far as possible in the form given below to the Registering Officer himself. All such applications should be preserved on a separate file, the date on which a search has been made or copy completed being noted thereon. Every application for the grant of a certified copy, unless made at the time of registration of a document, shall be considered as an application for search and charged accordingly, provided, however, that no search fees shall be charged in respect of a document of which a copy is applied for when the names of the claiming and executing parties, the nature and date of the document, the date of registration are given in the application for copy. A search for documents executed by, as well as in favor of, one and the same person shall be considered as a single search.

(3) When an application is made for a copy, the search should be made, if possible, while the applicant is in attendance.

(4) An application for search should be struck off if the search is not made within thirty days from the date of the application ; and after that date no refund of the search fee should be allowed.

(5) In the case of all searches applicants must be required to state briefly the nature of documents. This is absolutely necessary for determining whether the applicants are entitled to have copies of documents applied for. They must also be required to state the period during which search has to be made. Particulars of the property or the names of claimants and executants should also be given in the application. In cases however where a general search is required to be made the names of executants or claimants need not be ascertained as in all such cases it will be sufficient to know the description of the property and the name of the owner thereof. If for instance an applicant applies for a list of documents executed during a certain period by a particular person, the list ought to show the names of parties in whose favor they were executed. Similarly when an application is made for a list of documents executed in favor of an individual, the list ought to show the names of the several persons who executed them. A copy of the form of application given below should be hung up at a conspicuous place in each office and the attention of parties drawn to the same whenever necessary.

(6) Certificates of encumbrances should relate only to the property described in the applications and belonging to the persons therein named. Accordingly when several individuals hold shares in certain fields described in an application, the encumbrances on the share not belonging to the individuals mentioned therein shall not be noted in the certificate.

(7) All fees for searches and copies should be received in advance. Registering Officers should grant receipts for fees deposited with them.

(8) On receipt of an application for search or copy the Registering Officer should note on it the following particulars:—

(1) Date of receipt. (2) Amount of fee deposited. (3) Name of the clerk deputed to make the *requisite search or copy*. (4) Result of the search (this should be noted by the clerk and initialled by him). (5) Signature of the registering officer (this should be affixed after verifying personally the result noted by the clerk).

(9) Copies of entries in Book I may be furnished by a registering officer, if the person requiring them sends an application by post, distinctly specifying the property, etc., in respect of which the books have to be searched, and further remits by money order the fee payable for the search and other charges including postage. The stamp papers on which copies of entries are to be engrossed should also be sent by the applicant.

(10) All copies of entries on documents furnished by Registering Officers should be certified to be "true copy" and such certificate should be dated and subscribed by the officer concerned with his name and official title and attested by his office seal. The seal however need not be affixed to each sheet. It will be sufficient if the seal and signature are affixed to the last sheet and the remaining sheets are initialled by the registering officer.

(11) There is no objection to the grant, without levying a search fee, of certified copies of documents pending registration.

(12) There should be no delay in complying with applications for certified copies or searches.

REGISTRATION DEPARTMENT.

Circular Memorandum No. 3 of 1906-07.

The following instructions in connection with the grant of applications for searches or for copies are issued for the guidance of all the Registering Officers in the Province :—

(1) The fee for a search shall entitle the applicant to read the entry for the finding of which it has been paid, or to have it read to him, but it shall not entitle him to take a copy of the entry except a note of the number and date thereof on a slate for subsequent transcription on paper. If a search should prove fruitless, the fee shall not be refunded, but the applicant shall, if he wishes it, receive a certificate stating that the entry sought for has not been found in the books.

(2) All applications for searches or for copies should be made as far as possible in the form given below to the Registering Officer himself. All such applications should be preserved on a separate file, the date on which a search has been made or copy completed being noted thereon. Every application for the grant of a certified copy, unless made at the time of registration of a document, shall be considered as an application for search and charged accordingly, provided, however, that no search fees shall be charged in respect of a document of which a copy is applied for when the names of the claiming and executing parties, the nature and date of the document, the date of registration are given in the application for copy. A search for documents executed by, as well as in favor of, one and the same person shall be considered as a single search.

(3) When an application is made for a copy, the search should be made, if possible, while the applicant is in attendance.

(4) An application for search should be struck off if the search is not made within thirty days from the date of the application ; and after that date no refund of the search fee should be allowed.

(5) In the case of all searches applicants must be required to state briefly the nature of documents. This is absolutely necessary for determining whether the applicants are entitled to have copies of documents applied for. They must also be required to state the period during which search has to be made. Particulars of the property or the names of claimants and executants should also be given in the application. In cases however where a general search is required to be made the names of executants or claimants need not be ascertained as in all such cases it will be sufficient to know the description of the property and the name of the owner thereof. If for instance an applicant applies for a list of documents executed during a certain period by a particular person, the list ought to show the names of parties in whose favor they were executed. Similarly when an application is made for a list of documents exe-

cuted in favor of an individual, the list ought to show the names of the several persons who executed them. A copy of the form of application given below should be hung up at a conspicuous place in each office and the attention of parties drawn to the same whenever necessary.

(6) Certificates of encumbrances should relate only to the property described in the applications and belonging to the persons therein named. Accordingly when several individuals hold shares in certain fields described in an application, the encumbrances on the share not belonging to the individuals mentioned therein shall not be noted in the certificate.

(7) All fees for searches and copies should be received in advance. Registering Officers should grant receipts for fees deposited with them.

(8) On receipt of an application for search or copy the Registering Officer should note on it the following particulars:—

(1) Date of receipt. (2) Amount of fee deposited. (3) Name of the clerk deputed to make the *requisite search or copy*. (4) Result of the search (this should be noted by the clerk and initialled by him). (5) Signature of the registering officer (this should be affixed after verifying personally the result noted by the clerk).

(9) Copies of entries in Book I may be furnished by a registering officer, if the person requiring them sends an application by post distinctly specifying the property, etc., in respect of which the books have to be searched, and further remits by money order the fee payable for the search and other charges including postage. The stamp papers on which copies of entries are to be engrossed should also be sent by the applicant.

(10) All copies of entries on documents furnished by Registering Officers should be certified to be "true copy" and such certificate should be dated and subscribed by the officer concerned with his name and official title and attested by his office seal. The seal however need not be affixed to each sheet. It will be sufficient if the seal and signature are affixed to the last sheet and the remaining sheets are initialled by the registering officer.

(11) There is no objection to the grant, without levying a search fee, of certified copies of documents pending registration.

(12) There should be no delay in complying with applications for certified copies or searches.

REGISTRATION DEPARTMENT.

Circular Memorandum No. 3 of 1906-07.

The following instructions in connection with the grant of applications for searches or for copies are issued for the guidance of all the Registering Officers in the Province :—

(1) The fee for a search shall entitle the applicant to read the entry for the finding of which it has been paid, or to have it read to him, but it shall not entitle him to take a copy of the entry except a note of the number and date thereof on a slate for subsequent transcription on paper. If a search should prove fruitless, the fee shall not be refunded, but the applicant shall, if he wishes it, receive a certificate stating that the entry sought for has not been found in the books.

(2) All applications for searches or for copies should be made as far as possible in the form given below to the Registering Officer himself. All such applications should be preserved on a separate file, the date on which a search has been made or copy completed being noted thereon. Every application for the grant of a certified copy, unless made at the time of registration of a document, shall be considered as an application for search and charged accordingly, provided, however, that no search fees shall be charged in respect of a document of which a copy is applied for when the names of the claiming and executing parties, the nature and date of the document, the date of registration are given in the application for copy. A search for documents executed by, as well as in favor of, one and the same person shall be considered as a single search.

(3) When an application is made for a copy, the search should be made, if possible, while the applicant is in attendance.

(4) An application for search should be struck off if the search is not made within thirty days from the date of the application ; and after that date no refund of the search fee should be allowed.

(5) In the case of all searches applicants must be required to state briefly the nature of documents. This is absolutely necessary for determining whether the applicants are entitled to have copies of documents applied for. They must also be required to state the period during which search has to be made. Particulars of the property or the names of claimants and executants should also be given in the application. In cases however where a general search is required to be made the names of executants or claimants need not be ascertained as in all such cases it will be sufficient to know the description of the property and the name of the owner thereof. If for instance an applicant applies for a list of documents executed during a certain period by a particular person, the list ought to show the names of parties in whose favor they were executed. Similarly when an application is made for a list of documents exe-

cuted in favor of an individual, the list ought to show the names of the several persons who executed them. A copy of the form of application given below should be hung up at a conspicuous place in each office and the attention of parties drawn to the same whenever necessary.

(6) Certificates of encumbrances should relate only to the property described in the applications and belonging to the persons therein named. Accordingly when several individuals hold shares in certain fields described in an application, the encumbrances on the share not belonging to the individuals mentioned therein shall not be noted in the certificate.

(7) All fees for searches and copies should be received in advance. Registering Officers should grant receipts for fees deposited with them.

(8) On receipt of an application for search or copy the Registering Officer should note on it the following particulars:—

(1) Date of receipt. (2) Amount of fee deposited. (3) Name of the clerk deputed to make the *requisite search or copy*. (4) Result of the search (this should be noted by the clerk and initialled by him). (5) Signature of the registering officer (this should be affixed after verifying personally the result noted by the clerk).

(9) Copies of entries in Book I may be furnished by a registering officer, if the person requiring them sends an application by post distinctly specifying the property, etc., in respect of which the books have to be searched, and further remits by money order the fee payable for the search and other charges including postage. The stamp papers on which copies of entries are to be engrossed should also be sent by the applicant.

(10) All copies of entries on documents furnished by Registering Officers should be certified to be "true copy" and such certificate should be dated and subscribed by the officer concerned with his name and official title and attested by his office seal. The seal however need not be affixed to each sheet. It will be sufficient if the seal and signature are affixed to the last sheet and the remaining sheets are initialled by the registering officer.

(11) There is no objection to the grant, without levying a search fee, of certified copies of documents pending registration.

(12) There should be no delay in complying with applications for certified copies or searches.

MEMORANDUM ON VILLAGE GRAIN STORES IN THE MYSORE STATE.

(Submitted to the Simla Conference held in September last.)

I have always understood that the main object of Act X of 1904 of the Government of India is to develop an organization which is to serve as a ready resort to the agriculturists for procuring the credit that they need for the better cultivation of their holdings and for the better utilization to their own profit of the products of their labor. Lord Curzon in his farewell speech at the Byculla Club, apparently had also this feature of the enactment before his mind's eye when he said—" It is the Indian poor, the Indian peasant, the patient, humble, silent millions, the 80 per cent who subsist by agriculture, who know very little of politics but who profit or suffer by their results, and whom men's eyes, even the eyes of their own countrymen, too often forget— to whom I refer. He has been in the background of every policy for which I have been responsible, of every surplus of which I have assisted in the disposition. We see him not in the splendour and opulence nor even in the squalor of great cities. He reads no newspapers, for as a rule he cannot read at all; he has no politics. But he is the bone and sinew of the country; by the sweat of his brow the soil is tilled; from his labour comes one-fourth of the national income; he should be the first and final object of every Viceroy." The first interest of Government, as the ultimate landlord in India, may be said therefore to be centered in developing a system of banking whereby the rural folk may readily obtain the accommodation they need for agricultural and other purposes without having to pay exorbitant rates of interest and with a clear understanding of the transactions whenever they take fresh loans or discharge old ones.

2. The question then is, how are we to proceed in setting up an organization which will be useful to the rural inhabitants of India, whether we are to start from the village as a unit and elaborate a scheme which would ultimately reach Taluk and District centres, or whether we are to work our way from the last two centres and reach the villages. I have found that people at Taluk and District centres are not unwilling to have co-operative institutions in their midst, but their ideas, at any rate in the beginning, do not travel beyond their own immediate profits, and they feel it difficult to conceive that there can be any identity of interests between themselves and the rural people. Even where such identity is perceived, there is more or less reluctance to include as members people belonging to the smaller agricultural classes of villages. For the present purpose, it is unnecessary to inquire into the causes of this reluctance; I think it is enough to recognise the existence of such feeling and till time and better knowledge are able to work a cure, to adopt other aways of helping the village folk.

3. Fortunately, the villagers themselves are not without resources. In raiyatwari tracts such as may be said to universally exist in Madras, Bombay, Berar and Central India, almost every person in a village owns in his own name some extent of land or has some interest in land. Even where there is a co-sharing body holding the landlord right over the whole village as in Punjab and the United Provinces, I believe—I speak subject to correction—that many of the co-sharers themselves cultivate the land and do not differ in status from the raiyatwari holders as among themselves. Whatever may be the case, there is always security for the loan advanced to the raiyat and the Sowkars or professional money-lenders have not been slow to benefit by such security. Their capital, however, being inadequate to meet all the wants of the villagers, and as they are not able to keep it in constant circulation, ready accommodation, even when sufficient security is forthcoming is not possible, and among others the present unsatisfactory cultivation of the village lands is to a great extent due to this want of funds on the part of the villagers in the cultivation season. The primary object should therefore be to supplement the Sowkar's capital wherever available with other funds also.

4. In seeking the sources for such funds, I have found that in Mysore the most efficacious source is the village land-holder himself, who is at present an isolated unit, but who can be to a large extent constituted in the course of some years his own banker. To the raiyat, it is always an insuperable obstacle to be asked to furnish capital in cash, if he wishes to join an agricultural bank or a co-operative society. From my observation of village life, I have found that he will readily consent to furnish a quantity of grain, especially if the demand is made in the harvest season, and combination of villagers in this direction will, it is likely, have far reaching effects on village economy.

5. The shades of the old *barabaluti* system (or the Village Twelve), although at present regarded as a mere name, still linger in the village. The Shanbhog (Patwari or karnam) and the Patel (Lambardar or Manigar) do not now look to the villagers for their remuneration in the shape of a share of the grain harvested annually. The *Toti* (watchman) and the *Talari* (beadle) still eke out a meagre existence on the old system with some show of being able to enforce their right for a share of the grain. There are others, however, who have not lost their existence in the village autonomy and to whom year after year grain contributions are voluntarily continued. These are the barber, the pot-maker, the carpenter, blacksmith, the washerman, and in some places the Panchanga Brahmin or astrologer. These receive annually a fixed share of the grain, generally from one to ten seers per Khandaga of the yield of grain per house. A grain contribution therefore is not foreign to the minds of the villagers, and I think, an association of villagers pledged to pay a quantity of grain annually as their capital has far better chances of success than if the share-capital is to come in any other shape.

6. To begin with, I think it desirable to select in each taluk two or three villages having each a population of about a thousand or more, and preferably villages where the existing elementary schools have given a smattering of education to the inhabitants. Whatever the shortcomings of these schools or their masters may be at present, my contact with village life, especially during the past six months, when I have visited the villages with an eye to a special purpose, has shown me that education however elementary and however defective, has still some influence in opening the minds of the villagers to new ideas. For instance, some time ago, I visited two villages Bommasandra and Mayasandra, both in the Anekal Taluk of the Bangalore District. While in the latter place, where there is a school, I found the inhabitants evincing intelligent interest in the scheme I explained to them, in the former I felt that my words fell on minds which were as impervious to them as the stones of the mantap in which we were gathered.

7. Having selected a few villages of the right sort, the next business is to ascertain who the present money or grain lenders are. If they happen to be, according to local ideas, comparatively large capitalists, it is best to discuss the scheme with them and bring home its advantage to them. My experience of these people is that they are sheewd enough to perceive the advantages of a Co-operative scheme, but that they oppose it if they are not taken into confidence and consulted. It may also be necessary to allow some share to them in the management when an association is started. It may be remarked, however, that there are several villages where there are no Sowkars constituting the customary money-lenders of the place, and where the villagers manage to obtain accommodations from any person who has trust in them. There is therefore wide scope for choice, and I have no fear of the scheme collapsing from any opposition on the part of the existing money-lenders, as their influence is not all-pervading.

8. In the villages selected for operation, the next business is to get together a large gathering of the inhabitants as possible and address them with some previous knowledge of the economic life of the village derived from the village registers and from books of the Registration Department. A proposal for a grain contribution towards capital—which, it should be explained, will belong to each member according to his share and which could be withdrawn when he disconnects himself from the association—generally receives a ready response from the majority of the assembled raiyats, although there will be prolonged discussion and exchange of whispers as regards the exact quantity that each is to contribute per Khandaga or Palla (100 seers) of grain. In assessing the grain contribution it is best to avoid assessing either on the rupee-basis of Kandayam (Government rent) or on the basis of the number of ploughs maintained. In both these cases, the contribution becomes fixed in quantity, but the raiyat I find, prefers an elastic basis, a basis varying according to the quantity of grain grown by him. This varying contribution will also be in keeping with the existing customary contributions given to the carpenter and others mentioned above.

9. Having ascertained the names of those willing to join the village society,—the fewer the better in the beginning, provided the number is not below the legal limit of ten,—the next object should be to appoint a panchayet generally consisting of from five to nine members, so as to include as many of the intelligent and influential men of the place as possible. In the villages of Mysore, I have found that people of several castes come forward freely to co-operate in institutions where no questions pertaining to caste arise. The nomination of a panchayet should, however, be done in the presence of the assembled members, so that the names may commend themselves to them. The gathering may then be dissolved.

10. The panchayet may then proceed to collect the subscribed grain-capital and store them in a selected grain-pit which can be easily found in a village. They may also frame a few rules of management, which, after being placed before the general body of members, should receive the sanction of the Registrar. Once or twice a week, whenever there are any applications for loans of grain, the quantity required may be lent out according to the rules of the Society. Whenever grain is to be put into the store or taken out of it, it should be so done in the presence of at least two members of the panchayet. A month or two before the next harvest, when the prices are generally high, half the quantity of the total grain collected for the whole year or any other quantity which may be fixed with due regard to the keeping of the grain, etc., may be sold for cash, provided the harvest is assured. Money capital will also thus become more and more available for loans to members, for payment of assessment, for needs of cultivation, or for family purposes. These operations may be repeated year after year, and the store of grain may go on increasing till the quantity kept in stock is fairly sufficient for the maintenance of the members and their families for, say, half the year. This store will be a provision constantly kept up against the failure or deficiency of any harvest. In other words, while serving as a reserve to raise money capital when necessary, the store will also serve as an insurance against seasonal uncertainties.

11. The accounts to be maintained are a Day-book (Khiradi), a Ledger (Khate) and a File-book of documents which under the concessions granted as to stamp duty will all be on plain paper. In the beginning of every month a return should be compiled showing the quantity of grain in store, or amount of money in hand, the quantities or amounts lent in the previous month, and the names of the individuals to whom they were lent. The return may be

duplicate, one copy being filed in the Taluk Cutcherry and another copy sent to ar. The Amildar (Tahsildar or Mamlatdar) may in his tours in the taluk satisfy occasional inspections of the correctness of the entries in the account books. Under of the Co-operative Act, each Society is entitled to a free audit of the accounts once he hands of the Registrar. The same section also gives power to the Deputy Com- r Collector or any person authorized by him in this behalf, to inspect at any time accounts, papers, etc., of a Society. To help the panchayet in fixing the amount of granted to a member, extracts from the Village Khate (Ledger) may usefully be for reference, and the encumbrances on the lands as known from the Registration t books may also be noted from time to time. The book containing this information s a sort of castelletto in fixing the credit of a member. Other books to be maintain- gister of members and a minute-book.

The cost of maintenance will, unless the number of members very largely increases ansactions become numerous, not be much. The account forms being on the basis forms, will be easily understood and a literate person may be employed to write up unts for a small annual remuneration or honorarium calculated on the profits of the The members of the panchayet need be given no remuneration, at any rate in the as the work to be done is of a simple nature and will occupy but a very small part me. No large establishment for guarding the store is necessary also, as on account fined air in the grain-pits when covered these pits have to be kept open for a num- rs before a person can enter them and take out any grain. The members may be keep an eye on the store by turns and the village watchman may be given a small tion for guarding it specially. In fact, each member of the association being himself in the store, and considering that on account of its narrow limits every small event known in a village, it will be rare that any unauthorized meddling with the store r.

Each village store may generally begin as an independent one; but as the number of es increases, they will require to be federated to a central association at the Taluk rters on some such lines as those of the Village Union and the Taluk Boards. While -store may remain in the village, the cash realised may be transferred to the custody sociation at the Taluk Head-quarters, to be dealt with according to the rules which amed when the need arises. Ultimately other central organizations federating the sociations may also be needed. From what I have seen of village life, I believe that a f the kind I have sketched is more likely to commend itself to the villagers than a bitious one from the top radiating to the villages, although attempts in this direction lso be vigorously made. The merit of a village store is its publicity and its simplicity. e within the comprehension of any ordinary villager and every transaction will be the he place, possibly even before it may actually take place. The store will be under the te eye of every member or other person who may happen to pass by it, and accustom- e villagers are to preserve grain in pits or other receptacles, a store of the kind I have ed, will appear to be the safest form in which it can be maintained, as much on account se with which it can be kept up, as on account of the confidence which it is sure to n the minds of the villagers, that the store is not a fraud but that it is started solely for nefit.

The annual general meeting may be held on the Hindu New-year's-day (Ugadi), other day of rejoicing. In course of time, the village associations may, if properly ed, furnish funds for the primary education of its members and others, look to the sanitation of the village, and in other ways be helpful to the fulfilment of the communal However, these are only dreams now, and I think, we may for the present limit our- o the work of starting village stores on the lines indicated by me in a few selected places as experiments, and on the strength of the experience thereby gained, guide our future The motto of *festina lente* should be the motto of every village store to be started ex- ntally, for the chief recommendation of the motto, it is apparent, is the cautious wisdom dvice.

Two stores of the kind described by me have been lately started in two villages in the State, one at a place called Kotta in the Sira Taluk and the other at a village called ndra in the Anekal Taluk. I append the rules which guide these stores at present. rules, I may add, explain a few points which could not find mention in the body of the Memorandum.

Resolved that a Committee be formed to go through the matter carefully and bring up any proposals at another meeting. The Committee to consist of the President, Mr. Cook, the Senior Surgeon and District Medical Officer, Mr. Venkata Char, Executive Engineer, and Messrs. D. Venkataramaiya, Dorasami Iyer, Appajiah, C. Krishnamurti, Venkatarangiengar, Hardy, N. Ramabhadriah and Oosman Khan.

3. Read Government Proceedings No. 5333—Ml. 115-05-9, dated the 20th December 1906, approving the Board's recommendation as proposed by the City Municipal Schools Committee that the Committee may be dissolved and a Standing Sub-Committee of the Municipal Commissioners consisting of Messrs. D. Venkataramaiya, B. Appajiah and N. Ramabhadraiya be appointed to supervise the Kannada Municipal and Aided Schools in the City.

Resolution.—Recorded.

4. Read the General and Revenue Secretary's docket No. 5090—Ml. 69-06, dated the 14th December 1906, forwarding for disposal petition from one Gurupadappa, editor of 'Jayadhwaja,' praying for some suitable help from Government.

Resolved that a copy of the endorsement already granted to petitioner be forwarded to Government.

5. Read the General and Revenue Secretary's docket No. 5449-50—Ml. 310-06-2, dated the 22nd December 1906, calling for information as regards the amount of expenditure incurred, income realised and the cost of maintenance of the Electric Power Distribution Establishment in the City, and enquiring if a reduction in rates for house-connections proposed by the Members of the last Representative Assembly is feasible.

Resolution.—After discussing the letter received from Mr. Gibbs, Chief Electrical Engineer, it is resolved that as the present rates per unit—metre rate and flat rate—are too high to allow of small house-owners applying for the same, Government be asked to reduce the present rates and remove the metre hire of Re. 1 per month and it be ascertained how many applicants require such lights at reduced rates within the next six months, and further, the Board would beg to point out that the conclusion arrived at by the Chief Electrical Engineer in his letter of the 21st instant cannot be taken as correct, considering the initial state of the present Electrical Lighting Scheme.

6. Read the General and Revenue Secretary's docket No. 5420—Ml. (304-06-2), dated the 21st December 1906, calling for the opinion of the Board as regards the necessity for the revision of the rules relating to the supply of Hessarghatta water to the Bangalore City as prayed for by the Members of the last Representative Assembly.

Resolved that this question be adjourned to next meeting.

7. Read proposal to hold the City Market Show on the 15th of March 1907.

Resolved that the period is too late in the season to allow of a good Show.

Explanatory memo to accompany the Budget Estimates of the Bangalore City Municipality for the year 1907-08.

The opening balance on 1st July 1906 as intimated by the Comptroller after closing the accounts for June 1906 (final) was Rs. 1,02,572. Adding to the above, the estimated receipts for the current year, *viz.*, Rs. 3,22,269 and deducting the estimated expenditure, *viz.*, Rs. 3,27,705, the opening balance for 1907-08 is Rs. 1,07,136.

	1906-07	1907-08
Class I. (*a*) Cocoanuts, fresh ...	6,000	6,500
(*c*) Betel-leaves	6,320	7,000
„ II. Tobacco, local and foreign....	9,500	10,000
„ III. Timber ...	6,000	7,000
„ IV. Tiles ...	100	140
„ V. Piece goods ...	22,000	26,000
„ VI. (*a*) Sugar ...	2,600	3,200
(*e*) Horse gram	1,500	1,700

I. Octrci.—The trade in the marginally noted commodities has been steadily rising owing to the large demand in the market. The actuals of the past two years and the first half of the current year justify the estimates under this head being raised from Rs. 56,480 sanctioned for 1906-07 to Rs. 64,000 for the ensuing year.

1906-07	1907-08
8,000	8,000

II. Lighting tax.—The lighting tax leviable under the Regulation is one-fifth of the amount of house-tax, which is estimated at Rs. 33,000 as in the current year. A sum of Rs. 1,400 which represents the lighting-tax on the rental value of shops subjected to Mohatarfa taxation as laid down in Government Proceedings No. 4647-8—L. F. 37-99, dated the 28th May 1904, is added on and the receipts estimated at Rs. 8,000 for the ensuing year also.

12,000	15,000

III. License receipts.—Rupees 3,000 more are expected under this head, than in the current year as larger income under animal and vehicle license fees is anticipated as a result of closer scrutiny by the Hackney Carriage Inspector of cases of defaulters who fail to take licenses.

23,000	27,000

VI. Tolls.—The revenue under this head is steadily rising year after year owing to keen competition. Even making an allowance for inflated bids at times during sales, Rs. 27,000 may be safely adopted.

13,000	13,500

VII.—Mohatarfa (a) Shop tax.—A slight increase of Rs. 500 over the estimate of the current year is entered owing to the increase in the number of shops in the City.

500	300

(*c*) *Oil Mill.*—Owing to a reduction in the number of working mills in the City, the estimate under this head is reduced by Rs. 200.

8,000	8,500

VIII. Rents from Market Shops.—The increase in the estimate of Rs. 500 under this head is based upon the actuals of the past two years and the first half of the current year.

4,60	5,000

X. Miscellaneous, Land Revenue and Local Cess.—The estimate under this head is raised by Rs. 400 based upon the actuals of the past year.

270	500

School fees.—A sum of Rs. 350 was collected up to end of December last. Since it may not be possible to assure that the strength of the school would continue to be the same throughout the year, a sum of Rs. 500 is considered to be a safe estimate.

4,500	5,000	*Sale of manure.*—The increased estimate of Rs. 500 under this head is based upon the actuals of the past year.
3,000	3,500	*Scavenging fees.*—Steps are being taken to close the existing privy pits, wherever possible, in various parts of the City. As the number of houses to be daily conserved is likely to increase, an extra income of Rs. 500 is anticipated.
13,500	15,000	*Contribution.*—A moiety of the additional provision of Rs. 580 under Epidemic Diseases Hospital to meet the diet and contingent charges of cholera patients who may be admitted during the course of the year into the Epidemic Diseases Hospital as ordered in Government Proceedings No. 2954-6—Ml. (74-06)-6, dated the 19th October 1906, and a contribution of Rs. 1,320 promised by the Education Department to meet the establishment charges of the Middle School Department of the Kannada Boys' School and Chamrajpet Anglo-Vernacular School as per Government Proceedings No. 140-2—Ed. 270-05, dated the 7th July 1906, account for the increased provision under this head. A sum of Rs. 206 had been provided under Miscellaneous contributions in the current year's budget, but that amount is now reduced to Rs. 96 to bring the total to a round figure.
1,500	2,000	*Other Items.*—The increased provision of Rs. 500 under this head is based upon the actuals of the past and the first half of the current year.
		The other items call for no remarks
		EXPENDITURE.
13,941	14,266	*II. Head Office.*—A sum of Rs. 325 has been provided in excess of that made during the current year under this head. This amount is required to supply uniform (clothing) to the Distraining Officers, Market Serjeant and Veterinary Inspector, Hackney Carriage Inspector and Sanitary Inspector and Overseers. The supply of dress to the out-door subordinates is deemed necessary in the interests of public service. The clothing issued as per Government Order No. 2286-7—Ml. 128-2, dated 19th September 1904, have all become very old and unfit for further use. Hence the additional provision in the budget.
31,956	35,124	*IV. Conservancy (a) Establishment.*—The additional establishment sanctioned in Government Proceedings No. 4870-8—Ml. (4-06)-19, dated 8th December 1906, the and increase sanctioned, for the pay of the two qualified Sanitary Inspectors, in Government Proceedings No. 7813-4—Ml. 55-06-10, dated 7th March 1907, account for the increased provision under this head.
18,000	19,000	*VII. Lighting.*—The existing number of kerosene lamps lighted in different parts of the City which do not admit of Electric lights being supplied and also the number of lights in the two new Extensions are found to be inadequate and frequent complaints of insufficient lighting are being received from the rate-payers. In order to make better arrangements for efficient lighting a sum of Rs. 1,000 is provided in excess of the amount sanctioned for the current year.

5,000	6,000	*VIII. Public Works (d) Drains, Original:*—The construction of new drains in the newly opened conservancy lanes in the interests of better sanitation is deemed necessary. Hence the provision for the ensuing year is raised from Rs. 5,000 to 6,000.
Nil.	2,500	(*i*) *Buildings, original.*—The want of markets in Chamarajpet and the two new Extensions is very keenly felt. It is proposed to construct a few stalls in convenient localities in those Extensions so as to admit of their further extension when more funds could be made available. The provision made under this head during the current year was struck off by Government on the ground of want of funds. But no such difficulty exists for the provision being sanctioned for the ensuing year.
Nil.	1,000	(*h*) *Other Works, original.*—Small works of importance which cannot be brought under any of the existing budget heads such as railing, fencing, etc., require to be promptly attended to. Hence provision is made in the budget to meet such contingencies.
1,500	2,500	(*j*) *Watering roads and plants.*—The sum of Rs. 1,500 sanctioned for the current year has been fully appropriated by the end of February 1907 rendering it necessary to appropriate funds from other available heads, for expenditure during the remaining part of the year in order to maintain the roads and plants in good condition during the present hot weather. The provision is therefore raised by Rs. 1,000 to meet the actual demand.
		IX. Charitable Grants.
9,420	10,000	*Epidemic Diseases Hospital.*—The provision under this head is raised by Rs. 580 to meet the cost of diet, etc., charges of cholera patients that may be admitted into this institution as directed in Government Proceedings No. 2954-6—Ml. (74-06)-6, dated 19th October 1906.
1,000	1,500	*Home for Incurable Paupers.*—Owing to the increased number of admission of patients into this institution the existing staff was found quite insufficient and the same reported to Government in this Office No. 180, dated 26th December 1906. In Proceedings No. 7653-4—Ml. (333-06)-2, dated 6th March 1907, extra establishment costing Rs. 156 per annum was sanctioned. Rs. 344 are provided in excess of the amount sanctioned for the current year to meet the diet and clothing charges of patients that may be admitted into this institution during the ensuing year.
		X. Education.—A sum of Rs. 1,320 is provided in excess to meet the pay of the teachers working in the Middle School Departments of the Kannada Boys' School and Chamrajpete A.-V. School as directed in Government Proceedings No. 7659-60—Ml. (342-06)-2, dated 6th March 1907. A corresponding sum is being shown on the receipt side under "contributions" from the Education State Fund Budget as approved in Government Proceedings No. Fl. 140-2—Ed. 270-05, dated 7th July 1906.
700	2,000	*XI. Miscellaneous other items.*—A sum of Rs. 1,300 is provided for the ensuing year in excess of the grant sanctioned for 1906-07, as the expenditure under Law charges is increasing owing to the institution of suits by the Municipality against defaulting rate-payers. This expenditure is unavoidable as otherwise the difficulty of reducing the outstanding balances under the different heads will be great.

Other items call for no remarks.

MEMORANDUM ON VILLAGE GRAIN STORES IN THE MYSORE STATE.

(Submitted to the Simla Conference held in September last.)

I have always understood that the main object of Act X of 1904 of the Government of India is to develop an organization which is to serve as a ready resort to the agriculturists for procuring the credit that they need for the better cultivation of their holdings and for the better utilization to their own profit of the products of their labor. Lord Curzon in his farewell speech at the Byculla Club, apparently had also this feature of the enactment before his mind's eye when he said—" It is the Indian poor, the Indian peasant, the patient, humble, silent millions, the 80 per cent who subsist by agriculture, who know very little of politics but who profit or suffer by their results, and whom men's eyes, even the eyes of their own countrymen, too often forget— to whom I refer. He has been in the background of every policy for which I have been responsible, of every surplus of which I have assisted in the disposition. We see him not in the splendour and opulence nor even in the squalor of great cities. He reads no newspapers, for as a rule he cannot read at all; he has no politics. But he is the bone and sinew of the country; by the sweat of his brow the soil is tilled; from his labour comes one-fourth of the national income; he should be the first and final object of every Viceroy." The first interest of Government, as the ultimate landlord in India, may be said therefore to be centered in developing a system of banking whereby the rural folk may readily obtain the accommodation they need for agricultural and other purposes without having to pay exorbitant rates of interest and with a clear understanding of the transactions whenever they take fresh loans or discharge old ones.

2. The question then is, how are we to proceed in setting up an organization which will be useful to the rural inhabitants of India, whether we are to start from the village as a unit and elaborate a scheme which would ultimately reach Taluk and District centres, or whether we are to work our way from the last two centres and reach the villages. I have found that people at Taluk and District centres are not unwilling to have co-operative institutions in their midst, but their ideas, at any rate in the beginning, do not travel beyond their own immediate profits, and they feel it difficult to conceive that there can be any identity of interests between themselves and the rural people. Even where such identity is perceived, there is more or less reluctance to include as members people belonging to the smaller agricultural classes of villages. For the present purpose, it is unnecessary to inquire into the causes of this reluctance; I think it is enough to recognise the existence of such feeling and till time and better knowledge are able to work a cure, to adopt other aways of helping the village folk.

3. Fortunately, the villagers themselves are not without resources. In raiyatwari tracts such as may be said to universally exist in Madras, Bombay, Berar and Central India, almost every person in a village owns in his own name some extent of land or has some interest in land. Even where there is a co-sharing body holding the landlord right over the whole village as in Punjab and the United Provinces, I believe—I speak subject to correction—that many of the co-sharers themselves cultivate the land and do not differ in status from the raiyatwari holders as among themselves. Whatever may be the case, there is always security for the loan advanced to the raiyat and the Sowkars or professional money-lenders have not been slow to benefit by such security. Their capital, however, being inadequate to meet all the wants of the villagers, and as they are not able to keep it in constant circulation, ready accommodation, even when sufficient security is forthcoming is not possible, and among others the present unsatisfactory cultivation of the village lands is to a great extent due to this want of funds on the part of the villagers in the cultivation season. The primary object should therefore be to supplement the Sowkar's capital wherever available with other funds also.

4. In seeking the sources for such funds, I have found that in Mysore the most efficacious source is the village land-holder himself, who is at present an isolated unit, but who can be to a large extent constituted in the course of some years his own banker. To the raiyat, it is always an insuperable obstacle to be asked to furnish capital in cash, if he wishes to join an agricultural bank or a co-operative society. From my observation of village life, I have found that he will readily consent to furnish a quantity of grain, especially if the demand is made in the harvest season, and combination of villagers in this direction will, it is likely, have far reaching effects on village economy.

5. The shades of the old *barabaluti* system (or the Village Twelve), although at present regarded as a mere name, still linger in the village. The Shanbhog (Patwari or karnam) and the Patel (Lambardar or Manigar) do not now look to the villagers for their remuneration in the shape of a share of the grain harvested annually. The *Toti* (watchman) and the *Talari* (beadle) still eke out a meagre existence on the old system with some show of being able to enforce their right for a share of the grain. There are others, however, who have not lost their existence in the village autonomy and to whom year after year grain contributions are voluntarily continued. These are the barber, the pot-maker, the carpenter, blacksmith, the washerman, and in some places the Panchanga Brahmin or astrologer. These receive annually a fixed share of the grain, generally from one to ten seers per Khandaga of the yield of grain per house. A grain contribution therefore is not foreign to the minds of the villagers, and I think, an association of villagers pledged to pay a quantity of grain annually as their capital has far better chances of success than if the share-capital is to come in any other shape.

prepared in duplicate, one copy being filed in the Taluk Cutcherry and another copy sent to the Registrar. The Amildar (Tahsildar or Mamlatdar) may in his tours in the taluk satisfy himself by occasional inspections of the correctness of the entries in the account books. Under section 21 of the Co-operative Act, each Society is entitled to a free audit of the accounts once a year at the hands of the Registrar. The same section also gives power to the Deputy Commissioner or Collector or any person authorized by him in this behalf, to inspect at any time the books, accounts, papers, etc., of a Society. To help the panchayet in fixing the amount of loan to be granted to a member, extracts from the Village Khate (Ledger) may usefully be maintained for reference, and the encumbrances on the lands as known from the Registration Department books may also be noted from time to time. The book containing this information will serve as a sort of castelletto in fixing the credit of a member. Other books to be maintained are a register of members and a minute-book.

12. The cost of maintenance will, unless the number of members very largely increases and the transactions become numerous, not be much. The account forms being on the basis of village forms, will be easily understood and a literate person may be employed to write up these accounts for a small annual remuneration or honorarium calculated on the profits of the business. The members of the panchayet need be given no remuneration, at any rate in the beginning, as the work to be done is of a simple nature and will occupy but a very small part of their time. No large establishment for guarding the store is necessary also, as on account of the confined air in the grain-pits when covered these pits have to be kept open for a number of hours before a person can enter them and take out any grain. The members may be asked to keep an eye on the store by turns and the village watchman may be given a small remuneration for guarding it specially. In fact, each member of the association being himself interested in the store, and considering that on account of its narrow limits every small event becomes known in a village, it will be rare that any unauthorized meddling with the store will occur.

13. Each village store may generally begin as an independent one; but as the number of such stores increases, they will require to be federated to a central association at the Taluk Head-quarters on some such lines as those of the Village Union and the Taluk Boards. While the grain-store may remain in the village, the cash realised may be transferred to the custody of the association at the Taluk Head-quarters, to be dealt with according to the rules which may be framed when the need arises. Ultimately other central organizations federating the taluk associations may also be needed. From what I have seen of village life, I believe that a scheme of the kind I have sketched is more likely to commend itself to the villagers than a more ambitious one from the top radiating to the villages, although attempts in this direction should also be vigorously made. The merit of a village store is its publicity and its simplicity. It is quite within the comprehension of any ordinary villager and every transaction will be the talk of the place, possibly even before it may actually take place. The store will be under the immediate eye of every member or other person who may happen to pass by it, and accustomed as the villagers are to preserve grain in pits or other receptacles, a store of the kind I have mentioned, will appear to be the safest form in which it can be maintained, as much on account of the ease with which it can be kept up, as on account of the confidence which it is sure to create in the minds of the villagers, that the store is not a fraud but that it is started solely for their benefit.

14. The annual general meeting may be held on the Hindu New-year's-day (Ugadi), or some other day of rejoicing. In course of time, the village associations may, if properly developed, furnish funds for the primary education of its members and others, look to the general sanitation of the village, and in other ways be helpful to the fulfilment of the communal needs. However, these are only dreams now, and I think, we may for the present limit ourselves to the work of starting village stores on the lines indicated by me in a few selected places to serve as experiments, and on the strength of the experience thereby gained, guide our future ways. The motto of *festina lente* should be the motto of every village store to be started experimentally, for the chief recommendation of the motto, it is apparent, is the cautious wisdom of its advice.

15. Two stores of the kind described by me have been lately started in two villages in the Mysore State, one at a place called Kotta in the Sira Taluk and the other at a village called Mayasandra in the Anekal Taluk. I append the rules which guide these stores at present. These rules, I may add, explain a few points which could not find mention in the body of the above Memorandum.

Registrar of Co-operative Societies in Mysore.

MEMORANDUM ON VILLAGE GRAIN STORES IN THE MYSORE STATE.

(Submitted to the Simla Conference held in September last.)

I have always understood that the main object of Act X of 1904 of the Government of India is to develop an organization which is to serve as a ready resort to the agriculturists for procuring the credit that they need for the better cultivation of their holdings and for the better utilization to their own profit of the products of their labor. Lord Curzon in his farewell speech at the Byculla Club, apparently had also this feature of the enactment before his mind's eye when he said—" It is the Indian poor, the Indian peasant, the patient, humble, silent millions, the 80 per cent who subsist by agriculture, who know very little of politics but who profit or suffer by their results, and whom men's eyes, even the eyes of their own countrymen, too often forget— to whom I refer. He has been in the background of every policy for which I have been responsible, of every surplus of which I have assisted in the disposition. We see him not in the splendour and opulence nor even in the squalor of great cities. He reads no newspapers, for as a rule he cannot read at all; he has no politics. But he is the bone and sinew of the country; by the sweat of his brow the soil is tilled; from his labour comes one-fourth of the national income; he should be the first and final object of every Viceroy." The first interest of Government, as the ultimate landlord in India, may be said therefore to be centered in developing a system of banking whereby the rural folk may readily obtain the accommodation they need for agricultural and other purposes without having to pay exorbitant rates of interest and with a clear understanding of the transactions whenever they take fresh loans or discharge old ones.

2. The question then is, how are we to proceed in setting up an organization which will be useful to the rural inhabitants of India, whether we are to start from the village as a unit and elaborate a scheme which would ultimately reach Taluk and District centres, or whether we are to work our way from the last two centres and reach the villages. I have found that people at Taluk and District centres are not unwilling to have co-operative institutions in their midst, but their ideas, at any rate in the beginning, do not travel beyond their own immediate profits, and they feel it difficult to conceive that there can be any identity of interests between themselves and the rural people. Even where such identity is perceived, there is more or less reluctance to include as members people belonging to the smaller agricultural classes of villages. For the present purpose, it is unnecessary to inquire into the causes of this reluctance; I think it is enough to recognise the existence of such feeling and till time and better knowledge are able to work a cure, to adopt other aways of helping the village folk.

3. Fortunately, the villagers themselves are not without resources. In raiyatwari tracts such as may be said to universally exist in Madras, Bombay, Berar and Central India, almost every person in a village owns in his own name some extent of land or has some interest in land. Even where there is a co-sharing body holding the landlord right over the whole village as in Punjab and the United Provinces, I believe—I speak subject to correction—that many of the co-sharers themselves cultivate the land and do not differ in status from the raiyatwari holders as among themselves. Whatever may be the case, there is always security for the loan advanced to the raiyat and the Sowkars or professional money-lenders have not been slow to benefit by such security. Their capital, however, being inadequate to meet all the wants of the villagers, and as they are not able to keep it in constant circulation, ready accommodation, even when sufficient security is forthcoming is not possible, and among others the present unsatisfactory cultivation of the village lands is to a great extent due to this want of funds on the part of the villagers in the cultivation season. The primary object should therefore be to supplement the Sowkar's capital wherever available with other funds also.

4. In seeking the sources for such funds, I have found that in Mysore the most efficacious source is the village land-holder himself, who is at present an isolated unit, but who can be to a large extent constituted in the course of some years his own banker. To the raiyat, it is always an insuperable obstacle to be asked to furnish capital in cash, if he wishes to join an agricultural bank or a co-operative society. From my observation of village life, I have found that he will readily consent to furnish a quantity of grain, especially if the demand is made in the harvest season, and combination of villagers in this direction will, it is likely, have far reaching effects on village economy.

5. The shades of the old *barabaluti* system (or the Village Twelve), although at present regarded as a mere name, still linger in the village. The Shanbhog (Patwari or karnam) and the Patel (Lambardar or Manigar) do not now look to the villagers for their remuneration in the shape of a share of the grain harvested annually. The *Toti* (watchman) and the *Talari* (beadle) still eke out a meagre existence on the old system with some show of being able to enforce their right for a share of the grain. There are others, however, who have not lost their existence in the village autonomy and to whom year after year grain contributions are voluntarily continued. These are the barber, the pot-maker, the carpenter, blacksmith, the washerman, and in some places the Panchanga Brahmin or astrologer. These receive annually a fixed share of the grain, generally from one to ten seers per Khandaga of the yield of grain per house. A grain contribution therefore is not foreign to the minds of the villagers, and I think, an association of villagers pledged to pay a quantity of grain annually as their capital has far better chances of success than if the share-capital is to come in any other shape.

6. To begin with, I think it desirable to select in each taluk two or three villages having each a population of about a thousand or more, and preferably villages where the existing elementary schools have given a smattering of education to the inhabitants. Whatever the shortcomings of these schools or their masters may be at present, my contact with village life, especially during the past six months, when I have visited the villages with an eye to a special purpose, has shown me that education however elementary and however defective, has still some influence in opening the minds of the villagers to new ideas. For instance, some time ago, I visited two villages Bommasandra and Mayasandra, both in the Anekal Taluk of the Bangalore District. While in the latter place where there is a school, I found the inhabitants evincing intelligent interest in the scheme I explained to them, in the former I felt that my words fell on minds which were as impervious to them as the stones of the mantap in which we were gathered.

7. Having selected a few villages of the right sort, the next business is to ascertain who the present money or grain lenders are. If they happen to be, according to local ideas, comparatively large capitalists, it is best to discuss the scheme with them and bring home its advantage to them. My experience of these people is that they are sheewd enough to perceive the advantages of a Co-operative scheme, but that they oppose it if they are not taken into confidence and consulted. It may also be necessary to allow some share to them in the management when an association is started. It may be remarked, however, that there are several villages where there are no Sowkars constituting the customary money-lenders of the place, and where the villagers manage to obtain accommodations from any person who has trust in them. There is therefore wide scope for choice, and I have no fear of the scheme collapsing from any opposition on the part of the existing money-lenders, as their influence is not all-pervading.

8. In the villages selected for operation, the next business is to get together as large a gathering of the inhabitants as possible and address them with some previous knowledge of the economic life of the village derived from the village registers and from books of the Registration Department. A proposal for a grain contribution towards capital—which, it should be explained, will belong to each member according to his share and which could be withdrawn when he disconnects himself from the association—generally receives a ready response from the majority of the assembled raiyats, although there will be prolonged discussion and exchange of whispers as regards the exact quantity that each is to contribute per Khandaga or Palla (100 seers) of grain. In assessing the grain contribution it is best to avoid assessing either on the rupee-basis of Kandayam (Government rent) or on the basis of the number of ploughs maintained. In both these cases, the contribution becomes fixed in quantity, but the raiyat I find, prefers an elastic basis, a basis varying according to the quantity of grain grown by him. This varying contribution will also be in keeping with the existing customary contributions given to the carpenter and others mentioned above.

9. Having ascertained the names of those willing to join the village society,—the fewer the better in the beginning, provided the number is not below the legal limit of ten,—the next object should be to appoint a panchayet generally consisting of from five to nine members, so as to include as many of the intelligent and influential men of the place as possible. In the villages of Mysore, I have found that people of several castes come forward freely to co-operate in institutions where no questions pertaining to caste arise. The nomination of a panchayet should, however, be done in the presence of the assembled members, so that the names may commend themselves to them. The gathering may then be dissolved.

10. The panchayet may then proceed to collect the subscribed grain-capital and store them in a selected grain-pit which can be easily found in a village. They may also frame a few rules of management, which, after being placed before the general body of members, should receive the sanction of the Registrar. Once or twice a week, whenever there are any applications for loans of grain, the quantity required may be lent out according to the rules of the Society. Whenever grain is to be put into the store or taken out of it, it should be so done in the presence of at least two members of the panchayet. A month or two before the next harvest, when the prices are generally high, half the quantity of the total grain collected for the whole year or any other quantity which may be fixed with due regard to the keeping of the grain, etc., may be sold for cash, provided the harvest is assured. Money capital will also thus become more and more available for loans to members, for payment of assessment, for needs of cultivation, or for family purposes. These operations may be repeated year after year, and the store of grain may go on increasing till the quantity kept in stock is fairly sufficient for the maintenance of the members and their families for, say, half the year. This store will be a provision constantly kept up against the failure or deficiency of any harvest. In other words, while serving as a reserve to raise money capital when necessary, the store will also serve as an insurance against seasonal uncertainties.

11. The accounts to be maintained are a Day-book (Khiradi), a Ledger (Khate) and a File-book of documents which under the concessions granted as to stamp duty will all be on plain paper. In the beginning of every month a return should be compiled showing the quantity of grain in store, or amount of money in hand, the quantities or amounts lent in the previous month, and the names of the individuals to whom they were lent. The return may be

prepared in duplicate, one copy being filed in the Taluk Cutcherry and another copy sent to the Registrar. The Amildar (Tahsildar or Mamlatdar) may in his tours in the taluk satisfy himself by occasional inspections of the correctness of the entries in the account books. Under section 21 of the Co-operative Act, each Society is entitled to a free audit of the accounts once a year at the hands of the Registrar. The same section also gives power to the Deputy Commissioner or Collector or any person authorized by him in this behalf, to inspect at any time the books, accounts, papers, etc., of a Society. To help the panchayet in fixing the amount of loan to be granted to a member, extracts from the Village Khate (Ledger) may usefully be maintained for reference, and the encumbrances on the lands as known from the Registration Department books may also be noted from time to time. The book containing this information will serve as a sort of castelletto in fixing the credit of a member. Other books to be maintained are a register of members and a minute-book.

12. The cost of maintenance will, unless the number of members very largely increases and the transactions become numerous, not be much. The account forms being on the basis of village forms, will be easily understood and a literate person may be employed to write up these accounts for a small annual remuneration or honorarium calculated on the profits of the business. The members of the panchayet need be given no remuneration, at any rate in the beginning, as the work to be done is of a simple nature and will occupy but a very small part of their time. No large establishment for guarding the store is necessary also, as on account of the confined air in the grain-pits when covered these pits have to be kept open for a number of hours before a person can enter them and take out any grain. The members may be asked to keep an eye on the store by turns and the village watchman may be given a small remuneration for guarding it specially. In fact, each member of the association being himself interested in the store, and considering that on account of its narrow limits every small event becomes known in a village, it will be rare that any unauthorized meddling with the store will occur.

13. Each village store may generally begin as an independent one; but as the number of such stores increases, they will require to be federated to a central association at the Taluk Head-quarters on some such lines as those of the Village Union and the Taluk Boards. While the grain-store may remain in the village, the cash realised may be transferred to the custody of the association at the Taluk Head-quarters, to be dealt with according to the rules which may be framed when the need arises. Ultimately other central organizations federating the taluk associations may also be needed. From what I have seen of village life, I believe that a scheme of the kind I have sketched is more likely to commend itself to the villagers than a more ambitious one from the top radiating to the villages, although attempts in this direction should also be vigorously made. The merit of a village store is its publicity and its simplicity. It is quite within the comprehension of any ordinary villager and every transaction will be the talk of the place, possibly even before it may actually take place. The store will be under the immediate eye of every member or other person who may happen to pass by it, and accustomed as the villagers are to preserve grain in pits or other receptacles, a store of the kind I have mentioned, will appear to be the safest form in which it can be maintained, as much on account of the ease with which it can be kept up, as on account of the confidence which it is sure to create in the minds of the villagers, that the store is not a fraud but that it is started solely for their benefit.

14. The annual general meeting may be held on the Hindu New-year's-day (Ugadi), or some other day of rejoicing. In course of time, the village associations may, if properly developed, furnish funds for the primary education of its members and others, look to the general sanitation of the village, and in other ways be helpful to the fulfilment of the communal needs. However, these are only dreams now, and I think, we may for the present limit ourselves to the work of starting village stores on the lines indicated by me in a few selected places to serve as experiments, and on the strength of the experience thereby gained, guide our future ways. The motto of *festina lente* should be the motto of every village store to be started experimentally, for the chief recommendation of the motto, it is apparent, is the cautious wisdom of its advice.

15. Two stores of the kind described by me have been lately started in two villages in the Mysore State, one at a place called Kotta in the Sira Taluk and the other at a village called Mayasandra in the Anekal Taluk. I append the rules which guide these stores at present. These rules, I may add, explain a few points which could not find mention in the body of the above Memorandum.

No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

1. District Fund budget estimates of receipts and disbursements for 1907-08.

Resolved that as the balance available will only amount to Rs. 5,210 after deducting the one-eighth of the total Revenue for the opening balance, only Rs. 1,018 can be spared for the Public Works Department original works out of Rs. 20,000 asked for, and that this Rs. 1,000 be devoted to the opening of the road from Nelamangala to Sondekoppa and that the balance of Rs. 4,192 be kept for unforeseen expenditure. Further, that Government be asked to contribute Rs. 3,000 out of Local Funds General for the rebuilding of the bridge on the Bangalore-Magadi road.

Also that the Muzrai Department be asked to expend Rs. 1,000 on the improvement of the road to Subrayanghati as it is used exclusively for the temple.

2. Read docket No. 5253, dated 27—29th November 1906 from the Executive Engineer, Bangalore Division, forwarding for countersignature an estimate for Rs. 2,460 for opening a new road from the 21st mile of Bangalore-Mangalore road to Sondekoppa, Nelamangala Taluk.

No necessity to include this as it has been sanctioned by the Board.

3. Docket No. 5080—L. F. 235-06-2, dated 14th December 1906, from the Secretary to Government, General and Revenue Departments, *in re* the acquirement of Survey No. 41—2 for a new village site, in the Kavalahalli village, in the Dodballapur Taluk, and requesting to place the matter before the Board and to submit their resolution together with the views of the Sanitary authorities regarding the eligibility of the site proposed on sanitary grounds, for the formation of a village site.

The Board is of opinion that the local officers are the only persons to judge in a matter of this kind and are best able to give an opinion.

3 a. Letter No. 2575, dated 2nd January 1907, from the Military Assistant to Government requesting to move the District Board to pass the additional expenditure of Rs. 220-9-8 account of the up-keep of the road between Iverkhandpur and Banavar Railway Station.

The Board regret to state that they have no funds for this.

4. Letter No. 6041-8—L. F. 185-06-1, dated 4th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the District Board, Subject No. 218 of the Dasara Representative Assembly, to set apart a portion of Local Fund amount for the sanitary improvement of villages, and to utilize the same every year for the benefit of the villages containing more than 50 houses.

The Board is of opinion that it is impossible to lay down any hard and fast rules on the subject, but is always willing to allot sums for this purpose when funds permit.

5. Letter No. 6021-8—L. F. 200-06-1, dated 4th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for report with the views of the District Board, Subject No. 239 of the Representative Assembly Proceedings of 1906 *re* the giving up of maintenance of roads leading to certain estates from District Funds on account of the prohibitive cost as compared with the local cess realised from those estates.

There are no such estates in this district.

6. Letter No. 6289-89—L. F. 86-06-1 of 11—16th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for information Subject No. 219 of Dasara Representative Assembly regarding the use of the Mohatarfa amount realised in non-municipal villages for the sanitation of those villages.

Noted.

7. Letter No. 6233-40—L. F. 190-06-1 of 11th January 1907, from the Secretary to Government, General and Revenue Departments, for report with the District Board's resolution Subject No. 223 of Dasara Representative Assembly, *in re* the Sanitation Rules to be made, applicable to villages containing 50 houses.

The Board is of opinion that the Village Sanitation Rules should be confined to villages containing 100 houses and no less.

8. Letter No. 6217-24—L. F. 196-06-1 of 11th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for report Subject No. 230 *in re* the rate of fine for impounded goats being increased, with copies of resolution adopted by them, and with his own opinion in the matter as required by rules.

The Board is of opinion that the present fine of one anna per head is quite sufficient.

9. Letter No. 6241-8—L. F. 178-06-1 of 11th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the Board Subject No. 211 of Dasara Representative Assembly Proceedings *in re* the maintenance of District Fund roads to be met from Provincial Funds.

Noted.

10. Letter No. 6313—L. F. 227-06-1 of 11—16th January 1907, from the Secretary to Government, General and Revenue Departments, forwarding for consideration of the Board and needful action, Dasara Subject No 511 *in re* the repair of Krishnarajpur-Whitefield road to be entrusted to the Public Works Department.

The Board is of opinion that as Whitefield has ample roads at present, it would only be a waste of money to repair the present proposed road.

11. Letter No. 325—93 of 21st—23rd January 1907, from the Executive Engineer, Bangalore Division, *re* the construction of a damaged bridge at 3—25 of Bangalore-Magadi-Huliurdurga road, at a cost of Rs. 3 000 instead of constructing a bridge at a cost of Rs. 3,000, across the fort ditch at Hoskote, which was sanctioned in the District Fund budget for 1906-07.

Resolved that this amount may be reappropriated for the work mentioned.

12. Non-budgetted urgent District Fund works requiring sanction of the Board:—

	Rs.
1. Sinking a well at Doddagattimadu, Dodballapur ...	50
2. Constructing drains at Yelahanka and improving the sanitation of the village	45
3. Constructing a lane in Bidadi	50
4. Sinking a well at Chokkanahalli, Dodballapur ...	441
5. Bill towards the initial cost of purchasing furniture to the native Vaidyasala at Kunigal	15
Total ...	601

Resolved that the first three be passed, but that the proposed site for a well at Chokkanahalli be further investigated by the Assistant Commissioner and reported upon.

The bill for furniture to the Vaidyasala for Rs. 15 is passed.

13. Docket No. 4861 of 21st—24th January 1907, from the Senior Surgeon and Sanitary Commissioner requesting to obtain sanction of Government for incurring an expenditure of Rs. 86-10-3 for the construction of sheds to locate the Dispensary at Vartur during the prevalence of plague there.

The Board is of opinion that as this was done on account of plague, the Senior Surgeon should himself obtain the sanction of Government to meet the expenditure out of plague funds.

14. Petition of Mr. N. Narasimhiengar of 14th February 1907 recommending the improvement of a cart-track from Bidadi to Mudavadi in the Kankanhalli Taluk.

The Board is of opinion that the good work done by the applicant amongst the raiyat of this part of the country is deserving of every encouragement and therefore think that Rs. 500 should be allotted this year for repairing the worst parts of the road.

Resolved that the next Meeting be held on 15th May next.

H. H. SPARKES,
President.

Resolution.—Resolved that as provision for the cost of establishment, etc., of a Vaidyasala at Sravanabelagola has been made in the budget for the ensuing year, replies of the Executive Engineer and the District Medical and Sanitary Officer be awaited as to a suitable site for the new building.

IX. Read General and Revenue Secretary's docket No. 6021-8—L. F. 200-06-1, dated 4th January 1907, forwarding for report with the views of the District Board, Subject No. 239 of the Dasara Representative Assembly of 1906, in the matter of the District Board giving up the maintenance of roads leading to certain estates, on account of their heavy cost.

X. Read General and Revenue Secretary's docket No. 6041-8—L. F. 185-06, dated 4th January 1907, forwarding for the consideration of the District Board, Subject No. 218 of the Dasara Representative Assembly of 1906, representing that a portion of the Local Funds be set apart for the sanitary improvement of villages and that the same may be utilized every year for the benefit of villages containing more than fifty houses.

Resolution.—Resolved that as provision for village sanitation is being made in each year's budget as far as District Funds admit, it is not possible to do more at present.

F. 196-06-1, dated 11th January 1907, forwarding for the reconsideration of the Local Boards and submission of a report with copies of the resolutions as regards Subject No. 230 of the Dasara Representative Assembly of 1906 representing that the raising of the pound fee on goats has not been given effect to.

XII. Read General and Revenue Secretary's docket No. 6233-40—L. F. 190-06-1, dated 11th January 1907, forwarding for report with the resolution of the District Board, Subject No. 223 of the Dasara Representative Assembly of 1906, in the matter of the Village Sanitation Regulation and Rules being made applicable to villages containing fifty houses.

F. 179-06-1, dated 11th January 1907, forwarding for needful action and report in consultation with District Board, Subject No. 212 of the Dasara Representative Assembly of 1906, in the matter of the allotment of funds for village roads.

XIV. Read General and Revenue Secretary's docket No. 6320—L. F. 207-06-1, dated 11th January 1907, forwarding for consideration and disposal by the District Board, Subject No. 406 of the Dasara Representative Assembly of 1906, in the matter of opening a road from Arsikere to Javagal *via* Chikkur.

XV. Read Government Proceedings No. 6809-10—L. B. (208-06)-3, dated 2nd February 1907, communicating to the Presidents of the District Boards of Tumkur and Hassan for needful action in consultation with the respective District Boards, Subject No. 407 of the Dasara Representative Assembly of 1906, in the matter of constructing culverts on the Arsikere-Huliyar road out of Provincial Funds.

Resolution.—Resolved that for want of funds owing to the over-estimate of toll-gate realizations which are found to be very much below the estimate, nothing can possibly be sanctioned for special repairs until the toll-gate realizations improve. All repairs and improvements must therefore be undertaken from the allotment of Rs. 250 per mile. The amount of Rs. 1,000 provided by the Finance Committee for special repairs on the Hassan-Arsikere road is disallowed and transferred to Hassan Taluk Board as extra provision for building a 1st class musafirkhana at Hassan, the want of which has very long been felt by the travelling public.

BANGALORE, THURSDAY, APRIL 11, 1907.

PART II.

REVENUE DEPARTMENT.

Circular No. 11117—25, *dated* 1*st April* 1907.

The following Inspection Note of the Revenue Commissioner on the working of the Agricultural Banks in the Seringapatam and Mandya Taluks is published for the information and guidance of the Inspector of Agricultural Banks and Deputy Commissioners of Districts.

2. The accounts and registers of the Agricultural Banks at Palhalli, Kyathanhalli, French Rocks and Seringapatam and those of the late Banks at Mandya and Satnur were inspected on the 26th and 27th of February 1907.

3. As regards the Mandya and Satnur Banks which have already been ordered to be wound up, several registers including the register of balance sheets were not forthcoming; and an inspection of the rest revealed many irregularities, of which the most serious relate to the execution of bonds by members for certain amounts due to the Bank which do not tally with the amounts shown, in the cash book and the ledger, to have been actually given out to them. In more than one instance, especially in the transactions of the Satnur Bank, it was found that members had executed bonds for larger amounts than what they had actually received from the Bank. It is therefore necessary that caution should be exercised by the Inspector of Agricultural Banks in ascertaining sums due to the Bank from such members before their recovery.

4. The other four Banks which are now working have maintained the registers in a fairly satisfactory manner.

5. Of these four Banks, all except that at French Rocks show in their accounts a decent reserve (about two or three thousands of rupees). The poor financial condition of the French Rocks Bank is chiefly due to the unscrupulous management entailing heavy expenditure on establishment. A clerk on Rs. 25 is certainly a luxury for such a small Bank. It is time that all these Banks are compelled by the Inspector to curtail their regular establishment charges, so as not to exceed a prescribed maximum of expenditure. It will not be unfair if some of the Banks be required to reimburse expenditure improperly incurred.

6. A comparison of the forms of registers maintained by these Banks discloses a want of uniformity in the forms as well as the wording of individual columns. The Inspector of Agricultural Banks should take steps to prescribe suitable forms for being adopted by all the Banks in the State, after studying the existing forms in detail. Further, the form of the half-yearly cash balance statements requires revision. At present these do not show the receipts and

expenditure *for the half year* but deal with the *total* amount of the Bank's transactions *from its very commencement.* They should hereafter be made to show the various transactions for the half year separate from those of the period previous thereto. Again, as these half-yearly balance sheets do not really show the exact assets and liabilities of the Bank, the Inspector of Agricultural Banks should prescribe a half-yearly statement of assets and liabilities for each Bank in the following form, the figures for the statement being taken as they stand at the end of the half year :—

Assets.	*Liabilities.*
(1) Loans due from members.	(1) Government loan unpaid.
(2) Interest due from members.	(2) Interest due to Government.
(3) Penalty, etc., due.	(3) Loans and deposits repayable to members and others.
(4) Deposit in Treasury or Savings Bank.	(4) Interest due on the above.
(5) Cash in the hands of the President or Agent.	(5) Reserve fund.
(6) Present value of furniture, etc., or any other property owned by the Bank.	(6) Others items (to be detailed).

7. The absence of touch between the Amildar and the Banks in his taluk is, in no small measure, responsible for the poor success achieved in the working of the Agricultural Banks. It is very essential that the Amildar should keep an intelligent watch over their proceedings without in any way interfering with their proper working. As auxiliary steps in this direction the Inspector of Agricultural Banks should arrange that the Banks should get the approval of the Amildar in cases of admission of new members or of resignation or removal of old members, that the proceedings of periodical meetings should be regularly communicated to the Amildar and that the half-yearly balance sheets and the monthly cash abstracts should be sent to the Deputy Commissioner through the Amildar who will be able to check them with the Taluk Treasury accounts.

8. It is necessary in the interests of Government that the solvency and worth of in-coming and out-going members of the Banks should be watched by the Amildar with a view to ensure that the security of the Banks for the loans advanced to them by Government, which consists of the property of the members, is not unduly depreciated by wealthy members leaving the Banks and new members of little substance taking their places. Further the list of valuation of the property of members should be revised every year by the Amildar and thus kept up to date.

Circular No. 11127-34, *dated 1st April* 1907.

In acknowledging receipt of this office No. 2309-16 of 3rd September 1906, requiring submission of the Revenue Administration Report before the 1st September of every year the Deputy Commissioner of Kolar in his letter No. 2150—94, dated 20th September 1906, stated that "the nature of works and accounts in particular are such as are not conducive to get up any really accurate or useful report with such expedition, with our official year closing on 30th June and leaving barely 60 days for verification or needful adjustments, etc. If the 1st September is adhered to, it will eventually necessitate the submission of another more accurate and correct report later on in the year or of giving merely approximate figures for the year under report compared with later corrected figures of the previous year. Even till now, several departmental accounts are not yet received corrected or verified from the Comptroller's office, and I think that matters cannot be expected to be bettered with our system of Khistbandi."

2. Copy of the above letter was forwarded to the Comptroller for opinion and he was asked whether "there is anything in the system of accounts obtaining at present to prevent their adjustment within the time prescribed for the submission of the Administration Report."

3. The Comptroller in reply in his letter No. 4720—B. R. 718 of 22nd February 1907, says :—

"I beg to state that under the existing system it is not possible to close the financial accounts of a year before the 1st week or so of December of the succeeding year without seriously interfering with the accuracy of the year's records, and that Government after consideration of all the matters connected with the subject decided that the books of this office might be closed in December each year."

"For the purpose of the District reports, the Treasury preliminary figures will be available for verification in the last week of July and in case verification with the figures of this office is considered desirable, it may be done in the 1st week of September."

"If proper arrangements are made by District Officers for a monthly verification of their figures with those of the Treasuries, the errors for adjustment in the final accounts will be minimised and there should not be any important variations between the preliminary and final figures of a year on this account."

4. It will be seen from the above-quoted observations of the Comptroller, that while the accounts of a year cannot be finally closed by the Account Department till the following December, there is nothing to prevent the District Officers from verifying their accounts with the Treasury preliminary figures which will be available in the last week of July, and that if the District Officers made a monthly adjustment of their figures with those of the District Treasury, the errors requiring adjustment in the final accounts would be minimised.

5. The Deputy Commissioners of Districts are accordingly requested to adopt these suggestions of the Comptroller in time and submit their reports to this office on or before 1st September of each year, without waiting for final adjustment of accounts.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

GENERAL PROCEDURE AND CONDUCT OF BUSINESS.

MYSORE MUNICIPAL REGULATION OF 1906.

Sections 26 (1), (4) *and* (5), 24 (1) *and* 46 (*a*).

1. The ordinary meeting of the Municipal Councillors shall be held at the Municipal Office once a month on the third Thursday of each month at 8 A.M., or on such date and time as may seem expedient to the President.

2. At an hour fixed for a meeting of the Councillors, if a quorum be present, the business of the meeting may at once commence, and, if neither the President nor a Vice-President be present, the meeting may proceed at once to choose a presiding Councillor under Section 26 (5). If the President or the Vice-President arrives after a presiding Councillor has been chosen by the meeting, the presiding Councillor shall leave the chair, and the President or Vice-President shall preside.

3. A Councillor wishing to speak must rise in his place. The Councillor who first rises to speak has the right to be heard. In cases of doubt, the Chairman shall decide who is entitled to speak. No interruption to the speech of a Councillor shall be permitted, except that the Chairman may call the Councillor to order, and any other Councillor may rise and request the Chairman to call the speaker to order.

3 (a). All questions from one Commissioner to another relating to the business of the meeting shall be put through the President.

4. All points of order shall be decided by the Chairman alone, and the Chairman's decision upon a point of order shall not be disputed at the meeting at which it is given.

5. Each Councillor rising to speak shall direct his speech to the question before the meeting or at an amendment which he himself is about to propose, or to a point of order always addressing the President from his place. A Councillor having spoken to a proposition or amendment is not at liberty to speak again to such proposition or amendment.

Provided that the mover of a proposition or amendment shall have a right of reply, after the Chairman has ascertained that no other Councillor entitled to speak, desires to speak.

Provided also, that any Councillor may second a proposition or amendment by saying "I second the proposition" or "amendment," and may reserve his right to speak later.

Provided also, that a Councillor who wishes to explain any misconception of expressions used by him may do so with the permission of the Chairman.

6. Routine resolutions such as recording periodical statements or confirming the proceedings of a Committee, may be put to the meeting by the Chairman without their having been moved or seconded. Propositions regarding the choice of a presiding Councillor, adjournments and the like must be seconded, but need not be in writing.

Except as provided above, every proposition and every amendment must be in writing and must be seconded.

7. After the proposition has been moved and seconded, any Councillor may propose an amendment thereto.

Provided that no Councillor shall be at liberty to propose more than one amendment to any proposition, except when such proposition is for the passing of a budget or of a set of general rules, or is otherwise of such a nature as to require the making of many amendments to different parts of it.

8. The proposer of any amendment shall state it to the Chairman at any time before he resumes the seat. When the mover of a proposition or an amendment has resumed his seat, the Chairman shall read the proposition or amendment to the meeting and ask if any Councillor seconds it, and until the proposition or amendment is seconded, the Chairman shall not permit any discussion on the question. If no Councillor seconds the proposition or amendment, the Chairman shall declare that the proposition or amendment is lost.

9. A Councillor shall not read his speech, but may refresh his memory from notes and may, with the consent of the Chairman, read passages from books or documents cited in behalf of his argument.

10. If a Councillor has given due notice of his intention to move a proposition, and if that Councillor be not present at the meeting, or shall have ceased to be a Councillor before the meeting, or be unwilling to move the proposition of which he has given notice, any Councillor present at the meeting may, with the consent of the Chairman, move the proposition of which notice has been given.

11. An amendment shall usually be in the form of a proposal to omit words from the original proposition, to insert words therein or to add words thereto.

Every amendment must be relevant to the proposition it is proposed to amend, and must be framed so as to form therewith an intelligible and consistent sentence. An amendment which is the direct negative of the proposition shall not be allowed.

12. A Councillor who intends to propose an amendment to a proposition is at liberty to send at any time beforehand to the President or Chairman, his proposed amendment in writing.

13. After a proposition has been proposed and seconded, the proposed amendments which the President or Chairman has received shall be arranged in the order in which, if agreed to, each would stand in the amended proposition, and if any more proposed amendments are handed to the Chairman, they shall be inserted in that order and the Chairman shall call upon the proposers of amendments in that order to move their amendments.

14. Each amendment must be decided before the next amendment is entered upon, but after any amendment has been proposed and seconded, any Councillor may move that the amendment be amended by the omission, insertion or addition of certain words, and the Chairman shall thereupon ask if any other Councillor seconds the proposal, and if seconded, the proposal to amend the amendment shall then become the question before the meeting.

15. No amendment may be made to words which it has already been resolved shall stand part of, or be added to, the original proposition or amendment, except by addition of other words.

16. No amendment may be proposed which is the same, in substance, as a proposition or amendment which has been negatived during that meeting.

17. A proposition or amendment which has been moved and seconded, cannot be withdrawn without the permission of the meeting.

18. The Chairman may move and second propositions or amendments, speak and vote without vacating the chair.

19. When a question is put to the vote, the Chairman shall call for a show of hands, and the Chairman or a Councillor at his request, shall count the hands shown for and against and declare the result. If any Councillor challenge the correctness of the members thus declared, the hands shall be counted a second time. Provided that if any two Councillors request a poll, the Chairman shall call the roll of the Councillors and record on the minutes of the meeting the names of the Councillors voting for and against.

20. A Councillor who is present at a meeting may refrain from voting. If the question before the meeting be the confirmation of a report, or proceedings of a Committee, the members of that Committee may vote. If the conduct of a Councillor be in question, that Councillor may vote.

21. At a meeting the Councillors may resolve themselves into a Committee to consider any subject which is before the meeting. In Committee, a proposition need not be seconded and a Councillor may speak more than once. The decision of the Committee shall be reported to that or to a subsequent meeting for confirmation.

Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening ; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

F. 173-06, dated 6th March 1907, requesting to obtain the opinion of the Board in regard to the distinction made in the scale of travelling allowances in some of the districts between the Taluk Board members and the District Board members while no such distinction exists under the rules.

MYSORE CITY MUNICIPALITY.

EXPLANATORY MEMO ON THE BUDGET ESTIMATES OF THE MYSORE CITY MUNICIPALITY FOR THE YEAR 1907-08.

Receipts.

I. Octroi.—The estimate under the several sub-heads are based on the actual realizations of the past six months of the current year and the realizations of the last six months of the previous year.

II. Taxes on houses.—The sanctioned budget estimate figure is retained for this year's estimate.

III. License receipts.—The estimated demand is based on the actual realization of the past six months of the current year and the realization of the last six months of the previous year.

IV. Carriage tax.—V. Taxes on animals.—As a Municipal Tax Collector has lately been appointed to the City, the estimated demand is entered with the hope that he would find out carriages or animals hitherto left out for want of proper check and bring them all for taxation.

VI. Tolls and ferries.—As the right to collect tolls at the several toll-gates is sold by auction, it is not possible to say what amount would be realized under this head. For budget purposes the actual receipt of 1905-06 has been taken.

VII. Other Mohatarfa taxes.—The estimate is based on the average realization of the past two years.

VIII. Rent.—The estimate is based on the realization of the last six months of the current year and the realization of the last six months of the previous year.

IX. Fines.—The estimate is based on the average realization of the past three years.

X. Miscellaneous.—A demand of Rs. 2,000 under the head (4) scavenging fees is entered as the system of daily conservancy has been ordered to be introduced tentatively in Chamaraj and Nazarbad Mohallas. The demand under other heads except contribution which was reduced from Rs. 20,302 (specially raised during last year with a view to deal with the special repairs of roads in the City on account of the visit of Their Royal Highnesses) to Rs. 7,770, has been based on the collection of last six months of the current year and the second six months of the previous year.

XI. Payments for Municipal services rendered to individuals.—No provision has been made under this head as the supervision of laying house service connections has been transferred to the Public Works Department as per orders of Government.

Expenditure.

I. Interest on debts.—A provision of Rs. 99 has been made under this head as per instructions contained in Government Proceedings No. 5248-57—Ml. 206-06-2, dated 18th December 1906.

Vice-President's pay.

II. Head office charges.—As an Assistant Commissioner drawing Rs. 350 per month has been posted to this Municipality as Vice-President, the provision under this head has been reduced from Rs. 6,000 to Rs. 4,200.

Besides the fixed charges on all other items a sum of Rs. 156 has been provided to meet the increments payable to munshi sanctioned by Government and increment to peons recommended by the Board as per details given in Form No. III.

The provision under office furniture has been raised from Rs. 40 to Rs. 500 as the Municipal office is very badly in need of tables, record-racks and almirahs, etc.

As approved by the Board a sum of Rs. 300 has been provided under the head reserve fund to increase the pay of officials whom the President considers deserving. As much inconvenience is felt by the Municipal Councillors for want of peons for each of them a provision for seven extra peons (on Rs. 5 each per month) has been made under this head.

III. Collection.—(*a*) *Octroi.*—Besides the fixed charges a sum of Rs. 60 has been provided to meet the increment of pay to the Sayer Daroga as per Government Order No. 73—San. (255-94)-6, dated 4th July 1905. The provision of Rs. 25 under the head "Reward for information of smuggling goods" has been raised to Rs. 250 with a view to encourage detection.

(*b*) *House and Mohatarfa taxes.*—Besides the fixed charges a sum of Rs. 1,596 has been provided to meet the pay of Municipal Tax Collector and peons sanctioned in Government Proceedings No. 7386-7—Ml. 568-05-9, dated 1st March 1907, and increment payable to Shroff sanctioned by Government and the increment of pay to peons recommended by the Board.

(*d*) *Rents.*—Besides fixed charges a sum of Rs. 24 has been provided to meet the increment payable to market peons as recommended by the Board.

IV. Conservancy.—(*a*) *Establishment.*—Besides the usual charges a sum of Rs. 1,980 has been provided to meet the increment of pay of four Sanitary Inspectors newly appointed, pay of peons, thoties and sweepers, etc., required for the extension of the City as already recommended in this office No. 28, dated 13th September 1906.

(*b*) *Other charges.*—Besides the usual charges a sum of Rs. 4,440 has been provided for the pay of carts required for the Extensions in the City and for providing establishment for the introduction of daily conservancy system tentatively for a year in Chamaraj and Nazarbad Mohallas as per orders of Government contained in their Proceedings No. 10873-4—Ml. (402-05)-4, dated 21st April 1906.

Provision has also been made for purchasing more night-soil carts and dust-bins and for re-numbering houses as many houses have since been demolished for the improvements of the City.

VI. Registration of Births and Deaths.—Last year's sanctioned provision has been retained.

VII. Lighting.—Last year's sanctioned provision has been retained.

VIII. Public Works.—(*a*) *Establishment.*—The pay and allowance of Sub-Overseer has been omitted as per Government Order No. 7386-7—Ml. (568-05)-9, dated 1st March 1907. Provision has been made to increase the pay of Municipal Executive Engineer from Rs. 80 to Rs. 100 per month as the Board have resolved to secure the services of an Engineering graduate on Rs. 100 rising to Rs. 150 by an annual increment of Rs. 10 with the usual allowance in place of the present Municipal Engineer as reported in this office No 115, dated 7th March 1907.

(*b* to *n*) *Works.*—Out of the available funds after meeting the fixed charges, the amounts required to keep the roads and other works in an efficient order have been distributed under several heads. Particulars of works are given in Form No. II. All estimates for original works, etc., for Rs. 500 and upwards will be submitted to Government for sanction as usual. No provision has been made under Water Works as it has since been transferred to the Public Works Department.

IX. Charitable grants.—Besides the fixed charges on all the other heads a provision of Rs. 264 has been made to meet the ⅔rds cost of the establishment of the Dispensary at Weavers' Lines, Mysore.

Provision has also been made to meet the proportionate cost of a geyser required for the use of the Maharani's Hospital at Mysore as per Government Order No. 8732-5—Ml. 251-05-6, dated 22nd March 1907, and for a midwife to the Dispensary at Nazarbad as well as the increased rate of rent to the building.

X. Education.—As the Board intend to have one pial school for every 200 houses in the City for primary education and as the amount set apart for this purpose is quite insufficient to meet the requirements for giving effect to the above proposal, the allotment under this head has been increased from Rs. 9,600 to Rs. 12,000.

XI. Miscellaneous.—Rs. 931 has been provided in excess of the sanctioned estimate for 1906-07 with a view to meet the demands under the heads "Fairs and festivals," Peoples Park, other charges and other items such as reward for dog and snake killers and subsistence allowance to cholera contacts.

EXCISE DEPARTMENT.

No. 4130, *dated* 10*th May* 1907.

SALE OF SEPARATE ARRACK SHOPS FOR 1907-08.

1. Notice is hereby given that the exclusive right of selling arrack in each of the scheduled shops for the twelve months beginning with 1st July 1907 and ending with 30th June 1908, will be put up to public auction at upset prices, by the respective Deputy Commissioners or by Revenue Assistant Commissioners or by Divisional Officers of the Excise Department or other Officers specially authorized by the Deputy Commissioners for the purpose, on the dates and at the Taluk Head-quarters or other places mentioned below, subject to the conditions hereinafter set forth. If the sales are not completed on abovenamed days, they will be continued on the next following days (close holidays excepted).

2. (*a*) Each bidder at the auction will deposit a sum of Rs. 60 for shops in the Kolar Gold Fields, Rs. 25 for those in the Mysore and Bangalore Cities and Rs. 10 for those in other places, or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. It will, if offered, be received at any time within three days prior to the date of sale, provided that the Government may, at any time, dispense with such initial deposit. The deposits made by unsuccessful bidders, if not forfeited as hereinafter provided, will be returned at the close of the sale. The shops or group of shops will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject any bid at his discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government for special reasons*, be tantamount to an acceptance of the bid and will be necessary whether the sale be held by the Deputy Commissioner himself or by any other officer appointed by him. Parties intending to bid must attend either in person or by duly accredited agents. Should there be no bid above the upset price, for any shop singly, the officer conducting the sale may, in consultation with the Excise Divisional Officer, if present, club together more than one shop but not more than two in the District Head-quarter taluks and Kolar Gold Fields and six in other places or, if necessary, reserve shops for which there may be no bids, for disposal hereafter. He may, subject to formal confirmation of the Deputy Commissioner, sell the right in any particular case by means of tenders or by private negotiation. He may also lower the upset price at his discretion. The officer conducting the sale may at his discretion, and without assigning any reason, refuse to accept the bid of any person, on the ground that he has been convicted by a criminal court of such an offence, or has been guilty of such breach of the conditions of the license, or of a contract under the Excise Regulation or Opium Act, as to render him undesirable as a

holder of a license, or on the ground that he is insolvent, or in order to prevent arrangements to the detriment of Government interests, or for any other valid reason.

(*b*) No shop shall be knocked down in the name of more than one person or of more than one company or firm duly represented. The selling officer shall refuse to register as a purchaser any one in whose name the bidding has not proceeded.

3. (*a*) The successful bidder shall, on the exclusive privilege being knocked down to him, at once, if so required by the selling officer, or otherwise at the close of the day's sale, further deposit a sum equal to one-twenty-fourth part of his bid for the year, that is to say, one-half of the monthly rent unless the initial deposit equals or exceeds two months' rent. Should he fail to do so, the deposit, if any, made by him under clause 2 (*a*) will be forfeited, and the privilege will be sold again on the above conditions, or otherwise disposed of at his risk, as the Deputy Commissioner or selling officer may determine.

(*b*) The person to whom a shop or group of shops has been knocked down and who has made deposits as provided above, shall be required to leave his address with the selling officer, in order that the confirmation of the sale may be communicated to that address by a notice, and he shall, within seven days after the service of the said notice by its presentation to himself or to any adult male member of his family at the place of said address or by its being affixed thereto or by its forwardal duly registered by post, pay at the Taluk Treasury concerned, such further sum as, with the former deposits, will make up an aggregate sum equal to two months' rent, and execute at the same time before the Amildar the necessary engagements and take out the necessary licenses, as hereinafter set forth.

4. (*a*) The deposit made under the preceding para shall be either in cash or in Government of India securities duly endorsed in favor of the Deputy Commissioner, provided that in cases where the monthly rent exceeds Rs. 10 in lieu of a deposit of two months' rent as above, the Deputy Commissioner may, in his discretion, allow any purchaser to deposit one month's rent as above, and to furnish approved personal security for an amount equal to four months' rent. In all cases where the monthly rent does not exceed Rs. 10, a cash deposit equal to two months' rent shall invariably be taken, and no personal security shall be accepted. If, on enquiry subsequent to sale, the purchaser shall be found to be a foreigner having no property in the Mysore State, or to be of doubtful solvency, he may be required to deposit twice the prescribed sum or to get a surety or sureties, residents of and possessing property in the Mysore State, to execute a security bond for the due payment of *all moneys* that may become due by him under the terms of the contract.

(*b*) Should the initial deposit exceed the sum required to be deposited under clause 3(*b*) or clause 4 (*a*), the excess will be refunded to the purchaser.

5. The purchaser shall execute an agreement in the prescribed form, binding himself and, unless exempted by the Deputy Commissioner by an order duly recorded, so much of his movable and immovable property as may be deemed sufficient by the Deputy Commissioner, to observe the conditions hereinafter set forth, as well as those specified in the license to be issued to him; and his surety or sureties, if any have been accepted, shall also execute a bond in the prescribed form binding himself or themselves and so much of his or their movable or immovable property as may be deemed sufficient by the Deputy Commissioner for the due fulfilment by the purchaser of the terms of the agreement. The agreement and the bond so executed shall be stamped at the expense of the purchaser. They shall also be registered at his expense when the amount secured is Rs. 100 and above.

6. If default is made in making the deposit or deposits or in executing the agreement or the security bond, if any, and in taking out licenses as aforesaid, the exclusive privilege shall be forthwith re-sold or otherwise disposed of by the Deputy Commissioner at the risk of the first purchaser, who shall forfeit to the Government any deposit or deposits already made by him, and shall further be liable to make good any loss caused by such re-sale or other disposal. He shall not be entitled to any gain accruing from the re-sale or other disposal, and he shall be debarred from bidding again for the same or for any other shop or group of shops. In the case of loss the forfeited deposits will be deducted from it and the remainder, if any, shall be recovered as if it were an arrear of land revenue. In the case of the purchaser's death after the confirmation of the sale, it will be binding on his heirs or assigns.

7. Re-sales or other disposal effected under para 6 will be at the risk of the defaulting bidder, who shall forfeit all gain; and in the event of a loss caused by re-sale or other disposal he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale or other disposal. In the latter case, the forfeited deposit shall be deducted from the loss arising from the re-sale or other disposal, and the remainder, if any, shall be recovered from the defaulter in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit shall be credited to Government.

8. Schedules showing the amount of rental, the consumption of arrack in each shop, etc., during past years will be separately issued and may be had on application to Amildars, Excise Divisional Officers, Inspectors and Assistant Inspectors.

9. The license to be taken out under para 3 (*b*) above, shall be subject to the following conditions but nothing herein contained shall exempt the purchaser of the privilege from liability to the penalties prescribed for breaches of the conditions set forth below though a formal license may not have been issued :—

(1) The amount for which the privilege has been purchased shall, if it exceeds Rs. 12 per annum, be payable into the local Taluk Treasury in equal monthly instalments commencing from July 1907. But where it does not exceed Rs. 12 per annum, it shall be paid quarterly in not more than three equal instalments. Each instalment shall be regarded as the rent for the month or quarter in respect of which it is payable. The licensee is not required to make any additional payment on account of local cess. Each month's or quarter's rent shall be payable on or before the 20th of the same month, or before the end of the quarter for which the instalment is due. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, suspend, or declare by record in writing that the license is forfeited, and proceed to re-sell or otherwise dispose of the shop or group of shops as soon after the last day of the month or quarter as may be possible with effect from the date of issue of license to the new purchaser or from the date of other disposal. The officer who has power to suspend license may, however, at his discretion, allow sales to continue pending re-sale of other disposal of the privilege.

(2) The deposit made by the licensee shall be taken as security for the due performance of the conditions of the license and if not forfeited, credited or otherwise disposed of, shall be credited in payment of the instalments due in the last two months of the period of the lease. Provided, however, that where the shop or group of shops is re-sold or otherwise disposed of, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter as well as towards the deficits, if any, arising from the re-sale or other disposal of the shop or group of shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. Circular No. 13730-7, *dated* 14*th*—21*st May* 1907.

Subject :—

Prevention of embezzlements by village officers.

From reports of embezzlements by village officers received from time to time, the Revenue Commissioner is led to infer that the existing rules for the scrutiny of village accounts and demand, collection and balance statements by Amildars and higher revenue officers have not received sufficient attention.

The Revenue Commissioner therefore issues the following instructions for future guidance.

2. Foremost among the irregularities which lead to embezzlements may be mentioned the frequent violation of Rules 91 and 93 Land Revenue Rules. Rule 91 requires that the patel should as a rule collect the revenue giving receipts in the usual printed form attested by the shanbhog; but in a large number of cases the patel owing to illiteracy and incompetency leaves the work entirely to the shanbhog. Similarly the patel and shanbhog collect revenue in the absence of each other, without issuing the authorised printed receipt and crediting the payment then and there in the Khirdi. These irregularities of procedure should be systematically

checked by taking severe notice of lapses on the part of the village officers and giving preference to literate and capable persons in the appointment of patels in accordance with the orders passed by Government (Government Proceedings No. R. 5671-80—R. M. 521-05-12, dated 4th December 1906).

Under Rule 93, the patel has to remit the collections to the Treasury and the shanbhog's Khirdi should also accompany the remittance. In point of fact remittances are frequently sent without the Khirdis, the result being that there is no means of ascertaining whether the full amount shown as collected in the Khirdi is remitted and *vice versa*, that the whole amount remitted was duly entered in detail in the Khirdi. In all such cases, the amount should be received into the Treasury but no stray receipt should be given for such payments. The Khirdi should be sent for immediately for checking the entries and entering the Treasury certificate and due notice should be taken of the irregular conduct of the village officers concerned.

3. Another cause of the prevalence of embezzlements is that the rule which requires raiyats' receipt books to be compared with the Khirdi by Amildars and Assistant Commissioners has fallen into comparative desuetude. It is generally explained that the raiyats do not produce the receipt books at the time of Taluk or Huzur Jamabandi in spite of repeated warnings. A capable Amildar should be able to provide against this and the Huzur Jamabandi officer could ensure their production at least by the petitioners and other raiyats resorting to him, by refusing to hear their grievances till the receipts were produced. Further whenever a fair percentage of receipts are not produced in a village or firka, the shanbhog and patel concerned might be made to buy a number of printed receipt forms at their own cost and have them written up for issue to raiyats who have failed to produce their receipts.

If these precautions are steadily observed, shanbhogs and patels will have few opportunities to embezzle public funds.

4. The checking of the monthly demand, collection and balance statements and the shanbhog's khirdis is often left without sufficient control to the hobli gumasta who generally slurs over the work or colludes with the shanbhog to conceal irregularities and even embezzlements. A circular has been recently issued defining the responsibilities of the Taluk Sheristadar in this respect and the Revenue Commissioner trusts that Amildars and Taluk Sheristadars will supervise carefully the work of the hobli gumastas.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

Auditor's Report on Municipal accounts for March 1907.

1. Under the head "Licenses" a sum of Rs 1,811-8-0, under the head of "Scavengering cess" a sum of Rs. 4,872-6-0, and under the head of "Sale of manure" a sum of Rs. 737-1-6 have been shown as arrears due. None of these items should in the nature of things fall into arrears. These require explanation and prompt attention.

2. Seventy or eighty tins of kerosene-oil are purchased every month for lighting portions of the City departmentally. Whether the departmental management is economical or otherwise, requires scrutiny.

3. Vouchers 127 and 128 relate to an expenditure of Rs. 6-4-0 and Rs. 4-8-0 respectively for purchasing rulers and file-boards, etc. These are proper charges on contingent amount sanctioned in the budget, but we find that these items are put under the head of "Tools and plant." This method is irregular.

B. APPAJIAH,
Municipal Commissioners.

Bangalore
16th April 1907.

2. Read appointment of a Committee for hearing and disposal of objections to the valuation and assessment for the current official year, under Section 65 (3) of the Mysore Municipal Regulation of 1906.

Resolved that a Committee as laid down in section 65 be appointed to sit for the above said purposes on the dates already published in the Gazette and that wide publicity of the same be given in each locality by beat of tom-tom and publication in the newspapers.

Also read Government Proceedings No. 9804—Ml. 384-05-4, dated 22nd March 1906, directing the taking over of the charge of the completed roads in the two extensions.

Resolved that as the estimate for the up-keep of the completed roads comes to Rs. 8,000 per annum and the net income derived only amounts to Rs. 2,000 that Government be requested to allow the Council an annual grant of Rs. 6,000 until such time as the Municipal Council can take up the maintenance of the said roads without such contribution.

4. Read estimate for the construction of a V drain in IV Main Road, New Tharagupete, for Rs. 861

Resolved that this be passed and that the work be put in hand as early as possible.

5. Read Government Proceedings No. 8687-9—San. 40-06-4, dated the 21st March 1907, directing that the Municipal Council should bear half the entire Plague charges in the City from 1st July 1907, no relaxation of any kind in the matter being allowed thereafter.

Resolution.—Recorded.

7. Read proposal to grant the triangular plot of ground measuring about half an acre to the west of north-west diagonal road in the Basavangudi Extension to Reverend Rees in exchange for the land required to be utilized in the premises of the Mission Buildings for realigning the Lal-Bagh Road.

Resolved that the unnumbered site measuring 24 guntas and 40 square yards and lying to the west of the circle near the public square on the Fort Centre Road, be made over to Rev. Rees for the purpose of building a Girls' school in exchange for the 3 guntas and 82 square yards of land to be given up by him in the Mission compound for widening the corner of the road leading to the Lal-Bagh.

8. Read the General and Revenue Secretary's Memo No. 9316, dated the 9th April 1907, forwarding copy of Government Notification No. 9315—Ml. 267-06 of that date, notifying the substitution of the name "Sheshadri Road" to the present "Jail Road."

Resolution.—Recorded.

9. Read Government Proceedings No. 7693-704—Ml. 240-06-2, dated the 6th March 1907, regarding the Sanitary Engineer being included in the list of Officers specified in Section 26 (4)-(*a*) of the Mysore Municipal Regulation, VII of 1906.

Resolved that as it has been decided to convert the Dharmambudhi tank into a park, the water in the contour channel be diverted into the Jakrayanakere and that steps be taken to improve the tank as far as possible.

13. Read consideration of draft Bye-laws relating to assessment, demand and collection, levy of toll, and octroi and tax on vehicles and animals.

Resolution.—Deferred until next meeting.

14. Read proposal to tax the Thigalars' gardens for the use of the sewage water of the main drain with a view to augment the Municipal revenue, as directed in para 9 of Government Proceedings No. R. 6895-908—L. S. 28-96-2, dated the 12th January 1907.

Resolution.—The Council considering the large improvements that are being carried out by the Sanitary Department, is of opinion that it would be detrimental to the health of the City and to the profits of the proposed sewage farm if the Thigalars were allowed to use the sewage on its way to the Sunnakal tank bed and accordingly resolves that this practice should henceforth be put a stop to.

15. Read copies of the Sanitary Engineer's docket No. 609, dated the 9th April 1907, and the estimate received therewith amounting to Rs. 1,194 for constructing flushing tanks along the Avenue road, Bangalore City.

G. HANUMANTHA RAO,
for *President.*

MYSORE CITY IMPROVEMENT TRUST BOARD.

PROCEEDINGS OF AN ORDINARY MEETING OF THE BOARD OF TRUSTEES FOR THE IMPROVEMENTS OF THE CITY OF MYSORE, HELD AT THE CHAIRMAN'S OFFICE ON WEDNESDAY THE 29TH MAY 1907.

Mr. D. Sitarama Rao, Chairman.

TRUSTEES.

Present.

Dr. T. S. Nanjappa, Civil Surgeon.
Mr. G. Hanumantha Rao, Vice-President.
„ Mahomed Jaffer Sahib.
„ M. Anantharajaiya.
„ M. Venkatakrishnaiya.
„ M. C. Ranga Iyengar.

Absent.

Mr. E. Maconochie, I.C.S.

Subjects.

I. Official Memorandum No. 9990—Ml. (481-06)-3, dated the 29th April 1907, from the Secretary to Government, General and Revenue Departments, forwarding for report petition from A. Ramanuja Iyengar, complaining against the acquisition of the 'nine houses Agrahar,' and enquiring what arrangements the Board would propose in the matter with a view, if possible, to preserve the integrity of the charitable grant.

Resolutions.

Resolved that the Government be informed that the nine Agrahar houses were owned by different persons and have changed hands, thus breaking up the integrity of the original private charitable grant, that the present owners, including the petitioner A. Ramanuja Iyengar, have voluntarily agreed to these houses being acquired by the Board, and have executed "Muchalikas" consenting to receive money compensation settled therefor, that some of them have received the amount of compensation and made over their houses to the Board, which have been demolished, and that, in view of the facts stated above, the Board is of opinion that in the present case no special arrangement need be made for the construction of houses by the Board in lieu of those taken up, especially, seeing that, of several owners, A. Ramanuja Iyengar is the only one who, nearly two months after voluntarily consenting to the acquisition, has now come forward, objecting to the acquisition and the amount of compensation, because he is not to get the whole or any portion of the compensation money, owing to the house having been admittedly mortgaged by him to M. R. Narasimhachar.

Adjourned for personal inspection of the locality.

II. Letter No. 127—14, dated the 23rd April 1907, from the Honorary Secretary to the Managing Committee of the Sadvidya Patasala, *in re* the acquisition of a portion of the compound of the Patasala.

III. Correspondence ending with letter No. 1999, dated the 27th April 1907, from the officer in charge of the Palace Establishments, regarding the acquisition of houses of Palace servants in the Fort.

Resolved that the officer in charge of the Palace Establishments be informed in reply to his queries as follows:—

Query No. I.—That sites are available either in the Chetnahalli extension, where a large area is specially reserved for the purpose, or in one or other of the several cleared areas in the City.

Query No. II.—Under existing conditions, the Board regrets that it cannot undertake the construction of houses in lieu of those acquired. According to the project for the Fort area prepared by City Improvement Committee, reallotment of sites for building purposes is not contemplated. The sites behind City Magistrate's Court in Lashkar Mohalla, are very costly and it is very doubtful if all the displaced servants of the Palace can be conveniently accommodated in that locality, and the attention of the Palace Officer is invited to the subjoined extract from the proceedings of the Board held on the 29th August 1906.

IV. Letter dated 1st May 1907, from Mr. S. Venkatavaradan Iyengar, District and Sessions Judge, Mysore, requesting that the plot of vacant land to the west of his bungalow, near the Subbarayanakere, may be finally given to him.	Reserved for inspection.
V. Disposal of the reclaimed portion of the northern arm of Doddakere.	Adjourned for inspection.

D. SITARAMA RAO, *Chairman.*

I. Read docket No. 7168—L. B. 321-06-3, dated the 19th February 1907, from the Secretary to the Government, intimating that it has been decided by the Chief Commissioner of Coorg to advise the District Board of Coorg to abolish their Kyatehole toll-gate, so that one might be established by the Hassan District Board on the Arkalgud-Kodlipet-Manjarabad road, on the Mysore side of the Hassan District, and requesting the placing of this matter before the Hassan District Board for consideration and submission of a copy of their resolution for the orders of Government, with a sketch showing the position of the existing British toll-gates and the place where it is proposed to open a toll-gate on the Mysore side of Kyatehole.

Resolution.—Resolved that the proposal of the Chief Commissioner of Coorg to open a toll-gate on the Mysore side of the Arkalgud-Kodlipet-Manjarabad road, be adopted, the toll-gate being located at the junction of the above road with the Banawasi-Yeslurpet road. It is recommended that, as suggested by the Chief Commissioner of Coorg, only one toll be collected, either at the Mysore toll-gate or the Coorg toll-gate, on carts passing the toll-gate within twenty-four hours.

II. Read General and Revenue Secretary's docket No. 7647—L. B. 162-06-4, dated the 6th March 1907, requesting a report if the Hassan District Board are willing to bear half the cost of construction of bridle paths in Mysore in continuation of those in Coorg, *i.e.*, from Somwarpet joining the Arkalgud-Konanur and Saklespur-Bisleghat roads, since the entire cost cannot be debited to Local Funds General.

Resolution.—The Board express their inability, at present, to meet the moiety of the cost of construction of the road.

III. Read the General and Revenue Secretary's docket No. 9081—L. B. 224-06-3, dated the 2nd April 1907, forwarding for report with the resolution of the District Board, Subject No. 497 of the Dasara Representative Assembly of 1906, in the matter of opening a feeder road to Tiptur-Huliyar road from Hosdurga to Honnavalli.

Resolution.—The Board considers that so far as the interest of this district is concerned, it is at present unnecessary to open a road from Hosdurga to Honnavalli.

IV. Read the General and Revenue Secretary's docket No. 9321—L. B. 402-05-8, dated the 9th April 1907, observing that, as the proposed classification of shops in santes for the levy of fees therein leads to complication, Government consider that the scale of fees levied in santes elesewhere may be tried as a tentative measure, and requesting to report whether this is agreeable to the Board, and if so, which of the rates they would prefer, and also to state what conveniences are intended to be provided for persons attending the santes, to justify the levy of fees in santes.

Resolution.—On a reconsideration of the question, the Board is of opinion that the question of the levy of tax on shops in santes may be dropped for the present.

V. Read the General and Revenue Secretary's memo No. 9780, dated the 24th April 1907, forwarding a copy of his docket No. 9779—L. B. 54-05-10, dated 24th April 1907, in the matter of meeting the cost of construction of a bridge across the halla falling into the Cauvery near Kerlapur, and observing that, if the Hassan District Board cannot contribute at least a third of the cost, there is no chance of the work being undertaken.

Resolution.—The Executive Engineer having suggested that the road may be diverted over the bund of the Budanur tank so as to avoid the halla altogether, resolved that he be requested to have the matter investigated in detail and favor the Board with his opinion in the matter.

CIRCULAR MEMORANDUM.

No. 15511-90, *dated* 21*st*—26*th June* 1907.

Under Section 7 of the Forest Regulation, 1900, the Forest Settlement Officer is required to enquire not only into all claims duly preferred under Section 5 (*d*) of the Regulation but also into the existence and extent of any rights which have not been formally claimed. The Deputy Commissioners and the District Forest Officers are also enjoined to take special care that all customary rights known or believed to be enjoyed by any wild jungle tribes are brought to the notice of the Forest Settlement Officer in view to their being admitted and recorded by him. *Vide* Rule 16 of Rules regulating the procedure of the Forest Settlement Officers, published with Government Notification No 249-1304, dated 2nd October 1901. But it has been brought to notice that these provisions have seldom, if ever, been availed of and that the Forest Settlement Officer has to confine his enquiry ony to the claims urged before him, probably owing to want of co-operation of the local Revenue officers, thereby causing considerable inconvenience not only to the agricultural classes but also to all the villagers generally who begin to prefer their grievances after the Forest Rules are put into operation in the tract. With a view, therefore, to enable the Forest Settlement Officer to collect as much information as is necessary to fully justify the agricultural and other needs of the locality and meet the convenience of the villagers residing in the proximity of the Forest, the Revenue Commissioner desires to impress on all Amildars the necessity of their keeping themselves in touch with the Forest Settlement proceedings in their taluks and bringing to the notice of the Settlement Officer such interests of Government or rights of the people as are apt to be overlooked by him owing to insufficient representation.

FINANCIAL DEPARTMENT.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1907.

Circular No. T. A. 2093—43, *dated 6th July* 1907.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1907, prepared in accordance with the instructions laid down in pages 26, 27 and 28 (Chapter 5), Volume 1 of the Seventh Edition of the Civil Account Code, *so as to reach this office not later than the 15th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to :—

(*a*) The name, designation and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the exact date of birth by Christian era should be given as directed in Government Order No. Fl. 8225-67—S. A. 715-06, dated 2nd May 1907, and this office Circular No. 6402-70—A. C. 1036, dated 8—15th May 1907. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column, "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay-bills due 1st October will not be discharged at the treasuries unless accompanied by a certificate as follows:—

(1) In the case of establishments of Heads of Departments, "that the schedule for 1st July has been forwarded by this office."

(2) In the case of all sub-offices and establishments "that the schedule has been forwarded to the Head office."

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1907.

Circular No. T. A. 2093—43, *dated 6th July* 1907.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1907, prepared in accordance with the instructions laid down in pages 26, 27 and 28 (Chapter 5), Volume 1 of the Seventh Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1907.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to :—

(*a*) The name, designation and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Order creating the post, should be clearly entered in the appropriate columns of the statement, the exact date of birth by Christian era should be given as directed in Government Order No. Fl. 8225-67—S. A. 715-06, dated 2nd May 1907, and this office Circular No. 6402-70—A. C. 1036 dated 8—15th May 1907. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column, "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first,* and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section,* besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i. e.,* rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*), as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

6. Pay bills due 1st October will not be discharged at the treasuries unless accompanied by a certificate as follows :—

NOTICE.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evening for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent, later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that, when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

3. Though the Head of the Office is the authority who can sanction or withhold the periodical increments claimed by officials working under him, it has been noticed in several cases that such claims on behalf of officials working in taluks are being usually submitted to and decided by the Deputy Commissioners concerned. As Assistant Commissioners in charge of Sub-Divisions have now been empowered to exercise most of the powers of Deputy Commissioners and as the reference of applications for increments to taluk officials to Deputy Commissioners is calculated to cause delay and unnecessary increase of work, the Revenue Commissioner directs that Sub-Division Officers may, in future, dispose of claims for such increments to officials of taluks subordinate to them.

B. 365-06-2, dated 25th March last, enquiring whether a 4th class musafirkhana of the standard design will not be sufficient at Hiregebbe in the Hiriyur Taluk, in place of an estimate for Rs. 1,000 for a katcha building now submitted, and calling for the opinion of the Board.

Resolution.—A building on the model of a native kitchen for cooking purposes with two additional rooms will answer the present requirements and a 4th class musafirkhana according to the standard design which costs no less than Rs. 2,332 is not required for this road. Resolved that a revised estimate be prepared on the above lines and submitted to Government for sanction.

6. Read General and Revenue Secretary's docket No. 4746—L. F. 252-06, dated 7th December 1906, enquiring why the District Board may not open a road to the Somalapuram Railway Station and establish a toll-gate for its maintenance, if the goods traffic is as large as has been represented.

Resolved that the question be deferred for the next meeting till certain information called for from the Amildar about the number of carts that pass through the twelve villages referred to, is received.

7. Read General and Revenue Secretary's No. 6217-24—L. F. 196-06-1, dated 11th January 1907, calling for the opinion of the Board in the matter of the proposed enhancement of the rate of fine for impounded goats.

10. Read again Government Proceedings No. 6037-40—L. F. 291-06, dated 4th January 1907, calling for a report in the matter of the proposed abolition of sante at Kunikere, Hiriyur Taluk, which is stated to be not necessary.

Resolution.—As sante is not held at Kunikere, the coolies having shifted their camp, the same may be abolished.

11. Read General and Revenue Secretary's No. 10795—L. B. 402-06, dated 18th ultimo, calling for the resolution of the Board in the matter of the proposed supply of twenty-five chairs for the use of the members of the Board on the occasion of meetings.

Resolution.—As chairs had not been supplied before and as great difficulty is being experienced for want of them, the present requisition be sanctioned.

12. Read General and Revenue Secretary's No. 9082—L. B. 224-06, dated 2nd April last, forwarding for report Representative Assembly Subject No. 497, regarding the opening of a road from Honnali to Hosdurga.

Resolution.—No funds for the present. Will be considered when funds become available.

13. Read Government Proceedings No. 7005-7—L. B. 13-06, dated 14th February 1907, sanctioning appropriation of amounts for the incomplete works of last year and also remarking that long lists of incomplete works and applications of the kind under disposal are indications of want of efficiency in the local executive.

Resolved that the same be communicated to all the Amildars in this district for information with a request that every endeavour should be made to complete the works now on hand before the close of the current official year.

14. Read Government Proceedings No. 10590-602—Med. 297-06, dated 13th May 1907, stating that it is under contemplation to appoint in villages Native Pandit or Hakim who has obtained a certificate of proficiency from the Head of the Indigenous Hospital at Mysore instead of the weekly visits by the Hospital Assistants, which has not been working satisfactorily.

Resolution.—The proposal commends itself to the Board and they accordingly resolve that the following places or villages, which are considered very unhealthy, be selected and that certified Native Pandits or Hakims trained in the Ayurvedic system of medicine be appointed in each of them at an early date :—

(1) Bharmasagar, (2) Naikanhatti, (3) Chitrahalli, (4) Dharmapur, (5) Bilichode, (6) Sokke, (7) Janakal, (8) Budihalu, (9) Anagi, (10) Hadadi, (11) Devarbelakere, (12) Siragere, (13) Devasamudra.

17. Read Executive Engineer's No. 114, dated 27th March 1907, forwarding for counter-signature and return, an estimate for Rs. 1,644 for improving the bund of the Jagalur tank and applying for the grant of required funds for the work in question.

Resolution.—Approved.

18. Read Executive Engineer's No. 115, dated 27th March last, proposing that owing to the increased traffic passing on the Harihar-Harapanahalli road, the present mileage allotment of Rs. 50 is insufficient and that therefore the same be raised to Rs. 100 for the better up-keep of the road.

Resolution.—The cart traffic on this road has been very heavy for the past eight months owing to the transport of manganese ore from Duggahatti Gudda to Harihar Railway Station and this traffic is likely to continue for some time longer. The road has in consequence become cut up very much and is in need of special repairs. A large outlay is required to keep it in good order. This cannot be considered a legitimate charge on the ordinary receipts of District Funds. But there is no provision in the Local Board Regulation to levy any special tax for meeting such extraordinary charges. The Board therefore resolve that the Government be moved to make provision in the said Regulation authorising the District Board to levy tax temporarily on carts passing on any road with a view to meet such charges.

19. Read Executive Engineer's yadi No. 24, dated 27th March last, intimating with reference to this office query, that estimate for the construction of a building for the use of Public Works Department Sub-Division office at Holalkere has not yet been sanctioned.

Resolved that rent at the sanctioned rate be levied from the Public Works Department for the portion occupied as Sub-Division office.

20. Read Hosdurga Taluk Board Resolution No. 2, dated 23rd October 1906, *re* the question of repairing the following roads :—

21. Read Challakere Taluk Board Resolution dated 31st October 1906, stating that it is highly desirable to convert the present cart-track running from Naikanhatti to talak into a good Local Fund road.

Resolution.—The question may be considered when funds become available.

Resolution.—The Board is of opinion that this does not seem to be a legitimate charge on District Funds, as no portion of the revenue of the Municipality is credited to District Funds.

25. Read General and Revenue Secretary's No. 6233-48—L. F. 1906-06, dated 11th January 1907, and the Representative Assembly Subject No. 223 of 1906, regarding the applicability of Village Sanitation Rules to villages containing 50 houses.

Resolution.—Recorded. The Board observe that the estimate of receipts for the year 1907-08, *viz*, Rs. 92,146, includes the sum of Rs. 9,300 which represents the 76 per cent of the local cess on supari halat collections. Halat duty having been abolished from 1st July 1907, the income from the cess thereon will be nil for the next year. The Government should therefore be addressed on the subject and asked to sanction a grant of Rs. 9,300 to the District Funds of this district to make up for the loss of income under this head. The District Fund roads which are now used by carts laden with manganese ore have to be maintained in an efficient condition and unless the District Fund income is supplemented by a grant either from the royalty levied on manganese ore or other source, it will be impossible to keep up the existing roads in repair and to initiate improvements under the heads of communications, well works and other items of public benefit.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evening for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent, later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that, when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

ABSENT.

Non-official Members.

Mr. G. Ramaswamiah, Kunigal.

I. Read the audited monthly District Fund accounts of receipts and expenditure for the months of January, February and March 1907.

Passed.

II. Read General and Revenue Secretary's docket No. 6002, dated 3rd January 1907, requesting to be furnished with a list of villages at which the Board propose to open Branch Dispensaries; and the resolutions of the marginally noted Taluk Boards on the subject.

(1) Tumkur.
(2) Maddagiri.
(3) Sira.
(4) Tiptur.
(5) Chiknayakanhalli.

Resolved that the branch dispensaries are needed at the villages of (1) Uradagere, Tumkur Taluk, (2) Midagesi, Maddagiri Taluk, (3) Bukkapatna, Sira Taluk, (4) Honnavalli Tiptur Taluk, (5) Kandikere, Chiknayakanhalli Taluk. The Board would find it difficult to bear the cost of these dispensaries until some means can be found to meet some part of their expenditure in Public Works. They would request that the cost of medicine and the travelling allowance of the Hospital Assistant be met from the Medical budget.

III. Read Government Proceedings No. 7209-49—G. R. 17-06-1, dated 22nd May 1907, forwarding the Dasara Calendar for 1907.

Resolved that Messrs. G. Sivaramaiya of Maddagiri and Vembar Venkata Narasimhachar of Pavagada represent the Board at the ensuing Dasara Representative Assembly.

IV. Read the schedule of rates prevailing in the district; and the General and Revenue Secretary's docket No. 947—L. B. 423-06-5, dated 1st August 1907, enquiring whether the rates have been approved by the Board.

Resolution.—The rates noted in the schedule are approved.

V. Read Senior Surgeon's Medical Circular No. 7205—7344, dated 7th June 1907, *in re* Hankinizing wells.

Resolved that a Kanarese translation of the circular be furnished to each of the members so that they may explain it to the people.

VI. Read Executive Engineer's docket No. 12, dated 10th January 1907, stating that on certain roads* the traffic is very heavy, that their mileage grant should be increased to Rs. 200 a mile, as otherwise the roads will soon get so bad that a heavy initial outlay will be necessary to bring them to formation and proposing that the additional funds required be raised, if necessary, by establishing toll-gates; and Gubbi Sub-Division Assistant Commissioner's yadi No. 753, dated 3rd May 1907, forwarding Tiptur Taluk Amildar's report submitting Taluk Board's resolution *in re* the increase of the present mileage grant of the District Fund roads in that taluk.

*(1) Kibbanahalli-Huliyar road.
(2) Do Turuvekere do
(3) Cart-track from Chiknayakanhalli to Madanamadu.

Resolution.—With a view to secure funds for increasing the present mileage grant of District Fund roads on which the traffic is heavy it would do for the present to have toll-gates on the roads to Banasandra Railway Station.

VII. Read letter dated 27th May 1907, from Revd. W. B. Trewhella, stating that the well is proposed to be sunk near the compound hedge at the back of the church at Gubbi, at an estimated cost of about Rs. 350 and that the well is intended for the Christian families at present living in and near the said compound and also for those who are about to live there. The Revd. W. B. Trewhella asks for a contribution of Rs. 150.

Resolution.—According to khaneshumari the population in the Mission bungalow compound and near the church is 49, but according to the statement of the population themselves it is 105. There are some wells about the place which the Mission or the people can deepen. As there are many large villages which are yet to be provided with wells, and as there is already a large drain on the resources of the Board, it is regretted that Mr. Trewhella's proposal cannot be complied with now.

VIII. Read Maddagiri Sub-Division Assistant Commissioner's yadi No. 1607, dated 12th May 1907, submitting for orders Koratagere Deputy Amildar's report proposing that the old and dilapidated chavadi that is obstructing the public drain in Holavanahalli Union may be sold by auction, and that a new chavadi be built in a separate place.

Resolution.—Approved.

IX. Read Tumkur Taluk Amildar's report No. 448, dated 24th June 1907, reporting that there is no income from the cattle-pound at Singrihalli village, Uradagere Hobli, and that it may be abolished and transferred to Honasigere village, where the shanbhog and patel have executed a mutchalika to build a new cattle-pound.

Resolution.—Approved.

X. Read and approved the list of District Fund works sanctioned during the months of May and June 1907.

XI. Read and approved list of estimates for works received from the Executive Engineer Tumkur Division, countersigned by the President.

XII. Read the list of District Fund works that remained incomplete on the 30th June 1907.

REVENUE DEPARTMENT.

CIRCULAR MEMORANDUM.

No. 3498-3506, *dated* 12—14*th September* 1907.

In accordance with the directions contained in para 2 of Government Proceedings No. Fl. 8288-97—L. R. 21-06-5, dated 3rd May 1907, the Revenue Commissioner issues the following instructions :—

1. In order to secure uniformity of practice in the sorting and arrangement of records of all the District and Taluk Offices, the Deputy Commissioners are requested to permit the Inspector of Sorting Records to summon all the taluk record-keepers or other officials employed in the sorting of taluk records as well as Taluk Sheristadars, as far as possible, to the District head-quarters and to explain to them the rules and the method of sorting the records. The officials so summoned will also be made to undertake the sorting of a bundle or two of the records in the head-quarter Taluk Office under his immediate supervision, to see whether they have rightly understood the principles. The officials concerned need not be away from their taluk for more than a week.

2. As the sorting and arrangement of records is very important and to a certain extent difficult and as the work both in the district and the taluks is likely to be heavy till all the old records are sorted and destroyed, it is very necessary that especially the present batch of officials should be intelligent and capable. It will therefore be the duty of the Inspector to test the competency of these officials and report to the Deputy Commissioner the names of incompetent and ineligible men, so that they may be replaced without delay.

3. Before the Inspector leaves a district, he will submit through the Deputy Commissioner a report of the work done by him at each head-quarters of the district, together with a statement containing the names of the Taluk Sheristadars, record-keepers, etc., who attended to receive his instructions, with remarks as to their qualifications for the work, and will also offer any remarks or suggestions which he may wish to make for the consideration of the Revenue Commissioner.

4. The Inspector will prepare a programme of his visit to the different districts for this purpose, and after approval by the Revenue Commissioner, intimate the same to the Deputy Commissioners of Districts in order that timely notice might be given for the attendance of the required officials at the District Kasaba. This preliminary instruction and training of the record-keepers in all the districts by the Inspector is expected to be completed in the course of about two months.

5. The record-keepers and their assistants should each keep a diary in the appended form according to the instructions given therein. The District Sheristadar, Amildar and Taluk Sheristadar should see that they are correctly maintained and forward a monthly extract of the same direct to the Inspector, who will return the same with his remarks through the Deputy Commissioner or Sub-Division Officer.

6. It is to be distinctly understood that the Taluk and District Sheristadars will be held primarily responsible for the proper supervision of the sorting work in the Taluk and District Offices respectively. The record-keepers should be made to submit in the form of a memo any difficulties or doubts which they may come across in sorting records and place it before their Sheristadars, who will note down their instructions thereon or refer the same to the Inspector for his instructions. These memos should be placed before the Inspector at the time of his next inspection for reference.

7. After the close of the preliminary instruction, the Inspector should begin the regular inspection of the records of every District, Sub-Division and Taluk Office and see whether the sorting work has been performed in accordance with the rules and instructions given from time to time and a fair and reasonable progress has been made in the work, and report the result of his inspections to the Revenue Commissioner through the Deputy Commissioners.

Diary of head record-keeper, assistant record-keeper or daftarband of the District or record-keeper or daftarband of Taluk District for the month of 190 .

						Here enter any new daftars or files received into the record room for being preserved.

N. B.—(1) Every record-keeper, Assistant record-keeper and daftarband should maintain a book in the above form, enter therein the work done by him each day till the end of the month and then prepare an abstract of the same and submit it before the 5th of the month following to the Inspector through the Taluk Amildar or Sheristadar. The original should be maintained in the office for inspection.

(2) The District and Taluk Sheristadars should verify every week and certify in the diary that the work as detailed has been done and the same has been duly checked and found correct.

(3) The Treasury Assistant Commissioner and Amildar should also inspect the work done and sign the diary together with their remarks. These remarks should be extracted and sent to the Inspector with the monthly abstracts.

(4) Only figures are to be entered in columns 1, 2, 3 and 4. In columns 5 and 6, in stating the nature of the work done, no elaborate details need be given. It is enough to enter that so many files or village or survey accounts of such and such year falling under A or B group with sub-heads the writing up of the diary should not occupy more than ten minutes a day.

(5) The above form should be adopted from the month of October 1907.

The following Circular in the matter of forming village roads, approved by Government in their Proceedings No. 64-72—L. B. 180-06-5, dated 3rd July 1907, is issued for the information and guidance of officers concerned :—

Circular No. 3543-50, *dated* 15—17*th September* 1907.

The attention of Deputy Commissioners of Districts is invited to this office Circular No. 6815-22, dated 22nd March 1905, requesting them to devote a para in their Annual Administration Reports to the number of village roads opened every year.

2. The information supplied under this head by the Deputy Commissioners is yet very meagre ; and in the year 1904-05, the Deputy Commissioners of Bangalore, Tumkur, Mysore, Hassan and Kadur, and in the year 1905-06, the Deputy Commissioners of Bangalore, Hassan, Shimoga, Kadur and Chitaldrug did not supply the necessary information.

3. Constant complaints are being made by the members of the Representative Assembly, of the inconvenience caused to the people by the difficulty of communication between villages in rainy and cultivation season, and the Revenue Commissioner thinks that a great deal of work can be done every year, if only the local officers interest themselves personally in the matter and persuade the more well-to-do among the raiyat population to act in concert and to annually open a few roads and maintain them in good order. The success achieved will mostly depend on the sympathy and readiness to help which Amildars and Assistant Commissioners show whenever they see signs of a spirit for self-help and co-operation on the part of village population in matters of communal benefit.

4. As a first step in this direction, it is very necessary that the Amildars and the Deputy Amildars should be instructed to open a register in the accompanying form of roads and tunnels required. The register should be revised and added to from time to time and information should be given in the Jamabandi reports of each taluk, of the number of roads required for each taluk, the number and mileage of roads repaired and newly constructed, the number of tunnels required, the amount contributed by the District Boards and the interest taken in the work by the Amildar.

5. The Deputy Commissioners of Districts are also requested to devote their personal attention to the matter and examine the said registers during their tours and give full information of results achieved in their annual Administration Reports from the year 1907-08.

Form of Register of village roads to be kept in taluks, annual abstract of the same being sent to the Deputy Commissioner's office on 1st August of every year : –

1. Names of hobli and hobli shekdar.
2. Names of village and village patel.

11. Amount actually spent during the year for the construction of tunnels.
12. Remarks. (Here mention the names of officials and non-officials who took an interest in the work and achieved good results.)

Form of statement to be sent to the Revenue Commissioner with the Administration Report :—

G. HANUMANTHA RAO,
Vice-President.

FINANCIAL DEPARTMENT.

To—The Deputy Commissioners, Treasury Department, of Districts.

Circular No. 2085—*B. & R.* 359, *dated* 1*st October* 1907.

Government having in their Proceedings No. 1455-64—Gl. Fin. 290-04-2 of the 25th September 1907 sanctioned the issue of Supply Bills on certain conditions, the following instructions are issued for the information and guidance of District Treasuries in order that this office may regulate the issue of such bills.

2. (*a*) No specie remittances will be made from one district to another, or from and to the State Huzur Treasury without either the general or special orders of this office. But each District Treasury will note on its monthly Cash Balance Report, if the Treasury is a surplus one; the surplus *specie* which it things can safely be placed at the disposal of the undersigned for transfer to other districts; if, on the other hand, the Treasury is a deficit one, it will note on the report the probable amount which it would require for meeting its demands.

(*b*) It must be understood that while any surplus which may be noted in the Cash Balance Report as having been placed at the disposal of the undersigned will be liable to be utilized *at once*, the remittance of the probable amount that may be asked for in such report can only be arranged for after sometime. Such intimation of amounts required does not therefore dispense with the necessity for sending the usual indents for whole rupees which should invariably be forwarded before the close of the month preceding that in which the amount is required.

3. An amount which has once been placed at the disposal of the undersigned cannot under any circumstances be either utilized by the Treasury for its own purposes or remitted by such Treasury to another without the special previous sanction of this office.

4. These instructions do not in any way affect the standing orders as regards remittances of currency notes which should, unless otherwise instructed by this office, be invariably made during the first week of a month. Attention is invited to Article No. 662 (*a*) Civil Account Code on the Subject. Nor do they affect the existing orders in regard to the indent and supply of small silver and copper.

5. Pending the revision and issue of forms of Cash Balance Reports it is requested that the information required by para 2 (*a*) of this circular be furnished in the Cash Balance Reports now in use commencing with that now due (1st October 1907).

U. L. MAJUMDAR,
Comptroller.

REVENUE DEPARTMENT.

Circular No. 4303-4310, *dated* 1*st October* 1907.

Instances having come to the notice of the undersigned in which the District and Taluk Officers kept in deposit undisbursed pay for several months without refunding the same to the Treasury by short drawal in the bills for succeeding months, the attention of the Deputy Commissioners is invited to the provisions of Article 63 of the Civil Account Code, as also to Article 59 of the Taluk Treasury Manual, which clearly prohibit such procedure. While retaining such undisbursed amounts for months together, the drawing officers are reported to have been certifying, at the same time, in the subsequent bills to the effect that all salaries drawn on former bills have been disbursed to the proper persons. This is grossly irregular and reveals the fact that the drawing officers do not realise the import of such certificates and their responsibility to be accurate in making them.

2. The Deputy Commissioners are requested to draw the attention of all the disbursing officers subordinate to them, to Comptroller's Circular No. 20-6—T. A. D. 489, dated 15th October 1906, and to impress on them that they should first satisfy themselves before signing the pay bills that no undisbursed pay is kept on hand.

Any serious deviation from the rules, may, it is requested, be reported to the undersigned for taking due notice.

Notification No. 4345, *dated* 7*th October* 1907.

Under Article 177 of the Mysore Service Regulations, Mr. V. Gopal Rao, Amildar of the Bagepalli Taluk, is granted privilege leave of absence for ten days with effect from such date as he may avail himself of the same.

2. S. Anantaramaiengar, Deputy Amildar of the Gudibanda Sub-Taluk, will be in charge of the Bagepalli Taluk, in addition to his own duties during the absence of Mr. V. Gopal Rao on leave or until further orders.

Circular No. 4362-69, *dated* 4—9*th October* 1907.

It has been brought to the notice of the undersigned that, in spite of the Comptroller's Circular No. 940-8—179, dated 10th August 1906, wherein the Deputy Commissioners in the Treasury Department have been requested to credit to the Forest Department certain miscellaneous receipts in the Amrut Mahal kavals, in accordance with Government Proceedings No. 9447-50—Ex. F. 9-99, dated 25th May 1901, complaints are being received from the Superintendent of the Amrut Mahal Department that in several cases items which ought to have been credited to Local Cess and Forest Department, are being shown as 'Amrut Mahal Receipts.' Failure to carry out instructions in such a simple matter only indicates indifference on the part of District and Taluk Treasury Officers and inexcusable carelessness on the part of the officials. The Deputy Commissioners are requested to issue suitable instructions in the matter to prevent recurrence of the mistakes pointed out above.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

I. The District Fund audited accounts for April and May 1907.

Resolution.—Read and passed.

II. The District Fund Administration Report for the year 1906-07 together with its appendices.

Resolution.—Read and passed.

III. The following subjects which were brought by the members of the Dasara Representative Assembly for the year 1907 at the preliminary meeting on the 27th ultimo at Tumkur were read and the resolutions of the Board are noted against each :—

SUBJECT.

1. *D. R A. Member Mr. Seenappa, Tumkur Taluk.*—The road from Tumkur to Uradagere has been extended to Kolal (six miles beyond Uradagere) through the exertion of the Taluk Amildar. It is prayed that the few tunnels required may be constructed by Government and the road extended as far as Hulikunte where a weekly sante is held.

Resolved that this subject be referred to the Taluk Board for opinion. The country is hilly and there are very few streams worth the name.

2. It is requested that Kolal village may be formed into a Union as it has more than 300 houses.

Resolved that an enquiry be made why the said village was not included in the list of villages proposed by the Amildar to be formed as Unions.

3. (a) *Mr. Huchveeregowda of Kadaba, Gubbi Taluk.*—Repairs to Sira-Gubbi road between Kodiyala and Gubbi.

(b) *Messrs. Kaggirappa and Madar Sab.*—A road from the village limits of Kodiyala situated on the Sira-Nelligere road to the Gubbi Railway Station.

Resolved that the road is unnecessary and to undertake it would be a culpable waste of money. The present cart-track in its present condition ought to be sufficient to those who wish to save the extra length of some 2½ miles of the *Pukka* road *via* Nittur. And further Nittur Railway Station is nearer to Kodiyala than Gubbi.

4. *Mr. Hutchveeregowda of Kadaba, Gubbi Taluk.*—Opening roads in Unions.

Resolution.—Provision for this purpose is being made in the Annual District Fund Budgets as funds become available for the purpose. The Unions would have to be taken up in the order of their importance.

5. *Mr. Hutchveeregowda of Kadaba, Gubbi Taluk.*—Construction of a road from Kadaba to Chitnahalli *via* Kallur where a weekly fair is held.

The proposal does not commend itself to the Board. From the main road there is already a cart-track to Kallur and that ought to be sufficient and it is only about three miles from Kallur to Chitnahalli. There are many villages in every taluk of equal importance with Chitnahalli and Kallur. The Taluk Board will however be asked if there are any special circumstances to recommend the proposal for reconsideration.

6. *Mr. Hutchveeregowda of Kadaba, Gubbi Taluk.*—A road from Hosakere on the Chelur-Hagalvadi road to Nittur Railway Station *via* Alalghatta and Muganaiknahalli.

Resolution.—The pukka road is some 15 miles. The proposed short cut would save some four miles. The Board are not inclined to view such proposals favorably.

7. *Messrs. Kaggerappa and Madar Sabi.*—A road to Chitnahalli from the second mile stone of the Gubbi-Hebbur road.

Resolution.—A road of doubtful utility but the proposal will be referred to the Taluk Board for opinion

General Resolution.—The Board are pressed for funds in so many directions that it is with difficulty that they are able to provide for the efficient maintenance of existing roads. If small cart-tracks of small importance are to be developed into roads just to save a few miles here and there. The Board would have to give up other works of immeasureably greater usefulness to the people. The more important cart-tracks would of course receive attention throughout the district.

IV. Read and sanctioned the accompanying list of estimates for the District Fund works noted therein.

V. Sira Amildar's report No. 135, dated 21st September 1907, received with Maddagiri Sub-Divisional Officer's yadi No. 369, dated 23rd September 1907, proposing reappropriation of the amount of Rs. 1,858 allotted to the Sira Taluk under B. Public Works in respect of certain well and other works for which estimates were submitted.

Read and sanctioned.

VI. An estimate for Rs. 434 for rebuilding a skew tunnel on Yediyur-Tiptur road.

Resolution.—Approved.

VII. Resolved that the next meeting of the Board be held on the 3rd December 1907, at 2 P.M.

1. Read and confirmed the proceedings of the meeting of the Board held on 6th June 1907.

2. Read Dasara Calendar for the current year regarding the election of District Board members to represent the Board during the ensuing Representative Assembly.

Resolved that Messrs Bhari Sannappa and Nerlahalli Sannappa be elected to represent the Board during the ensuing Dasara Representative Assembly.

3. Read list of incomplete works of last year requiring appropriation of funds for their completion during the current year.

Resolved that the same be approved and submitted to Government for sanction.

4. Read list of works sanctioned by the President of the District Board in anticipation of Board's approval as they are urgent works.

Resolved that the same be approved and submitted to Government for information.

5. Read Government Proceedings No. 9952-61—Med. 133-06-4, dated 27th April 1907, forwarding a copy of the statement showing the particulars of Hospitals and Dispensaries which stand in need of reflooring either with slabs or tiles, with their estimated cost, for consideration and submission of the Board's resolution.

Resolved that the work of reflooring the Local Fund Dispensaries at Holalkere and Davangere be taken up this year and that the cost thereof, *viz*, Rs. 605, be proportionately debited to District and Municipal Funds from the current year's budgets.

6. Read General and Revenue Secretary's docket No. 4746—L F. 252-06, dated 7th December 1906, enquiring why the District Board may not open a road to the Somalapuram Railway Station, and establish a toll-gate for its maintenance, if the goods traffic is as large as has been represented.

Resolution.—As it has been since ascertained that the cart traffic on the proposed road is not as large as it was originally represented to be, there is no necessity at present for opening a road to the Somalapuram Railway Station.

7. (*a*) Read General and Revenue Secretary's docket No. 273—L. B. 413-05, dated 10th July last, requesting to place the question of constructing a separate musafirkhana at Holalkere for the use of travellers, or of vacating the portions of the existing musafirkhana thereat, now occupied by the Amildar and the Public Works Department Sub-Division Office, before the District Board and submit a copy of their resolution.

(*b*) Read also, Chief Engineer's letter No. 5219, dated 23rd ultimo, stating with reference to the demand by the Board for the payment of the rent at Rs. 4 for the four rooms of the musafirkhana at Holalkere, occupied by the Public Works Department Sub-Division Office, that the demand is unreasonable, as the building in question was built from Provincial Funds and handed over to the Board for maintenance.

Resolution.—As the representations of the Amildar that he could not procure a suitable house at Holalkere for his residence, are true, and as there is no immediate likelihood of the Public Works Department Sub-Division Office being removed to a separate building, the Government be addressed to kindly have a new musafirkhana constructed for the use of travellers in place of the present building.

8. Read General and Revenue Secretary's No. 1127—Mun. 64-07, dated 6th instant, stating with reference to the observations of the Board as regards the moiety of the entire maintenance charges of Harihar water works to be borne from District Funds, that the charge in question is not illegitimate on District Funds, as Harihar is the head-quarters of a Deputy Amildar and as such is frequented by persons from various parts of the taluk.

Resolution.—Noted, with a request that as the town is an important place of pilgrimage and is resorted to by a large number of devotees also from outside the Province, at least half the cost debited to District Funds may be borne from the Muzrai Funds.

Deferred for the next meeting.

11. Read application from Laksh naiya, native pandit, Chitaldrug, praying for the increase of his allowance from Rs. 12 to 25 per mensem in recognition of the hard work turned out by him.

Resolved that considering the large increase in the number of patients that attend the Vaidyasala, which indicates his popularity and the efficacy of his medicines, and the insufficiency of the grant already sanctioned, the present grant-in-aid of Rs. 12 be raised to Rs. 20 and that two-thirds of the latter amount be met from District Funds.

12. Read correspondence ending with Davangere Assistant Commissioner's yadi No. 2249 dated 18th June 1907, regarding the supply of vessels to the musafirkhana at Bilchodu, Jagalur Taluk, at a total cost of Rs. 81-4-0.

Resolution.—Sanctioned.

13. Read correspondence ending with Davangere Assistant Commissioner's yadi No. 276, dated 1st August 1907, proposing that a cattle pound may be established at Sarathi village, in the Harihar Sub-Taluk tentatively for one year.

Resolution.—Sanctioned tentatively for one year as also in Kyathigere village of Hosdurga Taluk as represented at the meeting.

14. Read Challakere Taluk Amildar's No. 75, dated 4th August 1907, stating that the present musafirkhana at Challakere being unfit for further repairs, the same may be disposed of by auction, and a new one constructed near the Post Office according to the standard design.

Resolution.—The present building is totally unfit for travellers. As suggested by the Taluk Board, the building as well as the site on which it stands may be sold by public auction and a new musafirkhana of the standard design built out of the sale proceeds, supplemented, if necessary, from District Funds.

Approved.

17. Read Chitaldrug Division Executive Engineer's No. 453, dated 13th July 1907, stating that the cost of widening the bund of Hullur tank, amounting to Rs. 1,488, may be contributed from District Funds.

Resolved that the Board are not prepared to contribute any portion of the cost of this work, as no District Fund road passes over the bund of the tank referred to, nor is any new road required to pass over it.

18. Executive Engineer's No. 475, dated 24th July 1907, forwarding for approval an estimate for Rs. 3,965 for special repairs of Chitaldrug-Challakere road.

21. Read and recorded Government Proceedings No. 1198-201—Mun. 45-06-4, dated 8th August 1907, sanctioning an estimate for Rs. 907 from Local Funds General for diverting the channel below Jalankere tank in the town of Harihar and directing that the work be carried out from Public Works Department.

22. Read correspondence ending with Chitaldrug Executive Engineer's docket No. 442, dated 4th July 1907, stating the present musafirkhana building at Davangere is in a very dilapidated condition and requires not less than Rs. 200 to Rs. 300 almost every year for its repairs, and suggesting that a new building may be constructed in its place.

Resolution.—The building is very old and an expenditure of about Rs. 300 is reported to have been incurred almost every year on its repairs. The Sub-Division Officer, Mr. Chandy, proposed that the present building with the site be disposed of by public auction and a new building of a standard design constructed instead in another suitable site. The Executive Engineer has agreed with this proposal. It is expected that a sum of Rs. 3,000 or more may be realized from its sale. The cost of constructing a first class musafirkhana will come up to Rs. 4,000. Resolved that the proposal of the Sub-Division Assistant Commissioner be approved and that a new building of the type design be constructed in its place.

JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE.

CIVIL SIDE.

Rule of Practice No. 136, dated 29th November 1907.

In exercise of the powers conferred by Section 652 of the Civil Procedure Code and subject to the rules concerning the production and admissibility of evidence contained in the Evidence Act or any other law for the time being in force and with the approval of the Government of Mysore, the Chief Court is pleased to lay down the following rules in respect of expert evidence regarding finger prints in Civil cases, for the guidance of Civil Courts subordinate thereto :—

1. A fee of Rs. 5 should be paid in advance in all Civil cases in which the parties or any of them desire to apply for expert opinion from the Finger Print Bureau in the matter of deciphering finger impressions and other work of a similar character. When the opinion sought is regarding the finger impressions of more persons than one, a fee at the above rate shall be paid in respect of the impressions of each person, except that when all the persons in question are concerned in one and the same case, the full fee shall be payable for the first person and half fee for each additional person.

2. In order to prevent experts in finger prints from being unnecessarily summoned from the Bureau to give evidence in Civil Courts, exhibits should be sent, whenever possible, to the Bureau at Bangalore for the written opinion of the expert ; and summons for the attendance of the expert should be issued to the Officer in charge of the Bureau only when the Court is satisfied that such evidence is absolutely necessary for the case. In such cases, the expert fee of Rs. 5 should be paid to the Bureau and charged as costs in the case, as well as the travelling allowance, if any, of the expert.

Resolved that the Board would bear the proportionate cost debitable to it.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention.

It is therefore requested that, when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

NOTICE.

No. 1.—The *Mysore Gazette* is published at Bangalore every Thursday. Application for the supply of the Gazette on *Public Service* should be addressed to the Secretary to the Government of Mysore, General and Revenue Departments. Postage is not charged for places within the Mysore Province. All subscriptions and advertisement charges are payable *in advance.*

No. 2.—It is hereby notified that, as Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts, and other private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipts of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evening for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent, later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that, when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

MISCELLANEOUS.

NOTES OF INSPECTION OF THE ZAHIRUL ISLAM CO-OPERATIVE SOCIETY AT MOLAKALMURU IN THE CHITALDRUG DISTRICT.

Dated 9th December 1907.

Date of inspection.—The Society was inspected on the 28th and 30th November 1907.

2. *Registration.*—It was started on the 28th April 1906, by a few Mahomedans of Molakalmuru who were enthusiastic about improving the condition of the local weavers, through the persuasion of Mr. Zahiruddin Meccai, Superintendent of Police.

3. *Objects and present work.*—The Society has at present chiefly confined itself to purchasing wholesale the silk and cotton yarns required by the weaver members of the Society. In the case of two of the members, Latchappa and Narnappa, both Hindu weavers, the Society has been advancing some money also as a loan. These members were indebted heavily to the sowcars at Rayadrug. The Society admitted them as members and encouraged them to continue their work, by advancing funds to them to a small extent and also giving them raw materials for manufacture. The manufactured goods are bought in for the Society at the market rates. Out of the total value of the goods thus purchased, the Society first deducts half their value towards their debts and advances funds to the remaining extent. Their houses worth about Rs. 350 have been mortgaged to the Society for the debts.

4. *Members.*—There are seventy-five members on the roll, forty-three being Mahomedans, thirty Hindu weavers, one Brahmin, and one sweet-meet seller. The forty-three Mahomedans may be arranged as follows :—

Pure weavers	30
Weaving and Government service	2
Pandit	1
Butcher	1
Government peons	4
Merchant	1
Carpenter	1
Schoolmaster	1
Cooly	1
Cultivator	1
Total ...	43

The thirty Hindu weavers who mostly joined in the month of October last have taken up 132 shares and have paid up to the end of November Rs. 96-8-0 none having as yet paid in full for their shares.

It was found that twenty-two members had joined prior to March 1907 and that subsequently the admissions were as follows :—

In May	1
In June	6
In October	44
In November	2
Total ...	53

5 *Capital* —The capital of the Society is divided into 1,000 shares of Rs. 10 each. The present number of members have taken up 574 shares, of which 301 have been fully paid up. The total capital collected up to 30th November 1907, is Rs. 3,657-0-7 of which the entrance fees amount to Rs. 26-8-0. There is some irregularity on the part of the members in functually paying their instalments, but the rule relating to penalties for defaults of payment is not enforced just at present.

6. *Management.*—The working of the Society is managed by nine directors, of whom seven are Mahomedan weavers and one a Hindu weaver and one is a school-master.

The Revenue Sub-Division Officer and the Amildar of the taluk are the Honorary President and the Honorary Vice-President of the Society, respectively, permission for being so having been accorded by the Revenue Commissioner.

7. *Accounts and registers.* —The following registers were examined :—

Register of members.—In this register the thumb or other marks of twenty-two illiterate members have not yet been taken. Their register numbers are noted in the margin. The Agent has promised to obtain the signature at the earliest opportunity.

1, 10, 15, 16. 19. 30, 31, 33, 34, 35, 39. 40, 43, 50, 53, 54, 58, 57, 59, 62, 70 and 72.

Registers of applications for membership.—All the applications received are numbered and filed in a register. The first in order bears the number 23 and the last ends with number 75. The first twenty-two members seem to have been admitted without any formal applications, but all of them have paid a portion of their share amount, if not the whole.

Day Book.—This is the only record of all the transactions relating to the Society. Receipts and expenses of the Anjuman Society have also been included in the accounts of the Co-operative Society. The Secretary has been asked to enter these as deposits received and deposits withdrawn in the accounts of the Society. The cash on hand with the Treasurer on the 30th November was Rs. 118-15-10.

8. *Meetings.*—After the Society was started, two meetings have been held, one prior to the date of the registration of the Society and the other on the 10th November 1907.

Some of the accounts are written in Hindustani and some in Kanarese. This does not facilitate the checking of the accounts easily. From the 1st of January 1908, the Secretary has been directed to keep all the accounts in the form prescribed by the Registrar.

9. Taking the transactions of the Society from 1st March 1907 to 30th November 1907, the following is roughly the balance sheet for the period :—

Liabilities		Amount	Assets	Amount
		Rs. a. p.		Rs. a. p.
To share capital		3,630 8 7	Due from members for yarns purchased from the Society	4,476 6 11
„ Entrance fees		26 8 0	Cash on hand	118 15 10
„ Due for yarn purchased for the Society—			Cost of yarn, etc., on hand ..	306 6 6
Mastan Sahib, Channapatna	Rs. 482 1 5			
Mohadin Sab	„ 201 2 5			
Total	„ 683 3 10	683 3 10		
By profits		561 8 10		
Total ..		4,901 13 3	Total ..	4,901 13 3

10. *General remarks.*—The Society gets the silk yarn from Haider Sab and Mastan Sab at Channapatna, and money is sent to them at convenient intervals when the Society has funds. It gets the cotton yarn of 20's and 30's, which are the kinds consumed chiefly by the local weavers, from Murarjee Gokuldas and Lakshmi Cotton Company at Sholapur, money being paid in advance. Within ten days of the receipt of a consignment of yarn, the whole is distributed among the members. The time given for the members to pay the cost of silk yarn is from four to six months, and that of cotton one month. The Society has not yet framed any rule for cases of default, there being no instances of the kind hitherto.

Before the registration of the Society on 1st March 1907, the members divided certain profits among themselves about 1 per cent on the fully paid-up shares.

From the 1st March 1907 up to the 30th November 1907, the Society has purchased and sold 31 mds., 4¾ seers of silk yarn costing Rs. 5,112-7-4 and 7 bales of 20's and 30's cotton threads costing Rs. 1,498-9-6. The weavers of the place, both Hindus and Mahomedans, who are working in unison, appear to be largely appreciating the advantages of the Society in their midst. From the 1st March 1907 up to the end of November 1907, there has been a profit of about Rs. 561 to the Society. This augurs a bright future for the Society. Much credit is due to the Managing Directors and the Secretary for the efficient way in which they are managing the Society.

M. SHAMA RAO,
Registrar, Co-operative Societies in Mysore.

REVENUE DEPARTMENT.

Circular No. 6334-41, *dated* 3*rd*—17*th December* 1907.

Subject :—Land Revenue Regulation, Sections 36 and 38; Land Revenue Rule No. 19 and Government Proceedings No. R. 11166-7, dated 27th February 1906 :—

In continuation of the above, the Revenue Commissioner has the honor to point out that the Government have, with reference to the proposal in Representative Assembly Subject No. 107 of 1906 for the abolition of royalty on earth removed from the bed of tanks for making bricks and stone removed from quarries in forests, in their Proceedings No. R. 2995-6—L. R. 392-06-4, dated 14th November 1907, ordered that any further concessions in the matter are not necessary.

The Government have further ordered that, in the case of professional quarry-men, it is inexpedient to permit general licenses to be issued to them specifying merely a period of currency without indicating the particular localities to which the operation should be confined, but that there is nothing to prevent such persons from obtaining permission in the same license to work in more than one quarry by specifying in the application itself, the quarries from which the stones will be taken if it is considered that a single quarry does not afford sufficient scope for work for a whole year.

Circular No. 6307—14, *dated* 10—17*th December* 1907.

In continuation of this office Circular No. C. 101—108, dated 9th October 1907, requesting the Deputy Commissioners to impress upon the Amildars and other officers holding imprests and permanent advances that the funds should be used only for purposes authorized by the Rules, that the expenditure should be adjusted without delay and that, in default, they will render themselves liable to censure and to be called upon to make good the amount which cannot be accounted for, the undersigned has the honor to forward herewith for the information and guidance of all officers concerned, copy of Government Proceedings No. R. 3505-6—L. R. 207-07-2, dated 5th December 1907, on the same subject and to request that the Deputy Commissioners will be so good as to see that the irregularities brought to light in the Arsikere Taluk do not obtain elsewhere.

(ENCLOSURE.)

Government Proceedings No. R. 3505-6—*L. R.* 207-07-2, *dated* 5*th December* 1907.

READ—Letter No. C. 100, dated the 9th October 1907, from the Revenue Commissioner in Mysore, bringing to notice several irregularities detected by the Deputy Commissioner of the Hassan District in the imprest cash accounts of the Amildar of the Arsikere Taluk, forwarding a statement showing a sum of Rs. 597-15-4 as remaining unadjusted and also submiting for the information of Government, a copy of a fresh circular which he is issuing on the subject.

ORDER THEREON.—Recorded.

2. The irregularities brought to notice do not reflect credit on the Amildars who were in charge of the taluk and the several inspecting officers who had previously inspected the Treasuries. The explanation of the present Amildar of Arsikere that he was not aware of these discrepancies, clearly shows that he could not have exercised much control over expenditure and seen to the proper maintenance of accounts. As instances in which several irregularities in accounts are allowed to occur are frequent, the Revenue Commissioner should report the names of the several Amildars who permitted them and the extent to which each one is to blame so that Government may notice their conduct. The Revenue Commissioner should also see to the original amounts of imprests restored by recovery, if necessary, from those responsible for the irregularities and unauthorized expenditure.

Official Memorandum No. 6288, *dated* 14—17*th December* 1907.

Under Article 177 of the Mysore Service Regulations, Mr. B. M. Venkatesiah, Amildar, has been granted privilege leave of absence for fourteen days with effect from the 7th December 1907.

Circular No. 6317-24, *dated* 4—17*th December* 1907.

It is observed that most of the reports submitted to this office under Rule 8 (*h*) of the Land Revenue Rules do not contain definite information as to whether the nature and value of the securities furnished by District Treasurers, Taluk Sheristadars and Shroffs, were inspected by responsible officers of Government as required under the rule, and the statements furnished by Deputy Commissioners are not being prepared in any uniform manner.

With a view, therefore, to obtain as much information as is necessary for purposes of check and to secure some uniformity in these reports, the Revenue Commissioner directs that the following form be adopted in all future reports :—

Number	Name of official	Designation and date	Nature and amount of security required for the appointment	Value of security furnished		Name and designation of the officer who conducted the inspection under Rule 8 (*h*)	Date of inspection	Whether the security is		Remarks
				In cash, Savings Bank deposits or Government securities	In landed property			Sufficient	In a realisable form

STATEMENT OF OBJECTS AND REASONS.

*Published at page 119 of the *Mysore Gazette*, dated 4th May 1867.

The Law in force in Mysore regarding treasure-trove is contained in the Rules published under the late Chief Commissioner's Notification No. 6, dated the 17th April 1867. These rules were adopted from Regulation XI of 1832 of the Madras Code; but having been published by the late Chief Commissioner without the sanction of the Government of India, it is a question how far they can be regarded as valid. Moreover they have become unworkable in practice and unsuited to present requirements in certain respects. Hence the necessity for the present Regulation.

2. The Draft Regulation is based on the Indian Treasure-Trove Act VI of 1878) but it makes certain departures therefrom.

3. The object of the Regulation is to define the rights in treasure-trove of the finders thereof and the other parties interested. The Regulation requires intimation to be given of the finding of the treasure and secures the right of all persons who can establish an antecedent property in it. This antecedent right can be established only in cases where there is presumptive evidence that the treasure was hidden within one hundred years. If such right cannot be established, the Regulation proceeds to determine the respective rights of the finder and the owner of the soil where the treasure was found. All claims to the treasure and all disputes as to the ownership of the land are to be referred to the Civil Court. Where the treasure exceeds one lakh of rupees in amount or value, and when no person other than the finder has established his right to a share, the finder is to get one lakh, the excess going to Government. The Government has also power to retain the treasure on payment of one-fifth in excess of its intrinsic value.

4. The Draft Regulation lays down the following procedure for observance:—

(*a*) The finder shall give notice of the finding to the Deputy Commissioner.

(*b*) Notice shall be given by Deputy Commissioner to the owner or owners of land where the treasure was found.

(*c*) The discovery of the treasure shall be advertised and all claimants desired to come forward within six months.

(*d*) Claims to the treasure or to a share in it shall be enquired into.

5. The Draft Regulation differs from Act VI of 1878 in the following particulars:—

(*a*) The right of Government to the excess beyond one lakh, when no person other than the finder has established his right to a share (Section 17). This is taken from the Chief Commissioner's Rules, though there is no similar provision in the Indian Act.

(*b*) As between the owner and finder, the Indian Act allots three-fourths to the finder and one-fourth to the owner. An equal division between the two is considered more equitable and the Regulation provides for this accordingly (Section 12).

(*c*) When the Deputy Commissioner proceeds to sell the treasure under section 12, he is required to take the orders of Government as to the particulars of sale.

(*d*) Power is reserved to Government to make rules on matters incidental to treasure-trove not provided for in the Regulation.

No. J. 2754—*Legis.* 44-06-1, *dated* 8*th March* 1907.

The accompanying Draft of a Regulation further to amend the Code of Civil Procedure as in force in Mysore, together with a statement of objects and reasons therefor, is published for general information.

2. The Draft Regulation will be taken up for consideration at the end of three months from the date of its publication in the Gazette and all suggestions and criticisms received within that period will be duly considered.

By Order,

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Draft of a Regulation further to amend the Civil Procedure Code.

Whereas it is expedient further to amend the Code of Civil Procedure as in force in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Addition to Section 310A of the Civil Procedure Code.

1. To Section 310A of the said Code, the following Sub-Section shall be added between Sub-Sections (1) and (2), namely,

"(1. A.) If such deposit is made within thirty days of the sale, the Court shall pass an order setting aside the sale."

Addition to Section 584 (*d*).

2. In clause (*d*) of Section 584 of the said Code, after the words "in those cases," there shall be inserted the following words, namely,

"of which the amount or value of the subject matter is five hundred rupees or above and"

Amendment of Section 586.

3. In Section 586, for the words "fifty rupees," the words "five hundred rupees" shall be substituted.

Addition to Section 588.

4. To Section 588 of the said Code, the following clause shall be added, namely,

"(16. A.) orders under Section 310A."

STATEMENT OF OBJECTS AND REASONS.

The accompanying draft Regulation is intended, *firstly*, to rectify certain formal defects in the Code of Civil Procedure as amended by Regulation III of 1906, and *secondly*, to promote the speedier disposal of business in the Chief Court by curtailing the right of second appeal to a certain extent.

2. Section 310A as inserted by Regulation III of 1906 provides that a person owning immoveabe property or holding certain kinds of interest therein may apply to have the sale of such property set aside on making certain deposits within thirty days from the date of the sale. A Sub-Section has been added to the Section to make it clear that, where such deposit as above is made, the Court shall pass an order setting aside the sale. A clause has also been added to Section 588, so as to render orders under Section 310A appealable, a fact already implied in Sub-Section (4) of Section 310A.

3. When the Code of Civil Procedure was introduced into Mysore in 1884, clause (*d*) was added to Section 584 so as to allow to the Chief Court (then newly formed, with three Judges) a second appeal on questions of fact when the two lower Courts differed in opinion on such questions. The Chief Court have recommended that either clause (*d*) may be repealed altogether, or that the provisions in regard to second appeals on questions of fact may be limited to appeals of the value of Rs. 500 and over. Considering the fact that the decrees of the Chief Court are final in Mysore, and that there is no further appeal to a higher tribunal as in British India, the Government are of opinion that the second alternative is the preferable one. Hence the amendment proposed as regards Section 584.

4. Section 586 as amended by Regulation II of 1884, allows second appeals in all suits of a small cause nature exceeding Rs. 50 in value. The limit is Rs. 500 in British India; and there seems to be no good reason why the limit should not be similarly raised in Mysore. The Chief Court have urged the change on the ground that second appeals in petty cases have greatly blocked the progress of litigation. Section 586 is proposed to be amended accordingly.

NOTIFICATION.

No. J. 2916—*Leg.* 47 *of* 06, *dated* 20*th March* 1907.

His Highness the Maharaja considers that the time has arrived for associating with his Government in the task of legislation a certain number of official and non-official gentlemen qualified by practical experience and knowledge of local conditions and requirements to assist in the making of laws and regulations, and that it is desirable to form a Legislative Council, comprising both official and non-official elements, so as to secure to measures proposed the benefit of discussion by a number of qualified men and from different standpoints. The introduction of any such institution is not, it may be remarked, intended in any way to affect or diminish the responsibility which, in legislation as in all other matters connected with the administration of the State, rests ultimately with His Highness himself; but solely to enable His Highness and his Government to ascertain correctly the wants, wishes and feelings of the people, and to ensure that the laws enacted by him as the Ruler of the State are in all respects well adapted to serve the ends in view. The publicity under which the discussions will ordinarily be carried on, and the facility afforded for the detailed consideration of every measure in a Select Committee, which is one of the features of a regularly constituted Legislative Council, are additional reasons for anticipating much practical good from such an institution.

His Highness the Maharaja has for these reasons been pleased to enact the accompanying Regulation to establish a Council for making Laws and Regulations in Mysore.

2. Under this Regulation, which will come into force on the expiry of three months from the date of its first publication, the Legislative Council will consist of the Dewan as President, the two Councillors as *ex officio* members, and not less than ten or more than fifteen additional members to be nominated by Government and holding office for a period of two years at a time. Not less than two-fifths of such additional members will be non-officials, and provision has been made for defining the conditions under which all or any of the non-official members are to be selected prior to nomination by Government. For the present, the number of additional members has been fixed at ten, and all nominations will be in the hands of Government, the question of allowing local bodies the privilege of submitting recommendations being considered later on when sufficient experience has been gained. The names of the additional members appointed will be notified separately.

3. While it is the function of the Legislative Council itself to make such rules as it may, from time to time, find necessary to regulate the conduct of its business, it is thought convenient to set out a few rules on the subject in a schedule to the Regulation, both as an example of what such rules are intended to provide for, and as likely to be sufficient in themselves for all practical purposes in the early days of a new Council, till it feels the necessity for adding to or altering them. The right of disallowing all or any of the rules made by the Council is reserved to the Government; but will, of course, only be exercised in the rare cases in which a rule made is likely to be prejudicial to the efficient, harmonious or speedy transaction of business.

4. The business to be transacted at meetings will be confined to the "consideration and passing" of measures introduced therein. The "enactment" of every

measure rests with His Highness the Maharaja and is constituted by the act of according his assent thereto. The proviso to section 12 excludes from the consideration of the Council a class of cases which all involve imperial relations, as also any other matters which may be specially reserved by His Highness the Maharaja for consideration by the Government. In all such cases it will be competent to Government to frame the necessary Regulations by means of the power reserved by section 14, and submit the same to His Highness the Maharaja for assent.

5. Special provision is made in section 15 for the passing of measures which, while not outside the jurisdiction of the Legislative Council, are yet so emergently required that the regular course of introduction, consideration and passing thereof in the Council is likely to entail serious delay or is otherwise inexpedient. Such Regulations, however, are not intended to be operative for more than six months; their further extension beyond that period being a matter dependent on the measures being formally placed before the Council in the regular course.

By Order,
K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

SCHEDULE.

RULES FOR THE CONDUCT OF BUSINESS OF THE MYSORE LEGISLATIVE COUNCIL.

I. Definitions.

1. In these Rules—

"Bill" means a proposed enactment in any stage before it has received the assent of His Highness the Maharaja.

In the computation of "Clear days," Sundays and holidays are not included.

II. Summoning and Adjournment of Council.

2. The times and places of meetings shall be fixed by the Dewan, and the Secretary shall notify the same in the Official Gazette and to each member by letter.

3. When the business before a meeting is concluded, the President shall declare the meeting dissolved. The President may adjourn, without any discussion or vote, any meeting or business, to any future day or to any part of the same day. The Council also may, upon motion made and carried, adjourn any meeting or business.

4. A motion that any meeting or business be adjourned or that the Council pass to the business next in order in the statement of business may be moved at any time and without previous notice as a distinct question, but not so as to interrupt a speech. If the motion is carried, the Council shall adjourn the meeting or business, or the further consideration of the business then under discussion shall be dropped, as the case may be.

5. A motion of the kind referred to in the last preceding rule shall take precedence of any other motion then before the Council, and, if such motion is rejected, no similar motion shall be made until after the lapse of what the President shall deem to be a reasonable time, nor by the Member by whom the previous motion was made.

6. If, at the time appointed for holding a meeting or adjourned meeting as aforesaid, or if at any time after the commencement of business at such meeting, the quorum required by section 9 of the Regulation (that is to say, the Dewan or some one of the councillors and one-half of the whole number of members of Council), is not present, the members present shall, without proceeding to business of any kind, adjourn until again summoned by the Dewan, and the fact shall be noted by the Secretary in the journal of the Council.

III. Course of Business.

7. The Secretary shall send to every member a statement of the business to be transacted at each meeting so as to reach him at least three clear days before the date fixed for such meeting.

8. No business which is not entered in the statement of business prepared under Rule 7 shall be transacted at any meeting, unless the permission of the Dewan has been obtained previously to the meeting.

9. The President shall have power to regulate the order in which business is transacted, but, ordinarily, the succession of business shall be as described in Rule 10.

10. After the President has taken the chair—

(1) the Secretary shall report to the Council the Regulations which have received the assent of His Highness the Maharaja, under section 13 of the Regulation, and the Bills which have been disallowed since the last meeting;

(2) the Secretary shall report to the Council the petitions and other communications relating to the business of the Council which have been received by him since the last meeting, and shall, if required, read such petitions and communications to the Council;

(3) Members desirous of obtaining leave to introduce Bills, and having obtained the written sanction of the Dewan therefor, shall move that such leave be granted;

(4) the Council shall then proceed to dispose of the business left unfinished at the last meeting, if any; and this being done,

(5) the Council shall proceed to deal with the remaining business of the day.

IV. Regulation of Discussions.

11. The President shall preserve order and shall decide all points of order submitted for his decision by the members and all questions connected with the interpretation of these rules.

There shall be no discussion on any point of order and the President's decision shall be final.

12. Any member may draw the attention of the President to a violation of order and, while he is doing so, all other members shall remain silent.

13. In discussing questions coming before the Council for consideration, a member shall speak from his place and shall address the President.

14. Members may read their speeches and may also read, as part thereof, passages from books or papers bearing upon the question under discussion.

15. No member shall speak except upon business which is at the time regularly before the Council or, by special permission of the President, in explanation of what he said in a previous debate.

16. Except in discussing amendments, when the Council is settling the several clauses of a Bill, no member other than the mover shall speak more than once upon a question; but the mover shall, if he has spoken to the question when making his motion, be allowed a reply.

Provided that, if the matter before the Council be an amendment of a Bill, the member in charge of the Bill shall be entitled to speak next after the mover and seconder of the amendment.

17. A member who has spoken upon a motion may speak again upon any amendment of that motion. A member may also speak again in order to explain what he has previously said if it has been misunderstood.

18. When for the purpose of explanation or for any other reason, a member has any occasion to ask of another member a question relative to the business before the Council, he shall ask the question through the President.

19. Every matter which comes before the Council for decision shall be decided in accordance with the majority of votes after (1) motion has been made and seconded and (2) the question has been put by the President.

20. No discussion whatever shall take place after the question has been put by the President.

21. Any member may ask for any papers or information connected with the business before the Council, and the President shall determine whether such papers or information can be furnished.

If the President be not the Dewan, and the papers or information called for belong to any Department of the State other than the Legislative Department, the Dewan may veto the decision of the President.

V. MOTIONS GENERALLY.

22. Members who wish to make any motion at any meeting must give notice of their intention at the next preceding meeting or must send such notice in writing to the Secretary so as to reach him at least six clear days before the day fixed for the meeting, at which they intend to make the motion. Provided that the President may, at his discretion, permit a motion to be made of which such notice has not been given.

23. All motions of which notice is given under the preceding rule shall be entered in the statement of business prepared by the Secretary under Rule 7.

24. No motion shall be taken into consideration by the Council unless it is seconded.

25. A motion of which due notice has been given may, in the absence and at the request of the member by whom notice was given, be made by any other member; but, if not so made, or if a member announces his intention of withdrawing a motion standing in his name, the motion may be made by any other member, and, if not so made, shall not be put unless the Council otherwise orders.

26. If amendments of any motion are moved, the President, when taking the sense of the Council thereon, shall in his discretion put first to the vote either the original motion or any of the proposed amendments thereof.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistent with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

1405

VI. INTRODUCTION OF BILLS.

30. Any member who may have obtained the previous sanction of the Dewan in writing to introduce a Bill into the Council may move at a meeting of the Council for leave to introduce the same in accordance with section 12 of the Regulation; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who will forthwith cause the Bill, the statement of objects and reasons and the connected papers to be printed and communicated to each of the members, and will also cause the Bill and the statement of objects and reasons to be published in the Official Gazette in English and in Kanarese.

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council, when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the Official Gazette in English and in Kanarese, although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the members. When a Bill has been published under this rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the member in charge of the Bill may introduce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a Select Committee, and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. SELECT COMMITTEE.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The member in charge of a Bill shall always be member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

37. If the Council has fixed a period within which the Select Committee shall submit its report upon a Bill and the Committee is unable for any reason to submit its report within that period, the Dewan may, from time to time, extend the period on the application of the member in charge of the Bill.

38. The report of the Select Committee shall be signed by all the members of the Committee or a majority of them; but any member of a Select Committee may record his views in a separate minute.

39. The report of the Select Committee appointed to consider a Bill shall contain particulars of the principal amendments proposed and of the reasons for such amendments, or it may contain a recommendation that the Bill under consideration be abandoned.

40. The report of the Select Committee, any minutes that may have been recorded by individual members of the Committee, and (if the Bill has been amended) the Bill as amended by the Committee, shall be printed and copies furnished to each member of the Council. The report and minutes (if any) and (if the Bill has been amended) the Bill as amended, or such portion thereof as may have been amended, shall also, unless otherwise directed by the Select Committee, be published in the Official Gazette in English and Kanarese.

41. No business shall be transacted at any sitting of the Select Committee unless a majority of the members of the Committee including the member in charge of the Bill is present.

42. The Committee may elect their own Chairman, who shall have power to report to the Dewan the name of any member of the Select Committee who neglects or is unable to attend its sittings, and the Dewan may thereupon appoint, out of the members of the Council, an additional member to the Select Committee.

43. A Select Committee may, for the purpose of obtaining information, invite any person to be present at its sittings.

44. While a Select Committee is sitting to consider a Bill, all communications relating to the Bill which are received by the Secretary shall be referred to it.

VIII. PASSING OF BILLS.

45. When a Bill has been introduced and read in Council under Rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under Rule 33, it shall not be taken into consideration by the Council unless copies of the report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the members of the Council, at least fifteen clear days beforehand, and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such publication. Subject to these conditions, the member in charge of a Bill, when presenting the report of the Select Committee to the Council, may move either that the Bill and Report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

The discussion upon a motion under this Rule that a Bill be taken into consideration shall not extend to the principle of the Bill.

47. Any member wishing to propose an amendment affecting the substance of a Bill shall send a copy of the proposed amendment to the Secretary in accordance with Rule 22, and the Secretary shall enter the same in the statement of business prepared under Rule 7; but it shall not be necessary to give previous notice of amendments of a purely verbal character or of amendments consequential upon, or moved in respect of, amendments which have been carried.

48. Proposed amendments of Bills shall not be moved until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29 relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put into the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the members before the Council, have been considered by the Council, the member in charge of the Bill, or in his absence any other member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendments, if any, moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

IX. FINAL STAGES OF BILLS.

51. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the sections thereof and shall forward it to the Dewan for submission to His Highness the Maharaja.

52. The Dewan shall communicate His Highness' assent or dissent to the Council by certificate in writing at the foot of the Bill, and the Bill with such certificate shall be lodged in the records of the Council.

53. No member shall make any motion upon, or otherwise bring under the consideration of the Council, the exercise by His Highness of the prerogative of withholding assent to a Bill, or of according sanction to it with any alteration which His Highness may consider necessary.

54. When a Bill has received the assent of His Highness the Maharaja under section 13 of the Regulation, it shall be published in the Official Gazette in English and in Kanarese.

X. RULES RELATING TO PETITIONS.

55. Petitions to the Council must—

1. relate to some matter actually under the consideration of the Council;
2. be superscribed "to the Legislative Council;"
3. be dated and signed by the Petitioner or Petitioners;
4. be in respectful and temperate language; and
5. conclude with a distinct prayer.

56. If a petition is not in conformity with Rule 55, or if the Secretary sees reason to doubt the authenticity of any signature appended thereto, he shall certify the same on the back of the petition and report the fact to the Council. The Council may thereupon reject the petition, which shall then be returned to the petitioner or petitioners with a statement of the reason for such rejection.

57. If the petition is in conformity with Rule 55, the Secretary shall, if necessary, make an abstract of it and bring the petition under consideration by reading it or the abstract before the Council, which shall deal with the petition in such manner as it may deem proper.

XI. ADMITTANCE OF STRANGERS.

58. Persons desirous of admission into the Council Chamber during the sittings of Council shall make application to the Secretary, who will take the orders of the President thereon.

59. The President may, at any time during the sitting of the Council, direct that all strangers withdraw.

60. If a Bill which peculiarly affects private interests be under the consideration of the Council or of a Select Committee thereof and if any person whose interests are so affected apply to the Council or Select Committee for permission to be heard, either personally or by Council, on the subject of the Bill, the Council or Select Committee may, upon the motion of any member, direct that the petitioner or his counsel be heard at the meeting at which the motion is made or at and on some future specified time and day; and if the petitioner or his counsel is not present at the said meeting or does not appear at and on the said time and day, as the case may be, the permission granted by the Council or Select Committee shall be deemed to have lapsed.

61. Except as provided in Rules 43 and 60, no stranger shall be permittèd to address the Council or any Select Committee.

62. Any member may move that the hearing of any person who has been permitted under Rule 60 to address the Council or a Select Committee shall cease, if such person is irrelevant or unduly prolix, or for any other sufficient reason.

XII. DUTIES OF THE SECRETARY.

63. The Secretary shall be bound to perform the following duties in addition to those specified in the preceding Rules—

PROCEDURE ON FINDING TREASURE.

Notice by finder of treasure.

4. Whenever any treasure exceeding in amount or value ten rupees is found, the finder shall, as soon as practicable, give to the Deputy Commissioner notice in writing—

(*a*) of the nature and amount or approximate value of such treasure;

(*b*) of the place in which it was found; and

(*c*) of the date of the finding;

and either deposit the treasure in the nearest Government Treasury, or give the Deputy Commissioner such security as the Deputy Commissioner thinks fit, to produce the treasure at such time and place as he may from time to time require.

Notification requiring claimants to appear.

5. On receiving a notice under section 4, the Deputy Commissioner shall, after making such enquiry (if any) as he thinks fit, take the following steps (namely):—

(*a*) he shall publish a notification in such manner as the Government from time to time prescribe in this behalf, to the effect that, on a certain date (*mentioning it*) certain treasure (*mentioning its nature, amount and approximate value*) was found in a certain place (*mentioning it*); and requiring all persons claiming the treasure, or any part thereof to appear personally or by agent before the Deputy Commissioner on a day and at a place therein mentioned, such day not being earlier than four months, or later than six months after the date of the publication of such Notification;

(*b*) when the place in which the treasure appears to the Deputy Commissioner to have been found was at the date of the finding in the possession of some person other than the finder, the Deputy Commissioner shall also serve on such person a special notice in writing to the same effect.

Forfeiture of right on failure to appear.

6. Any person having any right to such treasure or any part thereof, as owner of the place in which it was found or otherwise, and not appearing as required by the notification issued under section 5, shall forfeit such right.

Matters to be enquired into and determined by the Deputy Commissioner.

7. On the day notified under section 5, the Deputy Commissioner shall cause the treasure to be produced before him, and shall enquire as to and determine—

(*a*) the person by whom, the place in which, and the circumstances under which, such treasure was found; and

(*b*) as far as is possible, the person by whom, and the circumstances under which, such treasure was hidden.

Time to be allowed for suit by person claiming the treasure.

8. If upon an enquiry made under section 7, the Deputy Commissioner sees reason to believe that the treasure was hidden within one hundred years before the date of the finding, by a person appearing as required by the said notification

and claiming such treasure, or by some other person under whom such person claims, the Deputy Commissioner shall make an order adjourning the hearing of the case for such period as he deems sufficient to allow of a suit being instituted in the Civil Court by the claimant to establish his right.

When treasure may be declared ownerless.

9. If, upon such enquiry the Deputy Commissioner sees no reason to believe that the treasure was so hidden; or

if, where a period is fixed under section 8, no suit is instituted as aforesaid within such period to the knowledge of the Deputy Commissioner; or

if such suit is instituted within such period, and the plaintiff's claim is finally rejected; the Deputy Commissioner may declare the treasure to be ownerless.

Appeal against such declaration.

Any person aggrieved by a declaration made under this section may appeal against the same within two months from the date thereof to the Government;

subject to such appeal, every such declaration shall be final and conclusive.

10. When a declaration has been made in respect of any treasure under section 9, such treasure shall be disposed of in accordance with the provisions hereinafter contained.

When no other person claims as owner of place, treasure to be given to finder.

11. When a declaration has been made as aforesaid in respect of any treasure and no person other than the finder of such treasure has appeared as required by the notification published under section 5, and claimed a share as owner of the place in which it has been found, the Deputy Commissioner shall, subject to the provisions of section 16, deliver such treasure to the finder thereof.

When only one such person claims, and his claim is not disputed, treasure to be divided.

12. When a declaration has been made as aforesaid in respect of any treasure, and only one person other than the finder of such treasure has so appeared and claimed, and the claim of such person is not disputed by the finder, the Deputy Commissioner shall proceed to divide the treasure between the finder and the person so claiming according to the following rule (namely):—

If the finder and the person so claiming have not entered into any agreement then in force as to the disposal of the treasure, one-half of the treasure shall be allotted to such finder and the other half to such person. If such finder and such person have entered into any such agreement, the treasure shall be disposed of in accordance therewith:

Provided that the Deputy Commissioner may in any case, if he thinks fit, instead of dividing any treasure as directed by this section—

(*a*) allot to either party the whole or more than his share of such treasure on such party paying to the Deputy Commissioner for the other party such sum of money as the Deputy Commissioner may fix as the equivalent of the share of such other party, or of the excess so allotted, as the case may be; or

(*b*) with the sanction of Government and subject to its instructions, if any, sell such treasure or any portion thereof by public auction and divide the sale proceeds between the parties according to the rule hereinbefore prescribed:

Provided also that when the Deputy Commissioner has by his declaration under section 9 rejected any claim made under this Regulation by any person other than the said finder or person claiming as owner of the place in which the treasure was found, such division shall not be made until after the expiration of two months without an appeal having been presented under section 9 by the person whose claim has been so rejected, or, when an appeal has been so presented, after such appeal has been dismissed.

When the Deputy Commissioner has made a division under this section, he shall deliver to the parties the portions of such treasure or the money in lieu thereof, to which they are respectively entitled under such division.

And shares to be delivered to parties.

13. When a declaration has been made as aforesaid in respect of any treasure, and two or more persons have appeared as aforesaid and each of them claimed as owner of the place where such treasure was found, or the right of any person who has so appeared and claimed is disputed by the finder of such treasure, the Deputy Commissioner shall retain such treasure, and shall make an order staying his proceedings with a view to the matter being enquired into and determined by a Civil Court.

In case of dispute as to ownership of place, proceedings to be stayed.

14. Any person who has so appeared and claimed may within one month from the date of such order institute a suit in the Civil Court to obtain a decree declaring his right; and in every such suit the finder of the treasure and all persons disputing such claim before the Deputy Commissioner shall be made defendants.

Settlement of such dispute.

STATEMENT OF OBJECTS AND REASONS.

*Published at page 119 of the *Mysore Gazette*, dated 4th May 1867.

The Law in force in Mysore regarding treasure-trove is contained in the Rules published under the late Chief Commissioner's Notification No. 6, dated the 17th April 1867. These rules were adopted from Regulation XI of 1832 of the Madras Code; but having been published by the late Chief Commissioner without the sanction of the Government of India, it is a question how far they can be regarded as valid. Moreover they have become unworkable in practice and unsuited to present requirements in certain respects. Hence the necessity for the present Regulation.

2. The Draft Regulation is based on the Indian Treasure-Trove Act VI of 1878) but it makes certain departures therefrom.

3. The object of the Regulation is to define the rights in treasure-trove of the finders thereof and the other parties interested. The Regulation requires intimation to be given of the finding of the treasure and secures the right of all persons who can establish an antecedent property in it. This antecedent right can be established only in cases where there is presumptive evidence that the treasure was hidden within one hundred years. If such right cannot be established, the Regulation proceeds to determine the respective rights of the finder and the owner of the soil where the treasure was found. All claims to the treasure and all disputes as to the ownership of the land are to be referred to the Civil Court. Where the treasure exceeds one lakh of rupees in amount or value, and when no person other than the finder has established his right to a share, the finder is to get one lakh, the excess going to Government. The Government has also power to retain the treasure on payment of one-fifth in excess of its intrinsic value.

4. The Draft Regulation lays down the following procedure for observance:—

(*a*) The finder shall give notice of the finding to the Deputy Commissioner.

(*b*) Notice shall be given by Deputy Commissioner to the owner or owners of land where the treasure was found.

(*c*) The discovery of the treasure shall be advertised and all claimants desired to come forward within six months.

(*d*) Claims to the treasure or to a share in it shall be enquired into.

5. The Draft Regulation differs from Act VI of 1878 in the following particulars:—

(*a*) The right of Government to the excess beyond one lakh, when no person other than the finder has established his right to a share (Section 17). This is taken from the Chief Commissioner's Rules, though there is no similar provision in the Indian Act.

(*b*) As between the owner and finder, the Indian Act allots three-fourths to the finder and one-fourth to the owner. An equal division between the two is considered more equitable and the Regulation provides for this accordingly (Section 12).

(*c*) When the Deputy Commissioner proceeds to sell the treasure under section 12, he is required to take the orders of Government as to the particulars of sale.

(*d*) Power is reserved to Government to make rules on matters incidental to treasure-trove not provided for in the Regulation.

The accompanying Draft of a Regulation further to amend the Code of Civil Procedure as in force in Mysore, together with a statement of objects and reasons therefor, is published for general information.

2. The Draft Regulation will be taken up for consideration at the end of three months from the date of its publication in the Gazette and all suggestions and criticisms received within that period will be duly considered.

By Order,

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Draft of a Regulation further to amend the Civil Procedure Code.

Whereas it is expedient further to amend the Code of Civil Procedure as in force in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Addition to Section 310A of the Civil Procedure Code.

1. To Section 310A of the said Code, the following Sub-Section shall be added between Sub-Sections (1) and (2), namely,

"(1. A.) If such deposit is made within thirty days of the sale, the Court shall pass an order setting aside the sale."

Addition to Section 584 (*d*).

2. In clause (*d*) of Section 584 of the said Code, after the words "in those cases," there shall be inserted the following words, namely,

"of which the amount or value of the subject matter is five hundred rupees or above and"

Amendment of Section 586.

3. In Section 586, for the words "fifty rupees," the words "five hundred rupees" shall be substituted.

Addition to Section 588.

4. To Section 588 of the said Code, the following clause shall be added, namely,

"(16. A.) orders under Section 310A."

STATEMENT OF OBJECTS AND REASONS.

The accompanying draft Regulation is intended, *firstly*, to rectify certain formal defects in the Code of Civil Procedure as amended by Regulation III of 1906, and *secondly*, to promote the speedier disposal of business in the Chief Court by curtailing the right of second appeal to a certain extent.

2. Section 310A as inserted by Regulation III of 1906 provides that a person owning immoveabe property or holding certain kinds of interest therein may apply to have the sale of such property set aside on making certain deposits within thirty days from the date of the sale. A Sub-Section has been added to the Section to make it clear that, where such deposit as above is made, the Court shall pass an order setting aside the sale. A clause has also been added to Section 588, so as to render orders under Section 310A appealable, a fact already implied in Sub-Section (4) of Section 310A.

3. When the Code of Civil Procedure was introduced into Mysore in 1884, clause (*d*) was added to Section 584 so as to allow to the Chief Court (then newly formed, with three Judges) a second appeal on questions of fact when the two lower Courts differed in opinion on such questions. The Chief Court have recommended that either clause (*d*) may be repealed altogether, or that the provisions in regard to second appeals on questions of fact may be limited to appeals of the value of Rs. 500 and over. Considering the fact that the decrees of the Chief Court are final in Mysore, and that there is no further appeal to a higher tribunal as in British India, the Government are of opinion that the second alternative is the preferable one. Hence the amendment proposed as regards Section 584.

4. Section 586 as amended by Regulation II of 1884, allows second appeals in all suits of a small cause nature exceeding Rs. 50 in value. The limit is Rs. 500 in British India; and there seems to be no good reason why the limit should not be similarly raised in Mysore. The Chief Court have urged the change on the ground that second appeals in petty cases have greatly blocked the progress of litigation. Section 586 is proposed to be amended accordingly.

NOTIFICATION.

No. J. 2916—*Leg.* 47 *of* 06, *dated* 20*th March* 1907.

His Highness the Maharaja considers that the time has arrived for associating with his Government in the task of legislation a certain number of official and non-official gentlemen qualified by practical experience and knowledge of local conditions and requirements to assist in the making of laws and regulations, and that it is desirable to form a Legislative Council, comprising both official and non-official elements, so as to secure to measures proposed the benefit of discussion by a number of qualified men and from different standpoints. The introduction of any such institution is not, it may be remarked, intended in any way to affect or diminish the responsibility which, in legislation as in all other matters connected with the administration of the State, rests ultimately with His Highness himself; but solely to enable His Highness and his Government to ascertain correctly the wants, wishes and feelings of the people, and to ensure that the laws enacted by him as the Ruler of the State are in all respects well adapted to serve the ends in view. The publicity under which the discussions will ordinarily be carried on, and the facility afforded for the detailed consideration of every measure in a Select Committee, which is one of the features of a regularly constituted Legislative Council, are additional reasons for anticipating much practical good from such an institution.

His Highness the Maharaja has for these reasons been pleased to enact the accompanying Regulation to establish a Council for making Laws and Regulations in Mysore.

2. Under this Regulation, which will come into force on the expiry of three months from the date of its first publication, the Legislative Council will consist of the Dewan as President, the two Councillors as *ex officio* members, and not less than ten or more than fifteen additional members to be nominated by Government and holding office for a period of two years at a time. Not less than two-fifths of such additional members will be non-officials, and provision has been made for defining the conditions under which all or any of the non-official members are to be selected prior to nomination by Government. For the present, the number of additional members has been fixed at ten, and all nominations will be in the hands of Government, the question of allowing local bodies the privilege of submitting recommendations being considered later on when sufficient experience has been gained. The names of the additional members appointed will be notified separately.

3. While it is the function of the Legislative Council itself to make such rules as it may, from time to time, find necessary to regulate the conduct of its business, it is thought convenient to set out a few rules on the subject in a schedule to the Regulation, both as an example of what such rules are intended to provide for, and as likely to be sufficient in themselves for all practical purposes in the early days of a new Council, till it feels the necessity for adding to or altering them. The right of disallowing all or any of the rules made by the Council is reserved to the Government; but will, of course, only be exercised in the rare cases in which a rule made is likely to be prejudicial to the efficient, harmonious or speedy transaction of business.

4. The business to be transacted at meetings will be confined to the "consideration and passing" of measures introduced therein. The "enactment" of every

measure rests with His Highness the Maharaja and is constituted by the act of according his assent thereto. The proviso to section 12 excludes from the consideration of the Council a class of cases which all involve imperial relations, as also any other matters which may be specially reserved by His Highness the Maharaja for consideration by the Government. In all such cases it will be competent to Government to frame the necessary Regulations by means of the power reserved by section 14, and submit the same to His Highness the Maharaja for assent.

5. Special provision is made in section 15 for the passing of measures which, while not outside the jurisdiction of the Legislative Council, are yet so emergently required that the regular course of introduction, consideration and passing thereof in the Council is likely to entail serious delay or is otherwise inexpedient. Such Regulations, however, are not intended to be operative for more than six months; their further extension beyond that period being a matter dependent on the measures being formally placed before the Council in the regular course.

By Order,

K. S. CHANDRASEKHARA AIYAR,

Secy. to Govt., Gen. & Rev. Depts.

Provided that, if the matter before the Council be an amendment of a Bill, the member in charge of the Bill shall be entitled to speak next after the mover and seconder of the amendment.

17. A member who has spoken upon a motion may speak again upon any amendment of that motion. A member may also speak again in order to explain what he has previously said if it has been misunderstood.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistent with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

1423

VI. INTRODUCTION OF BILLS.

30. Any member who may have obtained the previous sanction of the Dewan in writing to introduce a Bill into the Council may move at a meeting of the Council for leave to introduce the same in accordance with section 12 of the Regulation; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who will forthwith cause the Bill, the statement of objects and reasons and the connected papers to be printed and communicated to each of the members, and will also cause the Bill and the statement of objects and reasons to be published in the Official Gazette in English and in Kanarese.

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council, when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the Official Gazette in English and in Kanarese, although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the members. When a Bill has been published under this rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the member in charge of the Bill may introduce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a Select Committee, and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. SELECT COMMITTEE.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The member in charge of a Bill shall always be member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

37. If the Council has fixed a period within which the Select Committee shall submit its report upon a Bill and the Committee is unable for any reason to submit its report within that period, the Dewan may, from time to time, extend the period on the application of the member in charge of the Bill.

38. The report of the Select Committee shall be signed by all the members of the Committee or a majority of them; but any member of a Select Committee may record his views in a separate minute.

39. The report of the Select Committee appointed to consider a Bill shall contain particulars of the principal amendments proposed and of the reasons for such amendments, or it may contain a recommendation that the Bill under consideration be abandoned.

40. The report of the Select Committee, any minutes that may have been recorded by individual members of the Committee, and (if the Bill has been amended) the Bill as amended by the Committee, shall be printed and copies furnished to each member of the Council. The report and minutes (if any) and (if the Bill has been amended) the Bill as amended, or such portion thereof as may have been amended, shall also, unless otherwise directed by the Select Committee, be published in the Official Gazette in English and Kanarese.

41. No business shall be transacted at any sitting of the Select Committee unless a majority of the members of the Committee including the member in charge of the Bill is present.

42. The Committee may elect their own Chairman, who shall have power to report to the Dewan the name of any member of the Select Committee who neglects or is unable to attend its sittings, and the Dewan may thereupon appoint, out of the members of the Council, an additional member to the Select Committee.

43. A Select Committee may, for the purpose of obtaining information, invite any person to be present at its sittings.

44. While a Select Committee is sitting to consider a Bill, all communications relating to the Bill which are received by the Secretary shall be referred to it.

VIII. Passing of Bills.

45. When a Bill has been introduced and read in Council under Rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under Rule 33, it shall not be taken into consideration by the Council unless copies of the report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the members of the Council, at least fifteen clear days beforehand, and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such publication. Subject to these conditions, the member in charge of a Bill, when presenting the report of the Select Committee to the Council, may move either that the Bill and Report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

The discussion upon a motion under this Rule that a Bill be taken into consideration shall not extend to the principle of the Bill.

47. Any member wishing to propose an amendment affecting the substance of a Bill shall send a copy of the proposed amendment to the Secretary in accordance with Rule 22, and the Secretary shall enter the same in the statement of business prepared under Rule 7; but it shall not be necessary to give previous notice of amendments of a purely verbal character or of amendments consequential upon, or moved in respect of, amendments which have been carried.

48. Proposed amendments of Bills shall not be moved until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29 relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put into the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the members before the Council, have been considered by the Council, the member in charge of the Bill, or in his absence any other member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendments, if any, moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

IX. Final Stages of Bills.

51. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the sections thereof and shall forward it to the Dewan for submission to His Highness the Maharaja.

52. The Dewan shall communicate His Highness' assent or dissent to the Council by certificate in writing at the foot of the Bill, and the Bill with such certificate shall be lodged in the records of the Council.

53. No member shall make any motion upon, or otherwise bring under the consideration of the Council, the exercise by His Highness of the prerogative of withholding assent to a Bill, or of according sanction to it with any alteration which His Highness may consider necessary.

54. When a Bill has received the assent of His Highness the Maharaja under section 13 of the Regulation, it shall be published in the Official Gazette in English and in Kanarese.

1425

X. Rules relating to Petitions.

2. be superscribed "to the Legislative Council;"
3. be dated and signed by the Petitioner or Petitioners;
4. be in respectful and temperate language; and
5. conclude with a distinct prayer.

56. If a petition is not in conformity with Rule 55, or if the Secretary sees reason to doubt the authenticity of any signature appended thereto, he shall certify the same on the back of the petition and report the fact to the Council. The Council may thereupon reject the petition, which shall then be returned to the petitioner or petitioners with a statement of the reason for such rejection.

57. If the petition is in conformity with Rule 55, the Secretary shall, if necessary, make an abstract of it and bring the petition under consideration by reading it or the abstract before the Council, which shall deal with the petition in such manner as it may deem proper.

XI. Admittance of Strangers.

58. Persons desirous of admission into the Council Chamber during the sittings of Council shall make application to the Secretary, who will take the orders of the President thereon.

59. The President may, at any time during the sitting of the Council, direct that all strangers withdraw.

60. If a Bill which peculiarly affects private interests be under the consideration of the Council or of a Select Committee thereof and if any person whose interests are so affected apply to the Council or Select Committee for permission to be heard, either personally or by Council, on the subject of the Bill, the Council or Select Committee may, upon the motion of any member, direct that the petitioner or his counsel be heard at the meeting at which the motion is made or at and on some future specified time and day; and if the petitioner or his counsel is not present at the said meeting or does not appear at and on the said time and day, as the case may be, the permission granted by the Council or Select Committee shall be deemed to have lapsed.

61. Except as provided in Rules 43 and 60, no stranger shall be permitted to address the Council or any Select Committee.

62. Any member may move that the hearing of any person who has been permitted under Rule 60 to address the Council or a Select Committee shall cease, if such person is irrelevant or unduly prolix, or for any other sufficient reason.

STATEMENT OF OBJECTS AND REASONS.

*Published at page 119 of the *Mysore Gazette*, dated 4th May 1867.

The Law in force in Mysore regarding treasure-trove is contained in the Rules published under the late Chief Commissioner's Notification No. 6, dated the 17th April 1867. These rules were adopted from Regulation XI of 1832 of the Madras Code; but having been published by the late Chief Commissioner without the sanction of the Government of India, it is a question how far they can be regarded as valid. Moreover they have become unworkable in practice and unsuited to present requirements in certain respects. Hence the necessity for the present Regulation.

2. The Draft Regulation is based on the Indian Treasure-Trove Act VI of 1878) but it makes certain departures therefrom.

3. The object of the Regulation is to define the rights in treasure-trove of the finders thereof and the other parties interested. The Regulation requires intimation to be given of the finding of the treasure and secures the right of all persons who can establish an antecedent property in it. This antecedent right can be established only in cases where there is presumptive evidence that the treasure was hidden within one hundred years. If such right cannot be established, the Regulation proceeds to determine the respective rights of the finder and the owner of the soil where the treasure was found. All claims to the treasure and all disputes as to the ownership of the land are to be referred to the Civil Court. Where the treasure exceeds one lakh of rupees in amount or value, and when no person other than the finder has established his right to a share, the finder is to get one lakh, the excess going to Government. The Government has also power to retain the treasure on payment of one-fifth in excess of its intrinsic value.

4. The Draft Regulation lays down the following procedure for observance:—

(*a*) The finder shall give notice of the finding to the Deputy Commissioner.

(*b*) Notice shall be given by Deputy Commissioner to the owner or owners of land where the treasure was found.

(*c*) The discovery of the treasure shall be advertised and all claimants desired to come forward within six months.

(*d*) Claims to the treasure or to a share in it shall be enquired into.

5. The Draft Regulation differs from Act VI of 1878 in the following particulars:—

(*a*) The right of Government to the excess beyond one lakh, when no person other than the finder has established his right to a share (Section 17). This is taken from the Chief Commissioner's Rules, though there is no similar provision in the Indian Act.

(*b*) As between the owner and finder, the Indian Act allots three-fourths to the finder and one-fourth to the owner. An equal division between the two is considered more equitable and the Regulation provides for this accordingly (Section 12).

(*c*) When the Deputy Commissioner proceeds to sell the treasure under section 12, he is required to take the orders of Government as to the particulars of sale.

(*d*) Power is reserved to Government to make rules on matters incidental to treasure-trove not provided for in the Regulation.

The accompanying Draft of a Regulation further to amend the Code of Civil Procedure as in force in Mysore, together with a statement of objects and reasons therefor, is published for general information.

2. The Draft Regulation will be taken up for consideration at the end of three months from the date of its publication in the Gazette and all suggestions and criticisms received within that period will be duly considered.

By Order,

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Draft of a Regulation further to amend the Civil Procedure Code.

Whereas it is expedient further to amend the Code of Civil Procedure as in force in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Addition to Section 310A of the Civil Procedure Code.

1. To Section 310A of the said Code, the following Sub-Section shall be added between Sub-Sections (1) and (2), namely,

"(1. A.) If such deposit is made within thirty days of the sale, the Court shall pass an order setting aside the sale."

Addition to Section 584 (*d*).

2. In clause (*d*) of Section 584 of the said Code, after the words "in those cases," there shall be inserted the following words, namely,

"of which the amount or value of the subject matter is five hundred rupees or above and"

Amendment of Section 586.

3. In Section 586, for the words "fifty rupees," the words "five hundred rupees" shall be substituted.

Addition to Section 588.

4. To Section 588 of the said Code, the following clause shall be added, namely,

"(16. A.) orders under Section 310A."

STATEMENT OF OBJECTS AND REASONS.

The accompanying draft Regulation is intended, *firstly*, to rectify certain formal defects in the Code of Civil Procedure as amended by Regulation III of 1906, and *secondly*, to promote the speedier disposal of business in the Chief Court by curtailing the right of second appeal to a certain extent.

2. Section 310A as inserted by Regulation III of 1906 provides that a person owning immoveabe property or holding certain kinds of interest therein may apply to have the sale of such property set aside on making certain deposits within thirty days from the date of the sale. A Sub-Section has been added to the Section to make it clear that, where such deposit as above is made, the Court shall pass an order setting aside the sale. A clause has also been added to Section 588, so as to render orders under Section 310A appealable, a fact already implied in Sub-Section (4) of Section 310A.

3. When the Code of Civil Procedure was introduced into Mysore in 1884, clause (*d*) was added to Section 584 so as to allow to the Chief Court (then newly formed, with three Judges) a second appeal on questions of fact when the two lower Courts differed in opinion on such questions. The Chief Court have recommended that either clause (*d*) may be repealed altogether, or that the provisions in regard to second appeals on questions of fact may be limited to appeals of the value of Rs. 500 and over. Considering the fact that the decrees of the Chief Court are final in Mysore, and that there is no further appeal to a higher tribunal as in British India, the Government are of opinion that the second alternative is the preferable one. Hence the amendment proposed as regards Section 584.

4. Section 586 as amended by Regulation II of 1884, allows second appeals in all suits of a small cause nature exceeding Rs. 50 in value. The limit is Rs. 500 in British India; and there seems to be no good reason why the limit should not be similarly raised in Mysore. The Chief Court have urged the change on the ground that second appeals in petty cases have greatly blocked the progress of litigation. Section 586 is proposed to be amended accordingly.

NOTIFICATION.

No. J. 2916—*Leg.* 47 *of* 06, *dated* 20*th March* 1907.

His Highness the Maharaja considers that the time has arrived for associating with his Government in the task of legislation a certain number of official and non-official gentlemen qualified by practical experience and knowledge of local conditions and requirements to assist in the making of laws and regulations, and that it is desirable to form a Legislative Council, comprising both official and non-official elements, so as to secure to measures proposed the benefit of discussion by a number of qualified men and from different standpoints. The introduction of any such institution is not, it may be remarked, intended in any way to affect or diminish the responsibility which, in legislation as in all other matters connected with the administration of the State, rests ultimately with His Highness himself; but solely to enable His Highness and his Government to ascertain correctly the wants, wishes and feelings of the people, and to ensure that the laws enacted by him as the Ruler of the State are in all respects well adapted to serve the ends in view. The publicity under which the discussions will ordinarily be carried on, and the facility afforded for the detailed consideration of every measure in a Select Committee, which is one of the features of a regularly constituted Legislative Council, are additional reasons for anticipating much practical good from such an institution.

His Highness the Maharaja has for these reasons been pleased to enact the accompanying Regulation to establish a Council for making Laws and Regulations in Mysore.

2. Under this Regulation, which will come into force on the expiry of three months from the date of its first publication, the Legislative Council will consist of the Dewan as President, the two Councillors as *ex officio* members, and not less than ten or more than fifteen additional members to be nominated by Government and holding office for a period of two years at a time. Not less than two-fifths of such additional members will be non-officials, and provision has been made for defining the conditions under which all or any of the non-official members are to be selected prior to nomination by Government. For the present, the number of additional members has been fixed at ten, and all nominations will be in the hands of Government, the question of allowing local bodies the privilege of submitting recommendations being considered later on when sufficient experience has been gained. The names of the additional members appointed will be notified separately.

3. While it is the function of the Legislative Council itself to make such rules as it may, from time to time, find necessary to regulate the conduct of its business, it is thought convenient to set out a few rules on the subject in a schedule to the Regulation, both as an example of what such rules are intended to provide for, and as likely to be sufficient in themselves for all practical purposes in the early days of a new Council, till it feels the necessity for adding to or altering them. The right of disallowing all or any of the rules made by the Council is reserved to the Government; but will, of course, only be exercised in the rare cases in which a rule made is likely to be prejudicial to the efficient, harmonious or speedy transaction of business.

4. The business to be transacted at meetings will be confined to the "consideration and passing" of measures introduced therein. The "enactment" of every

measure rests with His Highness the Maharaja and is constituted by the act of according his assent thereto. The proviso to section 12 excludes from the consideration of the Council a class of cases which all involve imperial relations, as also any other matters which may be specially reserved by His Highness the Maharaja for consideration by the Government. In all such cases it will be competent to Government to frame the necessary Regulations by means of the power reserved by section 14, and submit the same to His Highness the Maharaja for assent.

5. Special provision is made in section 15 for the passing of measures which, while not outside the jurisdiction of the Legislative Council, are yet so emergently required that the regular course of introduction, consideration and passing thereof in the Council is likely to entail serious delay or is otherwise inexpedient. Such Regulations, however, are not intended to be operative for more than six months; their further extension beyond that period being a matter dependent on the measures being formally placed before the Council in the regular course.

By Order,

K. S. CHANDRASEKHARA AIYAR,

Secy. to Govt., Gen. & Rev. Depts.

SCHEDULE.

RULES FOR THE CONDUCT OF BUSINESS OF THE MYSORE LEGISLATIVE COUNCIL.

I. DEFINITIONS.

1. In these Rules—

"Bill" means a proposed enactment in any stage before it has received the assent of His Highness the Maharaja.

In the computation of "Clear days," Sundays and holidays are not included.

II. SUMMONING AND ADJOURNMENT OF COUNCIL.

2. The times and places of meetings shall be fixed by the Dewan, and the Secretary shall notify the same in the Official Gazette and to each member by letter.

3. When the business before a meeting is concluded, the President shall declare the meeting dissolved. The President may adjourn, without any discussion or vote, any meeting or business, to any future day or to any part of the same day. The Council also may, upon motion made and carried, adjourn any meeting or business.

4. A motion that any meeting or business be adjourned or that the Council pass to the business next in order in the statement of business may be moved at any time and without previous notice as a distinct question, but not so as to interrupt a speech. If the motion is carried, the Council shall adjourn the meeting or business, or the further consideration of the business then under discussion shall be dropped, as the case may be.

5. A motion of the kind referred to in the last preceding rule shall take precedence of any other motion then before the Council, and, if such motion is rejected, no similar motion shall be made until after the lapse of what the President shall deem to be a reasonable time, nor by the Member by whom the previous motion was made.

6. If, at the time appointed for holding a meeting or adjourned meeting as aforesaid, or if at any time after the commencement of business at such meeting, the quorum required by section 9 of the Regulation (that is to say, the Dewan or some one of the councillors and one-half of the whole number of members of Council), is not present, the members present shall, without proceeding to business of any kind, adjourn until again summoned by the Dewan, and the fact shall be noted by the Secretary in the journal of the Council.

III. COURSE OF BUSINESS.

7. The Secretary shall send to every member a statement of the business to be transacted at each meeting so as to reach him at least three clear days before the date fixed for such meeting.

8. No business which is not entered in the statement of business prepared under Rule 7 shall be transacted at any meeting, unless the permission of the Dewan has been obtained previously to the meeting.

9. The President shall have power to regulate the order in which business is transacted, but, ordinarily, the succession of business shall be as described in Rule 10.

10. After the President has taken the chair—

(1) the Secretary shall report to the Council the Regulations which have received the assent of His Highness the Maharaja, under section 13 of the Regulation, and the Bills which have been disallowed since the last meeting;

(2) the Secretary shall report to the Council the petitions and other communications relating to the business of the Council which have been received by him since the last meeting, and shall, if required, read such petitions and communications to the Council;

(3) Members desirous of obtaining leave to introduce Bills, and having obtained the written sanction of the Dewan therefor, shall move that such leave be granted;

(4) the Council shall then proceed to dispose of the business left unfinished at the last meeting, if any; and this being done,

(5) the Council shall proceed to deal with the remaining business of the day.

IV. REGULATION OF DISCUSSIONS.

11. The President shall preserve order and shall decide all points of order submitted for his decision by the members and all questions connected with the interpretation of these rule.

There shall be no discussion on any point of order and the President's decision shall be final.

12. Any member may draw the attention of the President to a violation of order and, while he is doing so, all other members shall remain silent.

13. In discussing questions coming before the Council for consideration, a member shall speak from his place and shall address the President.

14. Members may read their speeches and may also read, as part thereof, passages from books or papers bearing upon the question under discussion.

15. No member shall speak except upon business which is at the time regularly before the Council or, by special permission of the President, in explanation of what he said in a previous debate.

16. Except in discussing amendments, when the Council is settling the several clauses of a Bill, no member other than the mover shall speak more than once upon a question; but the mover shall, if he has spoken to the question when making his motion, be allowed a reply.

Provided that, if the matter before the Council be an amendment of a Bill, the member in charge of the Bill shall be entitled to speak next after the mover and seconder of the amendment.

17. A member who has spoken upon a motion may speak again upon any amendment of that motion. A member may also speak again in order to explain what he has previously said if it has been misunderstood.

18. When for the purpose of explanation or for any other reason, a member has any occasion to ask of another member a question relative to the business before the Council, he shall ask the question through the President.

19. Every matter which comes before the Council for decision shall be decided in accordance with the majority of votes after (1) motion has been made and seconded and (2) the question has been put by the President.

20. No discussion whatever shall take place after the question has been put by the President.

21. Any member may ask for any papers or information connected with the business before the Council, and the President shall determine whether such papers or information can be furnished.

If the President be not the Dewan, and the papers or information called for belong to any Department of the State other than the Legislative Department, the Dewan may veto the decision of the President.

V. MOTIONS GENERALLY.

22. Members who wish to make any motion at any meeting must give notice of their intention at the next preceding meeting or must send such notice in writing to the Secretary so as to reach him at least six clear days before the day fixed for the meeting, at which they intend to make the motion. Provided that the President may, at his discretion, permit a motion to be made of which such notice has not been given.

23. All motions of which notice is given under the preceding rule shall be entered in the statement of business prepared by the Secretary under Rule 7.

24. No motion shall be taken into consideration by the Council unless it is seconded.

25. A motion of which due notice has been given may, in the absence and at the request of the member by whom notice was given, be made by any other member; but, if not so made, or if a member announces his intention of withdrawing a motion standing in his name, the motion may be made by any other member, and, if not so made, shall not be put unless the Council otherwise orders.

26. If amendments of any motion are moved, the President, when taking the sense of the Council thereon, shall in his discretion put first to the vote either the original motion or any of the proposed amendments thereof.

27. A purely verbal amendment of a motion may be moved at any time during the discussion upon the motion and without previous notice, but no amendment which is substantially the negative of a motion shall be taken into consideration by the Council.

28. A motion shall not be taken into consideration by the Council if it substantially raises a question already disposed of at the meeting or is inconsistent with any resolution already passed thereat.

29. If any motion, as made, involves several points, the President may, at his discretion, divide it, so that each point may be determined separately.

VI. INTRODUCTION OF BILLS.

30. Any member who may have obtained the previous sanction of the Dewan in writing to introduce a Bill into the Council may move at a meeting of the Council for leave to introduce the same in accordance with section 12 of the Regulation; provided that at least six clear days' previous notice of the title and subject of the Bill has been given to the Secretary.

31. If the motion for leave to introduce a Bill be carried, the mover shall send the Bill, together with a full statement of the objects of and reasons for the proposed measure and any connected papers, to the Secretary, who will forthwith cause the Bill, the statement of objects and reasons and the connected papers to be printed and communicated to each of the members, and will also cause the Bill and the statement of objects and reasons to be published in the Official Gazette in English and in Kanarese.

Provided that the publication may be deferred under the orders of the Dewan until the next meeting of the Council, when the publication of such Bill shall be considered.

32. The Dewan may, at his discretion, direct the Secretary to publish any Bill together with a statement of the objects of and reasons for it, in the Official Gazette in English and in Kanarese, although leave to introduce the Bill has not been applied for under Rule 30; and the Secretary shall publish it accordingly and shall send a copy of the Bill and of the statement of the objects and reasons to each of the members. When a Bill has been published under this rule, it shall not be necessary to move under Rule 30 for leave to introduce it.

33. At any time after leave to introduce a Bill has been granted under Rule 31 or after publication has been ordered under Rule 32, the member in charge of the Bill may introduce it after giving six clear days' notice to the Secretary; provided that no Bill shall be introduced until fifteen clear days from the date of its publication.

When introducing a Bill, the member in charge of it shall move that the Bill be read in Council. The principle of the Bill and its general provisions may then be discussed, and, if the motion be carried, the Council shall then consider the question of referring the Bill to a Select Committee, and, if the question be decided in the affirmative, the Council shall appoint the Committee and may further direct that its report shall be submitted within a special period.

34. At any time during the progress of a Bill the member in charge of it may move for permission to withdraw it, and, if such permission is granted, the Bill shall be withdrawn accordingly. The member in charge of a Bill which has been published under Rule 32, but which has not been introduced and read in Council, may withdraw the same without further formality than a mere announcement of the withdrawal to the Council.

VII. SELECT COMMITTEE.

35. Select Committees may be appointed by the Council for any purpose connected with the business of the Council and may sit and submit their reports although the Council is adjourned. The member in charge of a Bill shall always be member of the Select Committee appointed to consider the Bill.

36. When a Bill has been referred to a Select Committee for consideration, it shall be the duty of the Committee to discuss each clause of the Bill and to recommend to the Council such amendments as seem to it to be advisable.

37. If the Council has fixed a period within which the Select Committee shall submit its report upon a Bill and the Committee is unable for any reason to submit its report within that period, the Dewan may, from time to time, extend the period on the application of the member in charge of the Bill.

38. The report of the Select Committee shall be signed by all the members of the Committee or a majority of them; but any member of a Select Committee may record his views in a separate minute.

39. The report of the Select Committee appointed to consider a Bill shall contain particulars of the principal amendments proposed and of the reasons for such amendments, or it may contain a recommendation that the Bill under consideration be abandoned.

40. The report of the Select Committee, any minutes that may have been recorded by individual members of the Committee, and (if the Bill has been amended) the Bill as amended by the Committee, shall be printed and copies furnished to each member of the Council. The report and minutes (if any) and (if the Bill has been amended) the Bill as amended, or such portion thereof as may have been amended, shall also, unless otherwise directed by the Select Committee, be published in the Official Gazette in English and Kanarese.

41. No business shall be transacted at any sitting of the Select Committee unless a majority of the members of the Committee including the member in charge of the Bill is present.

42. The Committee may elect their own Chairman, who shall have power to report to the Dewan the name of any member of the Select Committee who neglects or is unable to attend its sittings, and the Dewan may thereupon appoint, out of the members of the Council, an additional member to the Select Committee.

43. A Select Committee may, for the purpose of obtaining information, invite any person to be present at its sittings.

44. While a Select Committee is sitting to consider a Bill, all communications relating to the Bill which are received by the Secretary shall be referred to it.

VIII. Passing of Bills.

45. When a Bill has been introduced and read in Council under Rule 33 and the Council has decided that it is not necessary to refer it for consideration to a Select Committee, the Council shall not proceed to take the Bill into consideration until the expiration of fifteen clear days from the date on which Bill was read under Rule 33.

In this case it shall not be necessary to make, on the day on which the Bill comes on for consideration, a formal motion that the Bill be taken into consideration.

46. When a Bill has been referred to a Select Committee under Rule 33, it shall not be taken into consideration by the Council unless copies of the report of the Select Committee and (if the Bill has been amended) of the Bill as amended shall have been sent to each of the members of the Council, at least fifteen clear days beforehand, and, in cases in which the Select Committee has not dispensed with the publication referred to in Rule 40, until the expiration of twenty-one clear days from the date of such publication. Subject to these conditions, the member in charge of a Bill, when presenting the report of the Select Committee to the Council, may move either that the Bill and Report be taken into consideration at once or that the consideration of them be postponed to a subsequent meeting.

The discussion upon a motion under this Rule that a Bill be taken into consideration shall not extend to the principle of the Bill.

47. Any member wishing to propose an amendment affecting the substance of a Bill shall send a copy of the proposed amendment to the Secretary in accordance with Rule 22, and the Secretary shall enter the same in the statement of business prepared under Rule 7; but it shall not be necessary to give previous notice of amendments of a purely verbal character or of amendments consequential upon, or moved in respect of, amendments which have been carried.

48. Proposed amendments of Bills shall not be moved until the Bill is actually taken into consideration and, when moved, they shall be considered in the order of the sections to which they relate.

Proposed amendments of Bills shall be governed by Rules 24, 25, 26, 28 and 29 relating to motions.

49. The President may declare that a proposed amendment of a Bill shall not be discussed or put into the vote on the ground that it is irrelevant or incomplete or that an amendment identical in substance with it has been previously disposed of by the Council in considering the same Bill.

50. When the amendments proposed by the Select Committee (if the Bill has been referred to a Select Committee), and such other amendments as may be proposed by any of the members before the Council, have been considered by the Council, the member in charge of the Bill, or in his absence any other member, may move that the Bill as amended be taken up and passed at a subsequent meeting.

At such meeting the Council shall consider the amendments, if any, moved on behalf of Government, and pass the Bill. No amendments other than those connected with the amendments moved on behalf of Government shall, without the special permission of the Dewan, be brought up for consideration at this stage.

IX. Final Stages of Bills.

51. When a Bill has been passed by the Council, the Secretary shall revise and complete the marginal abstracts and the numbering of the sections thereof and shall forward it to the Dewan for submission to His Highness the Maharaja.

52. The Dewan shall communicate His Highness' assent or dissent to the Council by certificate in writing at the foot of the Bill, and the Bill with such certificate shall be lodged in the records of the Council.

53. No member shall make any motion upon, or otherwise bring under the consideration of the Council, the exercise by His Highness of the prerogative of withholding assent to a Bill, or of according sanction to it with any alteration which His Highness may consider necessary.

54. When a Bill has received the assent of His Highness the Maharaja under section 13 of the Regulation, it shall be published in the Official Gazette in English and in Kanarese.

1443

X. RULES RELATING TO PETITIONS.

55. Petitions to the Council must—

1. relate to some matter actually under the consideration of the Council;
2. be superscribed "to the Legislative Council;"
3. be dated and signed by the Petitioner or Petitioners;
4. be in respectful and temperate language; and
5. conclude with a distinct prayer.

56. If a petition is not in conformity with Rule 55, or if the Secretary sees reason to doubt the authenticity of any signature appended thereto, he shall certify the same on the back of the petition and report the fact to the Council. The Council may thereupon reject the petition, which shall then be returned to the petitioner or petitioners with a statement of the reason for such rejection.

57. If the petition is in conformity with Rule 55, the Secretary shall, if necessary, make an abstract of it and bring the petition under consideration by reading it or the abstract before the Council, which shall deal with the petition in such manner as it may deem proper.

XI. ADMITTANCE OF STRANGERS.

58. Persons desirous of admission into the Council Chamber during the sittings of Council shall make application to the Secretary, who will take the orders of the President thereon.

59. The President may, at any time during the sitting of the Council, direct that all strangers withdraw.

60. If a Bill which peculiarly affects private interests be under the consideration of the Council or of a Select Committee thereof and if any person whose interests are so affected apply to the Council or Select Committee for permission to be heard, either personally or by Council, on the subject of the Bill, the Council or Select Committee may, upon the motion of any member, direct that the petitioner or his counsel be heard at the meeting at which the motion is made or at and on some future specified time and day; and if the petitioner or his counsel is not present at the said meeting or does not appear at and on the said time and day, as the case may be, the permission granted by the Council or Select Committee shall be deemed to have lapsed.

61. Except as provided in Rules 43 and 60, no stranger shall be permitted to address the Council or any Select Committee.

62. Any member may move that the hearing of any person who has been permitted under Rule 60 to address the Council or a Select Committee shall cease, if such person is irrelevant or unduly prolix, or for any other sufficient reason.

XII. DUTIES OF THE SECRETARY.

63. The Secretary shall be bound to perform the following duties in addition to those specified in the preceding Rules—

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. Fl. 9082—*S. R.* 140-06-1, *dated 8th June* 1907.

The Government of His Highness the Maharaja have been pleased to frame the following Order in exercise of the powers conferred by the Mysore Stamp and Court Fees Regulations, 1900, and of all other powers enabling them in this behalf :—

No. Fl. 9083-125—S. R. 140-06-1, dated Bangalore, 8th June 1907.

"Order.—The Government observe that the existing arrangements in regard to the administration of stamp revenue are not sufficient either for developing the revenue from that source or for protecting the interests of Government against fraud, and that, as a consequence, the stamp revenue of the State has been on the decline during the past few years.

2. With a view to remedy this state of things, the Government resolved, as an administrative measure, to appoint a Commissioner of Stamps and entrust the functions of this office to the Inspector-General of Registration without prejudice to the other duties at present assigned to the holder of the last mentioned appointment. The duty of the *ex-officio* Stamp Commissioner will be to administer the stamp revenue, subject to the control of Government, and to see that the Stamp Laws and Rules are not evaded.

3. The Excise Divisional Officers and such other officers as Government may determine from time to time will be appointed Inspectors of Stamps under the Commissioner of Stamps. The Excise Divisional Officers are appointed accordingly *ex-officio* Inspectors of Stamps.

4. The Commissioner of Stamps (as also each Inspector of Stamps within his jurisdiction) is expected to inspect the record rooms of Civil, Criminal and Revenue Courts, with a view to ascertain whether the Stamp Laws and Rules are strictly carried out, and whether any frauds are committed by the omission to deface stamps once used. He will also see that the standing orders respecting the indent, supply, store, safe custody and vend of stamps in each district are not violated ; and that periodical returns are promptly and punctually submitted; and tabulated and compiled in his own office for submission to higher authority, whose attention he will

invite to any administrative points worthy of notice. The Commissioner of Stamps is requested to issue the needful instructions for the guidance of the Inspectors of Stamps.

5. The duties connected with the indenting for and the custody and supply of stamps will be performed by the respective District Treasury Officers as *ex-officio* District Stamp Officers.

6. The existing arrangements for the control and supervision of the Stamp Manufactory are not very efficient, and Government consider that a thorough overhauling of the arrangements connected with the manufacture of stamps is urgently necessary in the interests of the stamp revenue. The Commissioner of Stamps will accordingly be entrusted with the supervision of the Stamp Manufactory also.

7. The powers of the Chief Controlling Revenue Authority under the Mysore Stamp and Court Fees Regulations will remain vested in Government as heretofore.

8. The control over the Central, Branch and Local Depôts will be vested in the Commissioner of Stamps as the authority responsible for the provincial administration of the stamp revenue. The Superintendent of Stamps will be subordinate to the Commissioner of Stamps, and it will be one of the duties of the former officer to bring to the notice of the latter the fall in the stock of stamps in any local depôt below the prescribed amount. The District Stamp Officers, on the other hand, should report to the Commissioner of Stamps the failure on the part of the Superintendent of Stamps to speedily comply with their indents. The Commissioner of Stamps will be competent to direct in any particular case that the supply of stamps to be kept in any particular branch depôt shall be equal to the probable demand for three months.

9. With a view to enable Government to see how far inspections are regularly conducted, the Commissioner of Stamps should append to his annual report, (which should be submitted to Government not later than the 1st October of each year) a statement showing the amount of stamp inspection work performed and remaining to be performed in each district."

Villages may be grouped, amalgamated or divided.

4. (1) The Government may, with reference to rules made in this behalf under section 21, group or amalgamate any two or more villages or portions thereof so as to form a single new village, or divide any village into two or more villages and, thereupon, all village offices in the villages, portions of villages or village grouped, amalgamated or divided as aforesaid, shall cease to exist, and new offices shall be created for the new village or villages.

(2) In choosing persons to fill such new offices, the Deputy Commissioner shall select the persons whom he may consider the best qualified from among the families of the last holders of the offices which have ceased to exist.

Reduction of village offices.

(3) The Government may also direct that the number of village offices attached to a village shall be reduced, and, thereupon, the Deputy Commissioner shall dispense with the services of the officers no longer required and shall retain those whom he may consider to be best qualified to discharge the duties of the remaining offices.

5. (1) The Deputy Commissioner may, of his own motion or on complaint and after enquiry, fine, suspend, dismiss or remove any holder of a village office whether in an unalienated or alienated village, for misconduct or for neglect of duty or incapacity or for non-residence in the village or for any other sufficient cause.

(2) An Amildar or Deputy Amildar may, of his own motion or on complaint and after enquiry, fine any holder of a village office in an unalienated village for any of the causes specified in sub-section (1) and in such amount as the Government may, by general or special order, prescribe.

STATEMENT OF OBJECTS AND REASONS.

The necessity for replacing the existing scattered and disjointed body of rules and orders with regard to village offices in Mysore by a systematic scheme of legislation has engaged the consideration of Government for some time past. Of these rules and orders a few, such as the Rules* for the remuneration of patels and shanbhogs and minor village servants have the force of law ; others are orders passed by Government in appeals from the decisions of Revenue Officers in regular suits ; and a large number are merely administrative orders passed on the miscellaneous side and as such liable to be disregarded by subordinate officers in regular suits. The course of decisions, too, especially in the matter of succession to village offices, has not been by any means always uniform or certain ; with the result—which conflicting decisions induce—of encouraging litigation. Lastly, the success of the Revenue administration depends to a great extent upon the efficiency of the village service ; and the introduction of a law to regulate the latter and place it upon a proper basis follows naturally on the introduction of the Land Revenue Code, which has governed the former for the last fifteen years.

* Issued under the authority of the Government of India, with the Chief Commissioner's Notifications No. 219, dated the 27th October 1874, and No. 123, dated the 1st August 1878.

Such, then, is the occasion for the accompanying Draft Regulation, which, it may be observed, follows to a large extent (but with important variations) the lines of the Madras Hereditary Village Offices Act, III of 1895, the provisions of the latter being found, on careful examination, to be much better adapted to local requirements than are those of the Bombay Hereditary Offices Act, III of 1874.

It now remains to describe briefly the main provisions of the proposed Regulation.

Section 2 deals with definitions.

Under the definition of "village" here given, it will be possible to declare two or more villages ordinarily so called to be a single village for the purposes of the Regulation.

The characteristics of a "Village Office" as here defined are—

(i) the assignment of "emoluments" (a term defined comprehensively in the same section); and (ii) the annexing to the office of duties connected with some branch of the Civil administration pertaining to a village, whether these duties are actually demanded or not.

The provisos give power to Government, on the one hand, to exclude any office from the operation of the Regulation, and, on the other, to decide whether a particular office falls under the definition or not.

The destinction drawn between "Deputy Commissioner" (a term applicable in certain cases to a Divisional Assistant Commissioner) and "District Deputy Commissioner" (denoting the Chief Revenue Officer of the District) is a convenient one, and has been taken from the Madras General Clauses Act, 1891.

Section 3 embodies the existing law with respect to the inalienability of emoluments and their non-liability to attachment and sale by Courts.

Section 4 empowers Government to group, amalgamate or divide villages, and to reduce the number of offices, in a village, as may be necessary.

Section 5 deals with the powers of Deputy Commissioners, Amildars and Inamdars to punish village officers for reasons to be recorded in writing. In consonance with the existing practice, the powers of the Deputy Commissioner to punish officers in alienated villages have been assimilated to those with respect to officers in Government villages. In Madras, the latter powers are subject to restriction.

Sections 6 and 7 declare the rules to be observed in making appointments to the five main village offices of patel, shanbhog, nirganti, toti and talari. It is merely necessary to note that these rules will, among other things, do away with the right of females in certain circumstances, to be registered as the holders of village offices, but not of course, so as to interfere with claims to succession being traced *through* females, and that the rule of devolution of succession to a single heir as laid down will exclude the performance of duties by rotation; the latter being a system attended with many difficulties, not satisfactory on the one hand to the parties concerned, and not conductive, on the other, to the efficiency of business, besides leading to faction, litigation and intrigue and to a relaxation of the sense of responsibility. It may also be remarked that, under Section 7, the confirmation of the Deputy Commissioner will not in future be necessary, as at present, for appointments of patels and shanbhogs made by proprietors of Inam villages.

Section 8 deals with succession in the case of other village offices than the five specified, where such exist and are recognized. But, as a matter of fact, it may be observed that the connection of Government with such other offices comprised in the ancient *barabaluti* system has practically ceased.

Sections 9 to 15 and 17 to 19 embody the usual provisions about suits, procedure, appeals, limitation and similar matters.

Section 16 bars the jurisdiction of Civil Courts in regard to claims for the succession of village offices in respect of emoluments.

Section 20 will probably become unnecessary on the passing of the Police Regulation now before Government.

Section 21 enumerates the matters in regard to which Government may frame rules; and declares that, till rules as so made, the existing rules shall continue in force.
